Matthiessen, 2008-09-30 WINNER OF THE NATIONAL BOOK AWARD A masterpiece that exceeds the boundaries of the travel genre and envelops you with its incredible prose Wall Street Journal An unforgettable spiritual journey through the Himalayas by renowned writer Peter Matthiessen 1927-2014 In 1973 Peter Matthiessen and field biologist George Schaller traveled high into the remote mountains of Nepal to study the Himalayan blue sheep and possibly glimpse the rare and beautiful snow leopard Matthiessen a student of Zen Buddhism was also on a spiritual quest to find the Lama of Shey at the ancient shrine on Crystal Mountain As the climb proceeds Matthiessen charts his inner path as well as his outer one with a deepening Buddhist understanding of reality suffering impermanence and beauty This Penguin Classics edition features an introduction by acclaimed travel writer and novelist Pico Iyer For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators     **Crowdsourcing** Jeff Howe, 2008-08-26 The amount of knowledge and

talent dispersed among the human race has always outstripped our capacity to harness it Crowdsourcing corrects that but in doing so it also unleashes the forces of creative destruction From Crowdsourcing First identified by journalist Jeff Howe in a June 2006 Wired article crowdsourcing describes the process by which the power of the many can be leveraged to accomplish feats that were once the province of the specialized few Howe reveals that the crowd is more than wise it s talented creative and stunningly productive Crowdsourcing activates the transformative power of today s technology liberating the latent potential within us all It s a perfect meritocracy where age gender race education and job history no

longer matter the quality of work is all that counts and every field is open to people of every imaginable background If you can perform the service design the product or solve the problem you've got the job But crowdsourcing has also triggered a dramatic shift in the way work is organized talent is employed research is conducted and products are made and marketed As the crowd comes to supplant traditional forms of labor pain and disruption are inevitable Jeff Howe delves into both the positive and negative consequences of this intriguing phenomenon Through extensive reporting from the front lines of this revolution he employs a brilliant array of stories to look at the economic cultural business and political implications of crowdsourcing How were a bunch of part time dabblers in finance able to help an investment company consistently beat the market Why does Procter Gamble repeatedly call on enthusiastic amateurs to solve scientific and technical challenges How can companies as diverse as iStockphoto and Threadless employ just a handful of people yet generate millions of dollars in revenue every year The answers lie within these pages The blueprint for crowdsourcing originated from a handful of computer programmers who showed that a community of like minded peers could create better products than a corporate behemoth like Microsoft Jeff Howe tracks the amazing migration of this new model of production showing the potential of the Internet to create human networks that can divvy up and make quick work of otherwise overwhelming tasks One of the most intriguing ideas of Crowdsourcing is that the knowledge to solve intractable problems a cure for cancer for instance may already exist within the warp and weave of this infinite and as yet largely untapped resource But first Howe proposes we need to banish preconceived notions of how such problems are solved The very concept of crowdsourcing stands at odds with centuries of practice Yet for the digital natives soon to enter the workforce the technologies and principles behind crowdsourcing are perfectly intuitive This generation collaborates shares remixes and creates with a fluency and ease the rest of us can hardly understand Crowdsourcing just now starting to emerge will in a short time simply be the way things are done

**Travel literature** Dr. V. Karunanithi, Ms. Abisha Jasmine Suganthi S, 2024-05-15 Travel Literature that immerses readers in the experiences landscapes and cultures of various destinations around the world It combines personal anecdotes vivid descriptions and insightful reflections on the places visited Through the lens of the traveler these works often explore themes of adventure self discovery and the complexities of the human connection to the environment Travel literature can inspire curiosity broaden perspectives and offer a window into the

diversity of life across the globe     Journeys of Transformation John D. Barbour, 2022-03-31 Western Buddhist travel narratives are autobiographical accounts of a journey to a Buddhist culture. Dozens of such narratives have since the 1970s describe treks in Tibet, periods of residence in a Zen monastery, pilgrimages to Buddhist sites and teachers, and other Asian odysseys. The best known of these works is Peter Matthiessen's *The Snow Leopard*; further reflections emerge from thirty writers including John Blofeld, Jan Van de Wetering, Thomas Merton, Oliver Statler, Robert Thurman, Gretel Ehrlich, and Bill Porter. The Buddhist concept of no self helps these authors interpret certain pivotal experiences of unselfing and is also a catalyst that provokes and enables such events. The writers' spiritual memoirs describe how their journeys brought about a new understanding of Buddhist enlightenment and so transformed their lives. Showing how travel can elicit self-transformation, this book is a compelling exploration of the journeys and religious changes of both individuals and Buddhism itself.
