Being Given Jean-Luc Marion, 2002-07-31 Along with Husserl's Ideas and Heidegger's Being and Time Being Given is one of the classic works of phenomenology in the twentieth century Through readings of Kant Husserl Heidegger Derrida and twentieth century French phenomenology e.g. Merleau-Ponty Levinas and Henry it ventures a bold and decisive reappraisal of phenomenology and its possibilities Its author's most original work to date the book pushes phenomenology to its limits in an attempt to redefine and recover the phenomenological ideal which the author argues has never been realized in any of the historical phenomenologies Against Husserl's reduction to consciousness and Heidegger's reduction to Dasein the author proposes a third reduction to givenness wherein phenomena appear unconditionally and show themselves from themselves at their own initiative Being Given is the clearest most systematic response to questions that have occupied its author for the better part of two decades The book articulates a powerful set of concepts that should provoke new research in philosophy religion and art as well as at the intersection of these disciplines Some of the significant issues it treats include the phenomenological definition of the phenomenon the redefinition of the gift in terms not of economy but of givenness the nature of saturated phenomena and the question Who comes after the subject Throughout his consideration of these issues the author carefully notes their significance for the increasingly popular fields of religious studies and philosophy of religion Being Given is therefore indispensable reading for anyone interested in the question of the relation between the phenomenological and the theological in Marion and emergent French phenomenology

Anthology of Black Humor André Breton, 2021-01-29 This is the first publication in English of the anthology that contains Breton's definitive statement on humour noir one of the seminal concepts of Surrealism and his provocative assessments of the writers he most admired While some of the authors featured in The Anthology of Black Humor are already well known to American readers Swift Kafka Rimbaud Poe Lewis Carroll and Baudelaire among them and even then Breton's selections are often surprising many others are sure to come as a revelation The entries range from the acerbic aphorisms of Swift Lichtenberg and Duchamp to the theatrical slapstick of Christian Dietrich Grabbe from the wry missives of Rimbaud and Jacques Vache to the manic paranoia of Dali from the ferocious iconoclasm of Alfred Jarry and Arthur Craven to the offhand hilarity of Apollinaire at his most spontaneous For each of the forty-five authors included Breton has provided an enlightening biographical and critical preface situating both the writer and the work in the context of black humor a partly macabre partly ironic and often absurd turn of spirit that Breton defined as a superior revolt of the mind Anthologies can aim to be groundbreaking or thought provoking few can be said to have introduced a new phrase or a new concept into the language No one had ever used the term black humour before this one came along unless perhaps it was from a racial angle The Guardian Andre Breton 1896-1966 the founder and principal theorist of the Surrealist movement is one of the major literary figures of the past century His best known works in English translation include Nadja Mad Love The Manifestoes of

Surrealism The Magnetic Fields with Philippe Soupault and Earthlight Mark Polizzotti is the author of Revolution of the Mind The Life of Andre Breton

English Responses to French Poetry 1880-1940 Jennifer Higgins, 2017-12-02 Between 1880 and 1940 English responses to French poetry evolved from marginalised expressions of admiration associated with rebellion against the establishment to mainstream mutual exchange and appreciation The translation of poetry underwent a simultaneous evolution from attempts to produce definitive renderings to definitions of translation as an ongoing generative process at the centre of literary debate This study traces the impact of French poetry in England via a wide range of translations by major poets of the time as well as renderings by now forgotten writers It explores poetry and translations beyond the limits of the usual canon and identifies key moments of influence from late 19th century English homages to Victor Hugo as a liberal icon to Ezra Pound re interpreting Charles Baudelaire for the 20th century

Horrible Workers Donald A. Nielsen, 2005-01-01 The poet makes himself a seer by a long boundless and systematic derangement of all the senses What if he is destroyed in his flight through things unheard of and unnamed other horrible workers will come they will begin at the horizons where the other has fallen In Arthur Rimbaud s letter to Paul Demeny Rimbaud describes the poet s role as being something like a trickster But the poet s trick or joke is self directed A long dissociation of the senses from reality creates for the poet a new relationship to reality But the poet s work with reality is always something like a play at what is real Play becomes necessary so that the poet doesn t just change his or her relationship to reality but in playing creates a space for poetics a space for work The French poet Arthur Rimbaud American blues musician Robert Johnson German anarchist intellectual Max Stirner and the phenomena of the Manson family circle have all appeared as forms and figures on the invisible horizon described by Rimbaud above Through a reading of Emile Durkheim s Suicide Donald Nielsen demonstrates how in each case one can locate hitherto unnoticed similarities in the social experiences of each subject featured in these four cases Nielsen demonstrates how social experience can lead to forms of cultural expression that are contrary to the logic of the originating experience In his discussion of experience and expression Nielsen creates a truly unique text that sheds new light on sociological theory modernism and modernist thought ethics and religious thought and new and burgeoning methodologies in cultural studies Sociologists anthropologists psychologists philosophers of the social sciences and adherents to cultural studies will find much of interest in Nielsen s excellent study
