Search For Concreteness:

The Search for Concreteness Darrel E. Christensen, 1986-09 Presents a methodological basis for a philosophy of concrete actuality Also breaks new ground in its mediation between two varied traditions of speculative philosophy Redescriptions Kari Palonen, 2005 With nine articles neatly combining contemporary theorizing and historical approaches to political thought and concepts this volume of *Redescriptions* draws attention to two topics several of the contributions share In these articles rhetoric serves both as a style of political theorizing and as a medium of conceptual change In addition the relationship of political thought and practice to religion is discussed as a subject matter as well as in the sense of a cultural heritage that is used by the political agents for contemporary purposes **Symphonic Stalinism** Jiří Smrž, 2011 The Soviet system of rule that developed under Stalin featured management of the arts by political authorities and the main doctrine inspiring and justifying this activity was socialist realism The definition of socialist realism emerged through a fluid process marked by twists and turns and at times even contestation in which critics scholars and creators alike gave the doctrine practical meaning *Symphonic Stalinism* tells this story for music and author Jiri Smrz examines it in much greater detail than any other scholar before him In the process Smrz emphasizes the crucial role played by musicologists which was probably unique in the history of that discipline internationally Series Osteuropa Vol 4 *Footnotes to a Theology* H. Martin Rumscheidt, 2020-08-04 Concreteness and Specificity in Clinical Psychology Luciano L'Abate, 2015-04-10 This provocative volume updates L'Abate's signature ideas focusing in particular on the concepts of concreteness and specificity as basic tenets of evaluation and therapy Noting society's growing familiarity with technology current concerns about treatment accessibility and widespread interest in wellness promotion he argues for remote writing exercises targeted to specific client issues and monitored by the clinician instead of relying on traditional talk based therapy This attention to concreteness and specificity in baseline evaluation post treatment evaluation and follow up the author asserts is central to making treatment replicable less subject to impasses or missteps and more professional with the potential of changing how therapy is conducted as well as how clinicians are trained and practice The book's framework includes rationales models empirical data and examples of prescriptive remote writing exercises Featured in the coverage Online interventions here to stay and to grow Verifiability in clinical psychology practices Present status and future perspectives for personality and family assessment Practice without theory combining theory with practice Toward a unifying framework of human relationships PIPES Programmed Interactive Practice Exercise and Prescriptions *Concreteness and Specificity in Clinical Psychology* will bring a new level of discussion and debate among clinical psychology practitioners and practicing psychotherapists in private practice and the public sector Advances in Usability, User Experience and Assistive Technology Tareq Z. Ahram, Christianne Falcão, 2018-06-27 This book focuses on emerging issues in usability interface design human computer interaction user experience and assistive technology It highlights research aimed at understanding human interaction with

products services and systems and focuses on finding effective approaches for improving user experience It also discusses key issues in designing and providing assistive devices and services to individuals with disabilities or impairment to assist mobility communication positioning environmental control and daily living The book covers modelling as well as innovative design concepts with a special emphasis on user centered design and design for specific populations particularly the elderly Virtual reality digital environments heuristic evaluation and forms of device interface feedback of e g visual and haptic are also among the topics covered Based on the AHFE 2018 Conference on Usability User Experience and the AHFE 2018 Conference on Human Factors and Assistive Technology held on July 21 25 2018 in Orlando Florida USA this book reports on cutting edge findings research methods and user centred evaluation approaches *Michael Oakeshott Selected Writings Collection* Michael Oakeshott, 2014-08-26 A collection of 6 volumes of Oakeshott's work Notebooks 1922 86 Early Political Writings 1925 30 The Concept of a Philosophical Jurisprudence Vocabulary of a Modern European State Lectures in the History of Political Thought and What is History **Big Data in Cognitive Science** Michael N. Jones, 2016-11-03 While laboratory research is the backbone of collecting experimental data in cognitive science a rapidly increasing amount of research is now capitalizing on large scale and real world digital data Each piece of data is a trace of human behavior and offers us a potential clue to understanding basic cognitive principles However we have to be able to put the pieces together in a reasonable way which necessitates both advances in our theoretical models and development of new methodological techniques The primary goal of this volume is to present cutting edge examples of mining large scale and naturalistic data to discover important principles of cognition and evaluate theories that would not be possible without such a scale This book also has a mission to stimulate cognitive scientists to consider new ways to harness big data in order to enhance our understanding of fundamental cognitive processes Finally this book aims to warn of the potential pitfalls of using or being over reliant on big data and to show how big data can work alongside traditionally rigorously gathered experimental data rather than simply supersede it In sum this groundbreaking volume presents cognitive scientists and those in related fields with an exciting detailed stimulating and realistic introduction to big data and to show how it may greatly advance our understanding of the principles of human memory perception categorization decision making language problem solving and representation **What Philosophy Is For** Michael Hampe, 2018-02-01 What is the state of philosophy today and what might it be tomorrow With *What Philosophy Is For* Michael Hampe answers these questions by exploring the relationships among philosophy education science and narrative developing a Socratic critique of philosophical doctrines Philosophers generally develop systematic theories that lay out the basic structures of human experience in order to teach the rest of humanity how to rightly understand our place in the world This scientific approach to philosophy Hampe argues is too one sided In this magnum opus of an essay Hampe aims to rescue philosophy from its current narrow claims of doctrine and to remind us what it is really for to productively disillusion us into clearer thinking Hampe takes us through twenty five hundred

