Los Duenos De La Argentina Ii Los Secretos Del Verdadero Poder:

Argentinian Telenovelas Gabriela Jonas Aharoni, 2015-07-01 This work explores the way in which telenovelas TV serial dramas give voice to contemporary and historical Argentinian social and political issues Telenovelas have multiple layers of socio cultural message local as well as global and are invariably laden with appealing drama and emotion and sometimes comedy The discussion focuses on how telenovelas reflect society's perception of and adjustment toward issues of globalisation They are a means of portraying how individuals and families rationalize and incorporate rapid social and economic changes The book explores how telenovelas might offer a subversive interpretation of reality or provide a channel of dialogue with the government's political aims The author challenges the assumption that they are merely a reflection of historical political and social circumstance One of the many telenovela examples addressed in this book is whether the serial Padre Coraje constructs a parallel between the current Kirchner government and that of Juan Peron fifty years earlier The serial explores the two leaders relationship with the Church and implicitly presents President Kirchner as Peron's successor Explaining telenovelas as cultural texts they are not soap operas provides the primary basis for this study backed by Argentinian newspaper articles and secondary sources on Latin American history culture and economy as well as TV and cinema studies The result is a more profound and nuanced interpretation than hitherto of Argentinian telenovelas Analysis enables identification of the links between the serials storylines and contemporary political and social events These popular culture texts bring new meaning to the Argentinian historical narrative and for TV viewers puts the processes and effects of economic and social globalisation on a local multi cultural level perspective

Neoliberalism, Accountability, and Reform Failures in Emerging Markets Luigi Manzetti, 2015-10-13 The agenda of neoliberal market reform known as the Washington Consensus which was meant to turn around the economies of developing and postcommunist countries and provide the bedrock of economic success on which stable democracies could be built has largely proved to be a failure with Russia and many Latin American countries like Argentina left in severe economic crisis by the end of the 1990s Some proponents of neoliberal reform such as Anne Krueger have attributed this failure to the piecemeal and incomplete implementation of reform measures while others including Nobel Prize economist and former World Bank vice president Joseph Stiglitz have pointed to technical flaws in the policies While both of these assessments focus narrowly on economic factors Luigi Manzetti highlights the crucial importance of political institutions and processes to a fully adequate explanation His argument is that the ideology of neoliberal reform rooted in the theories of Friedrich von Hayek and Milton Friedman assumed political checks and balances that did not exist in many of these countries undergoing market reform and that only by taking political accountability as an influential variable in the equation for success can we really understand what happened Where accountability was weak patterns of corruption collusion and patronage worked to undermine the intended aims of market reform Manzetti uses both large N statistical analyses and small N case studies of Argentina Chile and Russia to provide

empirical evidence for his argument The Economic Accomplices to the Argentine Dictatorship Horacio Verbitsky, Juan Pablo Bohoslavsky, 2016 This book uncovers how banks individuals and companies worked as economic accomplices to the oppressive Argentinian dictatorship

The Space of Culture Stewart King, Jeff Browitt, 2004 The essays range from colonial domination and international struggles over territorial claims to a meditation on the politics of location to the issue of spatial representation of mature age women and gay men within a dialectic of visibility invisibility in Spanish theatre and cinema Jacket

Privatization South American Style Luigi Manzetti, 1999 Privatization South American Style focuses on the politics of privatization in Argentina Brazil and Peru It examines both the micro and macroeconomics of achieving privatization the policy measures introduced and factors affecting the implementation of privatization The political dimensions of privatization are analysed in order to explain the variations in national success in formulation and implementing privatization programmes The author argues that evidence suggests that national governments as planned and that rarely implement most divestiture policies from a technical standpoint privatization is a learning process that evolves through trial and error It also examines the apparently unconventional methods used by the governments of Argentina Brazil and Peru to achieve privatization Comparative in its approach the book seeks also to shed light on the nature of privatization in countries throughout the developing world The book more generally argues that poorly designed privatization policies may have future serious implications on issues such as the rule of law and the regulation of public utilities

