Maynard, 2002-06-03 *Healing for the City* is a book for counseling urban dwellers in need whether they be inside or outside the church. It focuses on the brokenness and typical problems of urban dwellers without assuming that all who live in the city suffer from serious dysfunctions. This book was written to offer guidance to those who counsel in an urban setting to provide a response to the emotional, relational, and spiritual distress that one often encounters in the city. The three parts of the book treat the distinctive elements of the urban context: specific concerns of ethnic groups (Asian, Black, Hispanic) and approaches to particular pressing problems such as addictive behaviors, divorce, recovery, single parenting, sexual abuse, etc. *Healing for the City* was written for pastors, social workers, counselors, professionals, and paraprofessionals and other Christians in positions of leadership and spiritual direction.

Therapists Who Have Sex With Their Patients Herbert S. Streehan, 2018-10-24 First published in 1994, *Therapists who use and abuse their power* makes for high talk show ratings and tabloid sales but are these people simply to be written off as sick and evil? Dr. Herbert Streehan believes not. In this unflinchingly honest book, Dr. Streehan, who has treated such abusive caregivers many times in his practice, seeks to create a more humane portrait of therapists who have affairs with their patients. Central to the book are four fascinating case studies of therapists: Ronald S is a heterosexual psychiatrist with homosexual fantasies who wants to be a woman; with his own male therapist, Roslyn M is a therapist who administers love treatment in the therapy room and charges for it; Bob W is a promiscuous sex addict who thinks, despite his physical unattractiveness, that all his women patients hunger for him; Al G is a sadomasochistic social worker who makes his female ex-patients suffer. These cases give voice to the feelings, fantasies, and dreams of therapists who have crossed the boundary. Through them, we come to understand that it is treatment, not punishment, that will prevent others from falling prey to healers who are themselves in desperate need of healing.

Self-Supervision Patrick J. Morrisette, 2021-08-23 *Self Supervision* synthesizes the literature on the theory and practice of self supervision and provides counselors and human service professionals with a plan for the pursuit of independent professional growth. The classic edition includes a new preface from the author reflecting on his work and on the changes in society and the field since the book's initial publication. In these chapters, professionals will find cost-effective and efficient strategies for developing their skills while still ensuring that they're providing quality treatment. They'll also find a diverse array of strategies for self supervision and a thoughtful discussion of reflective processes required to effectively evaluate one's own practices.

Preventing Boundary Violations in Clinical Practice Thomas G. Gutheil, Archie Brodsky, 2011-11-30 What do you do when you run into a patient in a public place? How do you respond when a patient suddenly hugs you at the end of a session? Do you accept a gift that a patient brings to make up for causing you some inconvenience? Questions like these, which virtually all clinicians face at one time or another, have serious clinical, ethical, and legal implications. This authoritative practical book uses compelling case vignettes to show how a wide range of boundary questions arise and can be responsibly resolved as part of the process of therapy. Coverage includes role reversal, gifts, self disclosure, out of office encounters, physical contact, and sexual misconduct. Strategies for

preventing boundary violations and managing associated legal risks are highlighted Truth About Addiction and Recovery Stanton Peele, 2014-06-30 A radical new approach to recovery using methods proven more effective than medical treatment or twelve step programs Drawing on the latest research and detailed case studies the authors expose the best kept secrets in the recovery field Addictions whether to food cigarettes sex alcohol or drugs are not diseases and they are not necessarily lifelong problems Many more people give up addictions on their own than are helped by medical treatment or twelve step programs Developing values skills and life resources enables people to quit addictions and to shed the addict identity altogether In their revolutionary Life Process Program for overcoming all kinds of addictions the authors emphasize self help and treatment through coping with stress and achieving one's goals As helpful as it is controversial The Truth About Addiction and Recovery will forever change the way we view and treat addiction A classic John Norcross PhD ABPP Distinguished Professor of Psychology at the University of Scranton and author of Changing for Good **Speaking the Unspeakable** Lynne Gabriel, 2005-09-27 Are dual relationships always detrimental Speaking the Unspeakable provides an in depth exploration of client practitioner dual relationships offering critical discussion and sustained narrative on thinking about and being in dual relationships Lynne Gabriel draws on the experiences of both practitioners and clients to provide a clear summary of the complex and multidimensional nature of dual relationships The beneficial as well as detrimental potential of such relationships is discussed and illustrated with personal accounts Subjects covered include roles and boundaries in dual and multiple role relationships client experiences and perceptions of being in dual and multiple role relationships developing a relational ethic for complex relationships This book offers an insightful and challenging portrayal of dual relationships that will be welcomed by therapists trainers trainees and supervisors Advancing Sexual Health for the Christian Client Beverly Dale, Rachel Keller, 2019-03-04 Advancing Sexual Health for the Christian Client is an essential toolkit for professionals working at the intersection of Christian belief and sexual health In this book Beverly Dale and Rachel Keller deconstruct potentially harmful Christian beliefs around sexuality to support clients stuck in sexual guilt shame and fear Combining the experience of an ordained Christian clergy with a certified sexologist this guide promotes a new approach to sex and faith for therapists which will help their clients to reconcile a belief in God's love with sexual knowledge and fulfillment Grounded in historical and cultural contexts and drawing from both academic research and scriptural exegesis the authors offer practical clinical applications and interventions to enable clients to re-examine their sexual beliefs in a way that encourages sexual healing By understanding the goals of a sex positive body positive Christianity professionals can find a common language with the person of faith and build an effective therapeutic relationship This book will be a key point of reference for any sex therapist educator or student looking to integrate faith based concepts into their approach Trustworthy Connections Anne Winchell Silver, 2004-01-25 Although God is at the center of the process of spiritual direction the more readily visible participants are human beings Like all other people directors and directees are subject to