years of intellectual history starting with Socrates That archetype of the philosophical teacher did not develop strict doctrines and rules but rather criticized and refuted doctrines With the Socratic method we see the power of narration at work Narrative and analytical disillusionment Hampe argues are the most helpful long term enterprises of thought the ones most worth preserving and developing again What Philosophy Is For is simultaneously an introduction a critique and a call to action Hampe shows how and why philosophy became what it is today and crucially shows what it could be once more if it would only turn its back on its pretensions to dogma a privileged space for reflecting on the human condition

Information Design Alison Black,Paul Luna,Ole Lund,Sue Walker,2017-01-12 Information Design provides citizens business and government with a means of presenting and interacting with complex information It embraces applications from wayfinding and map reading to forms design from website and screen layout to instruction Done well it can communicate across languages and cultures convey complicated instructions even change behaviours Information Design offers an authoritative guide to this important multidisciplinary subject The book weaves design theory and methods with case studies of professional practice from leading information designers across the world The heavily illustrated text is rigorous yet readable and offers a single must have reference to anyone interested in information design or any of its related disciplines such as interaction design and information architecture information graphics document design universal design service design map making and wayfinding

Beat Depression with Self-Help Techniques Andrew Vass,2012-01-12 Facing difficult situations is part of our everyday lives but we can easily feel overwhelmed and become drawn into a depressive state However this book illustrates that by using a range of self counselling techniques to explore our inner world of thoughts and feelings it is possible to overcome our problems and move on Through a logical sequence of chapters each containing a series of tasks role playing examples illuminative illustrations challenging questions and useful self help exercises the reader will gain a practical understanding of the different counselling techniques and the power and effectiveness of cognitive and rational emotive behavioural therapies Tackling a wide range of issues including relationship problems bringing up children bullying work pressures stress anger grief morale and assertiveness this down to earth guide to dealing with depression represents an essential DIY kit for achieving a more positive and healthy outlook on life

Decision Modeling and Behavior in Complex and Uncertain Environments Tamar Kugler,J. Cole Smith,Terry Connolly,Young-Jun Son,2008-07-20 On February 27 and 28 of 2006 the University of Arizona held a workshop entitled Decision Modeling and Behavior in Uncertain and Complex Environments sponsored by the Air Force Office of Scientific Research under a Multidisciplinary University Research Initiative MURI grant The purpose of the workshop was to assemble preeminent researchers studying problems at the interface of behavioral and cognitive science decision analysis and operations research This book is a compilation of 14 chapters based on the presentations given during the workshop These contributions are grouped into four general areas which describe in some detail the challenges in conducting novel research in this field Part One is concerned with the need for

integrating decision analysis and behavioral models Robert T Clemen discusses how the elds of behavioral search and decision analysis have diverged over time and makes a compelling case to establish new links between the disciplines He recommends leveraging lessons learned from behavioral studies within prescriptive decision analysis studies and evaluating the practical impact of those prescriptive techniques in helping decision makers achieve their objectives Jenna L Marquard and Stephen M Robinson address eleven common traps that face decision model analysts and users An understanding of these traps leads to an understanding of modeling features that either help or hurt the decision making process The authors link theory and practice by examining a set of case studies across a diverse array of model scenarios and provide a checklist of recommendations for analysts confronted by these eleven traps