Vida de ricos Soledad Vallejos,2015-03-01 Un libro único que como si fuera un pase vip nos invita a espiar y conocer la intimidad el mundo vedado de las costumbres y maneras de los argentinos con dinero Dónde viven qué comen de qué se preocupan las personas que por trabajo talento herencia o suerte habitan en el margen más codiciado de la sociedad el de la riqueza y el lujo Qué los diferencia de los ricos de antaño los que tenían la vaca atada y tiraban manteca al techo Vida de ricos despliega el mapa de la sociedad de los elegidos su relación con la moda el arte la belleza la juventud los rituales sociales la tradición el ocio y por supuesto el placer Desfilan en estas páginas los apellidos ilustres los personajes de la nobleza los coleccionistas y los asistidos a reuniones y clubes nocturnos Los viejos desconocidos y los nuevos ricos **¿El 99% contra el 1%?** Mariana Heredia,2022-08-22 De un lado un puñado de ricos y poderosos que siempre gana y se re e del resto del otro una mayoría del 99% que sufre distintos grados de privación Cuánto ilumina y cuánto confunde esta definición aritmética de la desigualdad Cuánto ayuda a la hora de trazar diagnósticos e implementar políticas Bastaría con quitar sus privilegios a ese 1% y estaríamos en una sociedad equitativa Documentar las ventajas de una minoría es un paso insoslayable para entender el problema Pero la denuncia moral y la vehemencia retórica contra el 1% chocan una y otra vez con la impotencia práctica y lo más importante terminan echando un manto de silencio sobre los mecanismos sociales que permiten acumular riqueza y acceder a las posiciones más codiciadas y que están naturalizados en vastos sectores medios y medios altos Luego de años de investigar estos temas en la Argentina y América Latina Mariana Heredia propone entender y discutir las desigualdades

contemporáneas desmontando las etiquetas que impiden pensarlas. Así muestra que los ricos de hoy poco tienen que ver con las familias tradicionales, la oligarquía o la burguesía nacional y que constituyen un grupo heterogéneo no siempre blindado ante la inestabilidad. Atenta a los resortes que permiten reproducir el capital, acceder al bienestar y ejercer poder, analiza cómo las reformas desregulatorias de los años setenta y noventa achicaron los márgenes del Estado nacional como gran integrador social y mercantilizaron bienes que eran públicos como la salud, la educación, la seguridad. Y nos invita a poner en cuestión ciertos lugares comunes del debate: qué expectativas depositar en la puja distributiva entre empleadores y trabajadores; Y en las políticas de ingresos. Puede la búsqueda de equidad descansar en la movilización constante y la capacidad de bloqueo de los sectores populares más golpeados. Se trata de aumentar gravámenes o de afinar los dispositivos para evitar la evasión.Cuál es el poder relativo de la autoridad presidencial para delinear intervenciones públicas que minimicen las injusticias. La obsesión por los ricos sea en clave de fascinación o de repudio activa sensibilidades pero no sirve para entender las causas profundas de la desigualdad. Este libro es un aporte enormemente revelador para conocer los poderes y las impotencias de las lites políticas económicas y sociales y para imaginar cómo salir del callejón sin salida en el que estamos y avanzar hacia una sociedad más integrada.

Cuentas pendientes Horacio Verbitsky, Juan Pablo Bohoslavsky, 2019-11-22. Hasta hoy la justicia argentina tuvo el mérito de investigar los delitos de sangre cometidos durante la última dictadura pero dejó fuera del radar a los actores económicos que la promovieron, es decir a las personas, instituciones y empresas que suministraron bienes y servicios al gobierno o que obtuvieron beneficios a cambio de apoyar la ejecución del plan criminal. Muchas de ellas son en la actualidad actores civiles y económicos de peso integrados al juego democrático. Coautores, socios, instigadores, conspiradores, ejecutores, cómplices, beneficiarios son algunos de los posibles formatos de estos vínculos que deben ser esclarecidos. En lo que constituye una investigación pionera Horacio Verbitsky y Juan Pablo Bohoslavsky junto con un equipo de prestigiosos autores sacan a la luz los casos de complicidad civil y económica con la dictadura. Esos casos involucran empresas como Ledesma, Ford, Acindar, Techint o Mercedes Benz cuyos directivos están acusados o sospechados de entregar trabajadores que luego fueron desaparecidos así como organismos creados para extorsionar empresarios poco afines y expropiar sus bienes como sucedió con Papel Prensa y con los hermanos Iaccarino. La trama se completa con corporaciones patronales agropecuarias o industriales, el Colegio de Abogados de la Ciudad de Buenos Aires, los grandes prestamistas internacionales como el Citybank y el Lloyd's Bank, los think tanks como FIEL o CEMA que aportaron hombres e ideas a la dictadura, sectores de la cúpula sindical, operaciones médicas de diarios como La Nueva Provincia. Clarín o La Nación o la impactante actitud de la cúpula de la Iglesia católica que mientras bendecía la represión aprovechaba los cuantiosos beneficios que recibía de los militares. Al ofrecer la primera investigación sólida y sistemática, este libro abre una nueva etapa además de contribuir a una narrativa más completa de los años del llamado Proceso.
