Angeles Archive as a rich repository for analyzing Ruscha's practice and the city's visual culture. Using his photographs and new data visualizations, the authors consider what it means to interpret an archive mostly accessible through digital technologies and they demonstrate how histories of art have been indelibly reshaped since the advent of the information age in the 1960s. This publication was created using Quire™, a multiformat publishing tool from Getty. The free online edition of this open access publication is available at www.getty.edu/publications/ruscha and includes video, data visualizations, and zoomable illustrations. Free PDF and EPUB downloads of the book are also available. **Reyner Banham** Nigel

Whiteley, 2003-08-29. An intellectual biography of the cultural critic Reyner Banham. Reyner Banham (1922-88) was one of the most influential writers on architecture, design, and popular culture from the mid 1950s to the late 1980s. Trained in mechanical engineering and art history, he was convinced that technology was making society not only more exciting but more democratic. His combination of academic rigor and pop culture sensibility put him in opposition to both traditionalists and orthodox Modernists but placed him in a unique position to understand the cultural, social, and political implications of the visual arts in the postwar period. His first book, *Theory and Design in the First Machine Age*, still in print with The MIT Press after forty years, was central to the overhaul of Modernism and it gave Futurism and Expressionism credibility amid the dynamism and change of the 1960s. This intellectual biography is the first comprehensive critical examination of Banham's theories and ideas, not only on architecture but also on the wide variety of subjects that interested him. It covers the full range of his oeuvre and discusses the values, enthusiasms, and influences that formed his thinking. **The Architecture of**

Entertainment Robert Winter, 2009-09. In *L.A. in the 20s*, noted architectural historian and author Robert Winter explains this architecture of entertainment, the inherent beauty and mystery of the era when historic architectural styles became adventurous escapades. Modernism in Design Paul Greenhalgh, 1997-07-01. Ten new and important essays on design cover

Modernism's fortunes in Germany, Italy, Sweden, Britain, Spain, Belgium, and the USA; they range in subject matter from world fairs and everyday domestic objects to American West coast architecture and French and Italian furniture. With essays by Tim Benton, Gillian Naylor, Penny Sparke, Wendy Kaplan, Clive Wainwright, Martin Gaughan, Guy Julier, Mimi Wilms, Julian Holder, and Paul Greenhalgh, the object of this book is to diffuse myths. If modernism has in the past been both absurdly praised and absurdly damned, *Modernism in Design* seeks to lift it out of this cycle and to demonstrate that the modern movement could offer neither Jerusalem nor Babylon. In this, the book succeeds admirably. *Designer's Journal*. While this collection of essays is aimed primarily at design historians and students of design history, hard-pressed practising designers and architects should make room for it on their bookshelves. Design Pop L.A. Cécile Whiting, 2008-08-04. In this original and engaging book, Cécile Whiting examines what Pop looked like when it left the highbrow cloisters of Manhattan's art galleries and ventured westward to the sprawling suburbs of Los Angeles.

Franklin D. Israel Todd Gannon, 2025-02-18. This book examines the life and legacy of Franklin D. Israel, an influential member of the Los Angeles school of architects. Acclaimed Los Angeles

architect Franklin D Israel 1945 1996 created innovative residential projects and office interiors that made him one of the most talked about designers of his generation In this vivid account architectural historian Todd Gannon draws on archival resources analyses of Israel s buildings and recent interviews with the architect s colleagues clients and contemporaries including Frank Gehry Thom Mayne and Robert A M Stern Gannon traces Israel s development from his early years and career on the East Coast to his formative world travels and residence at the American Academy in Rome The author guides readers through the Los Angeles architectural context Israel s influential teaching at UCLA his dalliance with Hollywood and the personal motivations behind his architecture and design work all aspects of an influential career that was cut short by his death from AIDS related complications at the age of fifty Franklin D Israel is a compelling work of architectural history and biography chronicling one gay man s engagement with the largely heteronormative world of American architectural culture It explores the achievement of this central figure in the still largely unstudied history of late twentieth century avant garde Los Angeles architecture

The Persistence of Whiteness Daniel Bernardi, 2007-09-12 The Persistence of Whiteness investigates the representation and narration of race in contemporary Hollywood cinema Ideologies of class ethnicity gender nation and sexuality are central concerns as are the growth of the business of filmmaking Focusing on representations of Black Asian Jewish Latina o and Native Americans identities this collection also shows how whiteness is a fact everywhere in contemporary Hollywood cinema crossing audiences authors genres studios and styles Bringing together essays from respected film scholars the collection covers a wide range of important films including Guess Who s Coming to Dinner The Color Purple Star Wars and The Lord of the Rings Essays also consider genres from the western to blaxploitation and new black cinema provocative filmmakers such as Melvin Van Peebles and Steven Spielberg and stars including Whoopi Goldberg and Jennifer Lopez Daniel Bernardi provides an in depth introduction comprehensive bibliography and a helpful glossary of terms thus providing students with an accessible and topical collection on race and ethnicity in contemporary cinema