The Dialectics of the Abstract and the Concrete in Marx's Capital E. V. Ilyenkov, 2008 The book presents an integral Marxist conception of the dialectics and methodology of scientific theoretical cognition of the dialectical interrelation between the abstract and the concrete of the unity of the historical and the logical of the correlat

Inventive Minds Robert John Weber, David N. Perkins, 1992 Is invention really 99 percent perspiration and one percent inspiration as Thomas Edison assured us Inventive Minds assembles a group of authors well equipped to address this question contemporary inventors of important new technologies historians of science and industry and cognitive psychologists interested in the process of creativity In telling their stories the inventors describe the origins of such remarkable devices as ultrasound the electron microscope and artificial diamonds The historians help us look into the minds of innovators like Thomas Edison Alexander Graham Bell Michael Faraday and the Wright brothers drawing on original notebooks and other sources to show how they made their key discoveries Finally cognitive psychologists explore the mental processes that figure in creative thinking Contributing to the authors insight is their special focus on the front end of invention where ideas come from and how they are transformed into physical prototypes They answer three questions How does invention happen How does invention contrast with other commonly creative pursuits such as scientific inquiry musical composition or painting And how might invention best happen that is what kinds of settings conditions and strategies appear to foster inventive activity The book yields a wealth of information that will make absorbing reading for cognitive and social psychologists social historians and many working scientists and general readers who are interested in the psychology of personality and the roots of ingenuity

WEBKDD 2001 - Mining Web Log Data Across All Customers

Touch Points Ron Kohavi, Brij M. Masand, Myra Spiliopoulou, Jaideep Srivastava, 2003-08-02 Workshop Theme The ease and speed with which business transactions can be carried out over the Web has been a key driving force in the rapid growth of electronic commerce In addition customer interactions including personalized content e mail c paigns and online feedback provide new channels of communication that were not previously available or were very ine cient The Web presents a key driving force in the rapid growth of electronic c merce and a new channel for content providers Knowledge about the customer is fundamental for the establishment of viable e commerce solutions Rich web logs provide companies with data about their

customers and prospective customers allowing micro segmentation and personalized interactions Customer acquisition costs in the hundreds of dollars per customer are common justifying heavy emphasis on correct targeting Once customers are acquired customer retention becomes the target Retention through customer satisfaction and loyalty can be greatly improved by acquiring and exploiting knowledge about these customers and their needs

Although weblogs are the source for valuable knowledge patterns one should keep in mind that the Web is only one of the interaction channels between a company and its customers Data obtained from conventional channels provide invaluable knowledge on existing market segments while mobile communication adds further customer groups In response companies are beginning to integrate multiple sources of data including web wireless call centers and brick a mortar store data into a single data warehouse that provides a multifaceted view of their customers their preferences interests and expectations

Metaphors in Psychotherapy Kevin William Grant, 2020-01-28 Kevin William Grant examines the cognitive processes that produce metaphors in psychotherapy The I Ching Task is the measure of metaphor production applied in this research inquiry Two cognitive processes are hypothesized to be necessary for the production of a metaphor The first hypothesized cognitive process is sensory imaginal processing where attention is concentrated into one's internal experiencing and sensory awareness to form sensory impressions or sensory images The second type of processing is called integration synthesis processing and this is hypothesized to work in parallel with sensory imaginal processing Integration synthesis processing functions to combine conflicting or contradictory elements into an integrated whole Metaphor is the meeting point of these processes and all of them are important in the production of metaphor in psychotherapy Revised and updated from the first edition published in 1991 **In Search of Sanity** Andrew Shirra Gibb, 1942 **Psyche**, 1928 **Psyche** Charles Kay Ogden, 1928 Includes section Current literature *Hegelian/Whiteheadian Perspectives* Darrel E. Christensen, 1989

Embark on a breathtaking journey through nature and adventure with is mesmerizing ebook, **Search For Concreteness** .
