A Seat at the Table Kelly Dittmar,Kira Sanbonmatsu,Susan J. Carroll,2018-08-17 The presence of women in Congress is at an all time high approximately one of every five members is female and record numbers of women are running for public office for the 2018 midterms At the same time Congress is more polarized than ever and little research exists on how women in Congress view their experiences and contributions to American politics today Drawing on personal interviews with over three quarters of the women serving in the 114th Congress 2015 17 the authors analyze how these women navigate today s stark partisan divisions and whether they feel effective in their jobs Through first person perspectives A Seat at the Table looks at what motivates these women s legislative priorities and behavior details the ways in which women experience service within a male dominated institution and highlights why it matters that women sit in the nation s federal legislative chambers It describes the strategies women employ to overcome any challenges they confront as well as the opportunities available to them The book examines how gender interacts with political party race and ethnicity seniority chamber and district characteristics to shape women s representational influence and behavior finding that party and race ethnicity are the two most complicating factors to a singular narrative of women s congressional representation While congresswomen s perspectives experiences and influence are neither uniform nor interchangeable they strongly believe their presence matters in myriad ways affecting congressional culture priorities processes debates and outcomes

Finding Your Seat at the Table Susan M. Harnett,Laureen P. Cantwell-Jurkovic,2022-02-19 Service on Institutional Review Boards IRB and Institutional Animal Care and Use Committees IACUC is an uncommon activity for librarians Even librarians who participate in institutional research activities in a supportive capacity or conduct their own original research as scholars themselves and are familiar with the IRB IACUC research approval process they may hesitate to participate more fully with these boards There may be a perception that the work of the IRB and IACUC is too scientifically complex for librarians without an appropriate background Library administrators may not advocate for librarian inclusion on the board for fear of additional burdens on the librarian s time and university administrators might need some convincing of the librarian s suitability to perform this work This book provides librarians with foundational knowledge of the IRB and IACUC describes the work of these important committees and expands librarians conceptualization and knowledge of opportunities to create services and partnerships through participation The book provides a progressively more comprehensive understanding of the work of these committees Parts I and II discuss IRB

and IACUC respectively their history functions and membership Part III highlights expanding roles for librarians on IRB and IACUC and in institutional research activities A special feature of this section describes the experiences of librarians in their own words who work with IRB or IACUC what they have learned how they have used their experiences to create partnerships and market library services and what role they see for libraries and librarians in institutional research

A Seat at the Table and The Art of Business Value Mark Schwartz, 2017-10-10 A Seat at the Table Agile Lean and DevOps approaches are radical game changers They provide a fundamentally different way to think about how IT fits into the enterprise how IT leaders lead and how IT can harness technology to accomplish the objectives of the enterprise But honest and open conversations are not taking place at the interface between management and Agile delivery teams In A Seat at the Table CIO Mark Schwartz explores the role of IT leadership as it is now and the role of IT leadership as it should be an integral part of the value creation engine Asking two critical questions how can IT harness Agility to achieve the best value for the enterprise and how can IT redefine its relationship with the enterprise to maximize this value and in the process earn that seat at the table Schwartz shows that the only way to become an Agile IT leader in today's world is to be courageous to throw off many of the attitudes and assumptions that have left CIOs struggling to gain a seat at the table to proceed in bold strokes and to lead the enterprise in seizing opportunities to create business value through technology The Art of Business Value Do you really understand what business value is Information technology can and should deliver business value But the Agile literature has paid scant attention to what business value means and how to know whether or not you are delivering it This problem becomes ever

more critical as you push value delivery toward autonomous teams and away from requirements tossed over the wall by business stakeholders An empowered team needs to understand its goal Playful and thought provoking The Art of Business Value explores what business value means why it matters and how it should affect your software development and delivery practices More than any other IT delivery approach DevOps and Agile thinking in general makes business value a central concern This book examines the role of business value in software and makes a compelling case for why a clear understanding of business value will change the way you deliver software This book will make you think deeply about not only what it means to deliver value but also the relationship of the IT organization to the rest of the enterprise It will give you the language to discuss value with the business methods to cut through bureaucracy and strategies for incorporating Agile teams and culture into the enterprise Most of all this book will startle you into new ways of thinking about the cutting edge of Agile practice and where it may lead A Seat at the Table Glenn L. analogous to having a voice and decision making authority in organizations and governmental entities At a larger more structural level having a seat at the table translates to having an impact upon policy and governance When African Americans and underrepresented ethnic minoritized individuals have such a seat it is usually deemed a first and sometimes the only in a sea of whiteness Seated at the Table is my reflection on what we are capable of as senior level leaders in organizations who desire systemic and structural cultural transformation As an African American woman I feel it is particularly poignant that I have such a seat and that I accept as a critical aspect of holding such a position the responsibility to pull others along in our journey towards inclusivity and equity for all people particularly those who are marginalized and have historically been left out of such discussions and decisions Throughout this book I provide data and statistics that are shockingly real and which underscore works such as this as exceptionally relevant in today s racialized society It is my hope that readers walk away from this book with a sense of urgency and agency as they tackle the malignant isms that permeate society at large and subsequently the organizations that have in sum profited from the oppression and denigration of racial and ethnically minoritized groups Brewer 2021 Thomas 2019 No system or institution in the United States including

Transcendence at the Table Julia Hurlow,2020-10-29 When is the last time you sat down for a meal to break bread with other people and experienced peace Throughout the arc of the scriptural narrative the word shalom is used as a way to speak of the way of peace This word shalom embodies the depiction of creation where all things would glorify to the Triune God as well as bear the image of the Triune God who seamlessly embraces love and belonging What if the universal space at a table is where shalom is experienced relationally What if the longing people have for love and belonging can be extended through hospitality at a table Unification can happen when invitations are extended to come participate and communicate at the table as a reflection of the Imago Dei **Constructing Community** Jeremy Levine,2021-06-01 A look at the benefits and consequences of the rise of community based organizations in urban development Who makes decisions that shape the housing policies and social programs in urban neighborhoods Who in other words governs Constructing Community offers a rich ethnographic portrait of the individuals who implement community development projects in the Fairmount Corridor one of Boston s poorest areas Jeremy Levine uncovers a network of nonprofits and philanthropic foundations making governance decisions alongside public officials a public private structure that has implications for democratic representation and neighborhood inequality Levine spent four years following key players in Boston s community development field While state senators and city councilors are often the public face of new projects and residents seem empowered through opportunities to participate in public meetings Levine found a shadow government of nonprofit leaders and philanthropic funders

nonelected neighborhood representatives with their own particular objectives working behind the scenes Tying this system together were political performances of community government and nonprofit leaders all claiming to value the community Levine provocatively argues that there is no such thing as a singular community voice meaning any claim of community representation is by definition illusory He shows how community development is as much about constructing the idea of community as it is about the construction of physical buildings in poor neighborhoods Constructing Community demonstrates how the nonprofit sector has become integral to urban policymaking and the tensions and trade offs that emerge when private nonprofits take on the work of public service provision
