**Search Strategies in Mass Communication** Jean Ward, Kathleen A. Hansen, 1987  
**Media Research Techniques** Arthur Asa Berger, 1998-05-05 The first edition was praised for being delightful engaging readable and well organized Now once again Arthur Asa Berger continues the tradition of providing students with a clearly written user friendly hands on guide to media research techniques with the long awaited second edition of his best selling classic Media Research Techniques Leading the reader through a number of specially designed research projects such as content analysis surveys focus groups and in depth interviews he presents an array of interesting and practical assignments In response to suggestions from faithful users of the first edition Berger has added new chapters in the following areas Experimentation Historical Research Comparative Research Participant Observation This handy guide can be used in conjunction with texts on research methodology or it can stand alone and be used in courses dealing with such topics as media popular arts and American culture and society Practical and concise Media Research Techniques Second Edition is an essential tool for everyone in communication journalism written communication methodology research gaming and cultural studies  
**Mass Media** James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes  
Journalism Jo A. Cates, 2004-05-30 Journalism A Guide to the Reference Literature is a critically annotated bibliographic guide to print and electronic sources in print and broadcast journalism The first edition was published in 1990 the second in 1997 It has been described as one of the critical reference sources in journalism today and it is a key bibliographic guide to the literature Choice magazine called it a benchmark publication for which there are no comparable sources The format is similar to the second edition What makes this edition significantly different is the separation of Commercial Databases and Internet Resources Commercial Databases includes standard fee based resources The new chapter on Internet sources features Web based resources not included in the commercial databases chapter as well as portals other online files listservs newsgroups and Web logs blogs All chapters have been revised and there are significant revisions in Directories Yearbooks and Collections Miscellaneous Sources Core Periodicals Societies and Associations and Research Centers and Archives The second edition has 789 entries The third edition contains almost 1 000 entries James Carey of Columbia University who provided the foreword for the first two editions has updated his foreword for this edition  
Media and Communication Research Methods Arthur Asa Berger, 2011 In this new edition Arthur Asa Berger employs his signature style a practical focus the use of numerous examples a step by

step approach and humour to update and enhance this must have introductory text Combining both qualitative and quantitative research methods the book covers the topics thoroughly and is clearly written and engaging This book is ideal for beginning research students both at the graduate and undergraduate level because it is clear concise and accompanied by many detailed examples      Refining Milestone Mass Communications Theories for the 21st Century Ran Wei,2017-12-22 The Milestones essays in Mass Communication and Society are reflective and analytical articles by the most notable scholars in the field These classic essays address 21st century issues from the pioneers of media and communication studies including Elihu Katz on new media and social movements George Gerbner on cultivation analysis and Dietram Scheufele on political communication As technologies evolve and mass communication becomes mobilized and democratized more individual and also more social these landmark scholars provide ideas about how established theories may be applied in new ways and how future research can expand our understanding of mass communication as its reach and effects grow ever larger This book will be essential reading for both students and researchers of Mass Communications Research      Media Mythologies Barry Lowe,1995 An examination of the media and how it operates in Australia The history of human communication is outlined and an exploration of contemporary media ownership and media criticism is presented The author a communications lecturer at Charles Sturt University has worked for various media organisations including the ABC SBS TV The Australian and 60 Minutes      Methods of Historical Analysis in Electronic Media Donald G. Godfrey,2006-08-15 Methods of Historical Analysis in Electronic Media provides a foundation for historical research in electronic media by addressing the literature and the methods traditional and the eclectic methods of scholarship as applied to electronic media It is about history broadcast electronic media history and history that has been broadcast and also about the historiography research written and the research yet to be written Divided into five parts this book addresses the challenges in the application of the historical methods to broadcast history reviews the various methods appropriate for electronic media research based on the nature of the object under study suggests new approaches to popular historical topics takes a broad topical look at history in broadcasting and provides a broad overview of what has been accomplished a historian s challenges and future research Intended for students and researchers in broadcast history Methods of Historical Analysis in Electronic Media provides an understanding of the qualitative methodological tools necessary for the study of electronic media history and illustrates how to find primary sources for electronic media research      **Careers in Media and Communication** Stephanie A. Smith,2018-03-09 Careers in Media and Communication is a practical resource that helps students understand how a communication degree prepares them for a range of fulfilling careers it gives students the skills they will need to compete in a changing job market Award winning teacher and author Stephanie A Smith draws from her years of professional experience to guide students through the trends and processes of identifying finding and securing a job in in mass communication Throughout the book students explore the daily lives of professionals currently working in the field as well as

