Life Between the Tides Adam Nicolson, 2025-08-22 Adam Nicolson explores the marine life inhabiting seashore rockpools with a scientist's curiosity and a poet's wonder in this beautifully illustrated book The sea is not made of water Creatures are its genes Look down as you crouch over the shallows and you will find a periwinkle or a prawn a claw displaying crab or a cluster of anemones ready to meet you No need for binoculars or special stalking skills go to the rocks and the living will say hello Inside each rock pool tucked into one of the infinite crevices of the tidal coastline lies a rippling silent unknowable universe Below the stillness of the surface course different currents of endless motion the ebb and flow of the tide the steady forward propulsion of the passage of time and the tiny lifetimes of the rock pool's creatures all of which coalesce into the grand narrative of evolution In *Life Between the Tides* Adam Nicolson investigates one of the most revelatory habitats on earth Under his microscope we see a prawn's head become a medieval helmet and a group of winkles transform into a Dickensian social scene with mollusks munching on Stilton and glancing at their pocket watches Or rather is a winkle more like Achilles an ancient hero throwing himself toward death for the sake of glory For Nicolson who writes with scientific rigor and a poet's sense of wonder The American Scholar the world of the rock pools is infinite and as intricate as our own As Nicolson journeys between the tides both in the pools he builds along the coast of Scotland and through the timeline of scientific discovery he is accompanied by great thinkers no one can escape the pull of the sea We meet Virginia Woolf and her Waves a young T S Eliot peering into his own rock pool in Massachusetts even Nicolson's father in law a classical scholar who would hunt for amethysts along the shoreline his mind on Heraclitus and the other philosophers of ancient Greece And of course scientists populate the pages not only their discoveries but also their doubts and errors their moments of quiet observation and their thrilling realizations Everything is within the rock pools where you can look beyond your own reflection and find the miraculous an inch beneath your nose The soul wants to be wet Heraclitus said in Ephesus twenty five hundred years ago This marvelous book demonstrates why it is so Includes Color and Black and White Photographs [A Photographic Guide to Seashore Life in the North Atlantic](#) J.
