Vicente Leñero Danny J. Anderson, 1989 This fascinating study of the nine novels of Vicente Leñero published between 1961 and 1985 attests to the contemporary Mexican writer's protean talent Anderson interrogates the dual critical project that underlies Leñero's works the constant preoccupation with the expressive potentials of the novelistic genre and the equally constant concern for a critical examination of social reality Employing a variety of post structural approaches in order to reveal the dynamics of this dual project Vicente Leñero *The Novelist as Critic* provides the first book length consideration of the materials and concerns of this novelist's art

Pensado demonstrates how the Catholic Church as a heterogeneous institution with key transnational networks in Latin America and Western Europe was invested in youth activism state repression and the counterculture from the postwar period to the more radical Sixties Similar to their secular counterparts progressive Catholics often saw themselves as revolutionary actors and nearly always framed their activism as an act of love When their movements were repressed and their ideas were co-opted marginalized and commercialized at the end of the Sixties the liberating hope of love often turned into a sense of despair **The Columbia Guide to the Latin American Novel Since 1945** Raymond L. Twentieth-Century Spanish American Novel Raymond Leslie Williams, 2005-03-01 Spanish American novels of the Boom period 1962 1967 attracted a world readership to Latin American literature but Latin American writers had already been engaging in the modernist experiments of their North American and European counterparts since the turn of the twentieth century Indeed the desire to be modern is a constant preoccupation in twentieth century Spanish American literature and thus a very useful lens through which to view the century's novels In this pathfinding study Raymond L Williams offers the first complete analytical and critical overview of the Spanish American novel throughout the entire twentieth century Using the desire to be modern as his organizing principle he divides the century's novels into five periods and discusses the differing forms that the modern took in each era For each period Williams begins with a broad overview of many novels literary contexts and some cultural debates followed by new readings of both canonical and significant non canonical novels A special feature of this book is its emphasis on women writers and other previously ignored and or marginalized authors including experimental and gay writers Williams also clarifies the legacy of the Boom the Postboom and the Postmodern as he introduces new writers and new novelistic trends of the 1990s **Doscientos años de narrativa mexicana.