gain firsthand insights into the training and experience that hiring managers seek      **Assessing Media Education** William G. Christ, 2013-11-05 This volume moves through the steps of developing an assessment plan establishing student learning outcomes in the various areas of the curriculum measuring these outcomes For faculty administrators preparing for accreditation      *Media and Communication Research* Arthur Asa Berger, 2000-03-21 In this book Arthur Asa Berger combines a practical focus the use of numerous examples a step by step approach and humour to examine both qualitative and quantitative research methods in media and communication research      *Ethical Issues in the Communication Process* J. Vernon Jensen, 2013-11-05 A rapid and widespread growth of interest in applied ethics is occurring today not only in the United States but around the world as well Academia both reflects this and is a leader in the movement The field of speech communication shares in this increased sensitivity to ethical concerns Students and the general public are looking for thoughtful analyses and guidance in all areas of communication Ethical concerns relative to mass communication have been the subject of a number of books but only a very few cover the entire scope of communication to include interpersonal intercultural organizational small groups and public speaking This book tries to fill that need by discussing ethical concerns as they emerge in the areas of the communication process the communicator the message the media the audience and the situation The speech communication field now has a need to digest and synthesize the existing research findings and the general literature in the field and in related humanities and social science works into a coherent and nontechnical discussion This volume explores the most up to date materials to provide just such a synthesis An extensive bibliography at the end of the book gives readers the sources on which the book is based and offers ample avenues for further personal exploration The book should provide meaningful food for thought as readers grapple conscientiously with the many everyday decisions made in communication transactions and in evaluating the communication of others      *Telecommunications Research Resources* James K. Bracken, Christopher H. Sterling, 2021-12-16 As the telecommunication and information field expands and becomes more varied so do publications about these technologies and industries This book is a first attempt to provide a general guide to that wealth of English language publications both books and periodicals on all aspects of telecommunication It is a comprehensive evaluative sourcebook for telecommunications research in the United States that brings together a topically arranged cross referenced and indexed volume in one place The information provided is only available by consulting a succession of different directories guides bibliographies yearbooks and other resources On the one hand it is a directory that describes in detail the major entities that comprise the American telecommunication research infrastructure including federal and state government offices and agencies and private public and corporate research institutions On the other hand it is a bibliography that identifies and assesses the most important and useful reference and critical resources about U S telecommunication history technology industry and economics social applications and impacts plus policy law and regulations and role in the global telecommunication marketplace No existing guide covers all of these aspects in the depth and detail of

this volume *Resources in Education* ,2001-04 **Historical Methods in Mass Communication** James D. Startt,2003 Handbook of the research methods used to study the history of mass communication **Research Anthology on Improving Health Literacy Through Patient Communication and Mass Media** Management Association, Information Resources,2021-07-16 Increasing health literacy among patients is a difficult task as medical jargon and healthcare directions can be overwhelming and difficult to comprehend In today s digital world people are more connected than ever before and have the ability to find healthcare information in a way that was not possible in recent years Mass media and social media have become particularly influential in conveying health information to the public With the amount of misinformation being spread coupled with poor health literacy skills it is imperative that new strategies and policies are undertaken to ensure that patients and the general public receive accurate information and are appropriately educated in order to provide them with the best possible knowledge and care The Research Anthology on Improving Health Literacy Through Patient Communication and Mass Media provides an overview of the importance of health literacy and the various means to achieve health literacy for patients using several strategies and elements such as patient communication and mass media The book covers health awareness challenges that have been faced recently and historically and pushes for better patient provider communication The book also examines the use of social media virtual support groups and technological tools that aid in the facilitation of health knowledge Covering a range of key topics such as patient safety health illiteracy and eHealth this anthology is crucial for healthcare professionals researchers academicians students and those interested in understanding the importance of health literacy and how it connects to media and communication Media Education Assessment Handbook William G. Christ,2020-07-24 Assessing media education is a formidable task because both assessment and media education are complex and controversial concepts Assessment which can take place at the individual student class sequence program department or unit and university levels is questioned in terms of reliability validity relevance and cost Media education which has been challenged at a number of schools finds faculty and administrators in the midst of soul searching about how to clearly articulate its missions and purposes to a broader audience Departments are under increasing national state and institutional pressure to get assessment procedures carried out quickly but there is an obvious danger in rushing to implement assessment strategies before establishing what is essential in media education In communication education in general the what of assessment is often discussed in terms of skills attitudes affect values and knowledge People assess students to determine what they know think feel value and can do Here it is suggested that one of the places to start defining what students should learn from their media education is by identifying outcomes Outcomes can be assessed in a variety of ways but first they need to be developed and clearly articulated *Primer of Public Relations Research, Third Edition* Don W. Stacks,2016-11-23 Thousands of public relations PR students and professionals have relied on this authoritative text to understand the key role of research in planning and evaluating PR campaigns Revised and expanded to

reflect today's emphasis on standards based practice the third edition has a heightened emphasis on setting baselines creating benchmarks and assessing progress Stacks presents step by step guidelines for using a wide range of qualitative and quantitative methods to track output outcomes and shows how to present research findings clearly to clients Every chapter features review questions and a compelling practice problem PowerPoint slides for use in teaching are provided at the companion website Instructors requesting a desk copy also receive a supplemental Instructor's Manual with a test bank suggested readings and case studies New to This Edition Chapter on standardization moving beyond the prior edition's focus on best practices Chapter on different types of data sets with attention to the advantages and disadvantages of using Big Data Addresses the strategic use of key performance indicators Covers the latest content analysis software Pedagogical Features Each chapter opens with a chapter overview and concludes with review questions End of chapter practice problems guide readers to implement what they have learned in a PR project Appendix provides a dictionary of public relations measurement and research terms Supplemental Instructor's Manual and PowerPoint slides