The Urban Condition Ghent Urban Studies Team, 1999 What does the Western city at the end of the twentieth century look like How did the modern metropolis of congestion and density turn into a posturban or even postsuburban cityscape What are edge cities and technoburbs How has the social composition of cities changed in the postwar era What do gated communities tell us about social fragmentation Is public space in the contemporary city being privatized and militarized How can the urban self still be defined What role does consumer aestheticism have to play in this These and many more questions are addressed by this uniquely conceived multidisciplinary study The Urban Condition seeks to interfere in current debates over the future and interpretation of our urban landscapes by reuniting studies of the city as a physical and material phenomenon and as a cultural and mental arte fact The Ghent Urban Studies Team responsible for the writing and editing of this volume is directed by Kristiaan Versluys and Dirk De Meyer at the University of Ghent Belgium It is an interdisciplinary research team of young academics that further consists of Kristiaan Borret Bart Eeckhout Steven Jacobs and Bart Keunen

The collective expertise of GUST ranges from architectural theory urban planning and art history to philosophy literary criticism and cultural theory

Spaces of Culture Mike Featherstone, Scott Lash, 1999-03-30 In *Spaces of Culture* an international group of scholars examines the implications of questions such as What is culture What is the relationship between social structure and culture in a globalized and networked world Do critical perspectives still apply or does the speed and complexity of cultural production demand new forms of analysis They explore the key themes in social theory the nation state the city modernity and reflexivity post Fordism and the spatial logic of the informational city The contributors go on to analyze the public sphere questioning the reductive representation of technology as a form of instrumentality and demonstrating how new technologies can offer new spaces of culture This analysis of public space is essential to an understanding of issues like global citizenship and multicultural human rights

Architectures of Care Brittany Utting, 2023-12-05 Drawing from a diverse range of interdisciplinary voices this book explores how spaces of care shape our affective material and social forms from the most intimate scale of the body to our planetary commons Typical definitions of care center around the maintenance of a livable life encompassing everything from shelter and welfare to health and safety Architecture plays a fundamental role in these definitions inscribed in institutional archetypes such as the home the hospital the school and the nursery However these spaces often structure modes of care that prescribe gender roles bodily norms and labor practices How can architecture instead engage with an expanded definition of care that questions such roles and norms producing more hybrid entanglements between our bodies our collective lives and our environments Chapters in this book explore issues ranging from disabled domesticities and nursing unbuilding whiteness in the built environment practices and pedagogies of environmental care and the solidarity networks within The Cloud Case studies include Floating University Berlin commoning initiatives by the Black Panther party and hospitals for the United Mine Workers of America among many other sites and scales of care Exploring architecture through the lenses of gender studies labor theory environmental justice and the medical humanities this book will engage students and academics from a wide range of disciplines

The Jewish Role in American Life Bruce Zuckerman, Jeremy Schoenberg, 2007 The relationship between Jews and the United States is necessarily complex Jews have been instrumental in shaping American culture and of course Jewish culture and religion have likewise been profoundly recast in the United States especially in the period following World War II A major focus of this work is to consider the Jewish role in American life as well as the American role in shaping Jewish life This fifth volume of the Casden Institute's annual review is organized along five broad themes politics values image education and culture

Overdrive Wim de Wit, Christopher James Alexander, 2013 This is a fascinating and intelligently illustrated study of architectural innovation in Los Angeles From 1940 to 1990 Los Angeles rapidly evolved into one of the most populous and influential industrial economic and creative capitals in the world During this era the region was transformed into a laboratory for cutting edge architecture Overdrive examines these experiments and their impacts on modern design reframes the

perceptions of Los Angeles dynamic built environment and amplifies the exploration of the city's vibrant architectural legacy. The drawings, models, and images highlighted by *Overdrive* reveal the complex and often underappreciated facets of Los Angeles and illustrate how the metropolis became an internationally recognized destination with a unique design vocabulary, canonical landmarks, and a coveted lifestyle.

Infrastructural Optimism Linda C. Samuels, 2021-09-29 *Infrastructural Optimism* investigates a new kind of twenty-first century infrastructure: one that encourages a broader understanding of the interdependence of resources and agencies; recognizes a rightfully accelerated need for equitable access and distribution; and prioritizes rising environmental diligence across the design disciplines. Bringing together urban history, case studies, and speculative design propositions, the book explores and defines infrastructure as the basis for a new form of urbanism emerging from the intersection of architecture, landscape architecture, and urban design. In defining this new infrastructure, the book introduces new dynamic and holistic performance metrics focused on measuring what matters over growth for the sake of growth and twelve criteria that define next-generation infrastructure. By shifting the focus of infrastructure from our largest public realm to environmental symbiosis and quality of life for all, design becomes a catalytic component in creating a more beautiful, productive, and optimistic future with *Infrastructural Urbanism* as its driver. *Infrastructural Optimism* will be invaluable to design, non-profit, and agency professionals and faculty and students in the fields of architecture, landscape architecture, and urban design, working in partnership with engineers, hydrologists, ecologists, urban planners, community members, and others who shape the built environment through the expanded field of infrastructure.

Modern Coliseum Benjamin D. Lisle, 2017-07-05 In *Modern Coliseum* Benjamin D. Lisle tracks changes in stadium design and culture since World War II. Featuring over seventy-five images documenting the transformation of the American stadium over time, *Modern Coliseum* will be of interest to a variety of readers from urban and architectural historians to sports fans.
