Medieval Iberia Ivy A. Corfis, Ray Harris-Northall, 2007 An exploration of the cultural political complexity of the medieval Peninsula Medieval Iberia was rich in sociolinguistic and cultural diversity This volume explores the culture history literature and language of the Peninsula in an attempt to understand its cultural political complexity and its legacy Principal themes include the representation of minority groups in the community the challenge of social contact that could bring mutual absorption of influence or conflict the effects of linguistic interaction and development and the dissemination of cultural and scientific knowledge within and beyond the borders of the Peninsula Modern interpretations of Medieval Iberia are neither static nor definitive in this kaleidoscopic field of investigation EDITORS Ivy A Corfis and Ray Harris Northall are Professors of Spanish at the University of Wisconsin Madison OTHER CONTRIBUTORS Pablo Ancos William J Courtney Thomas D Cravens Frank Dom nguez Noel Fallows Charles F Fraker E Michael Gerli Kristin Neumayer Stanley G Payne Joel Rini Joseph T Snow Michael Solomon **Gonzalo de Berceo and the Latin Miracles of the Virgin** Robert

Boenig, 2016-04-22 In Gonzalo de Berceo and the Latin Miracles of the Virgin Patricia Timmons and Robert Boenig present the first English translation of a twelfth century Latin collection of miracles that Berceo the first named poet in the Spanish language used as a source for his thirteenth century Spanish collection Milagros de Nuestra Se ora Using the MS Thott 128 close to the one Berceo must have used Timmons and Boenig provide both translation and analysis exploring the Latin Miracles suggesting how it was used as a sacred text and placing it within the history of Christians evolving understanding of the Virgin s role in their lives In addition this volume explores Berceo s reaction to the Latin Miracles demonstrating that he reacted creatively to his source texts as well as to changes in Church culture and governance that occurred between the composition of Latin Miracles and the thirteenth century translating it across both language and culture Accessible and useful to students and scholars of medieval and Spanish studies this book includes the original Latin text translations of the Latin Miracles including analyses of Saint Peter and the Lustful Monk The Little Jewish Boy and The Jews of Toledo

Beyond the Yellow Badge Mitchell Merback, 2008 Bringing together thirteen leading art historians Beyond the Yellow Badge seeks to reframe the relationship between European visual culture and the many changing aspects of the Christian majority s negative conceptions of Jews and Judaism during the Middle Ages and early modern periods **Miracles of Our Lady** Gonzalo de Berceo, 2021-12-15 Miracle tales in which people are rewarded for piety or punished for sin through the intervention of the Virgin Mary were a popular literary form all through the Middle Ages Milagros de Nuestra Sehora a collection of such stories by the Spanish secular priest Gonzalo de Berceo is a premier example of this genre it is also regarded as one of the four most important texts of medieval Spain Difficulties in translating this work have made it unavailable in English except in fragments now Spanish language scholars Richard Terry Mount and Annette Grant Cash have made the entire work accessible to English readers for the first time Berceo s miracle tales use the verse form cuaderna

via fourfold way of fully rhymed quatrains which Berceo may even have invented and are told in the language of the common man They were written to be read aloud most likely to an audience of pilgrims and are an outstanding example of oral religious narrative The total work comprises twenty five miracles preceded by a renowned Introduction that celebrates the Virgin in rich symbolic allegory Mount and Cash s translation is highly readable yet it retains the original meaning and captures Berceo s colloquial style and medieval nuances An introduction placing the miracles in their medieval context and a bibliography complement the text *Inscribing the Environment* Connie Scarborough,2013-03-22 Ecocriticism as a theoretical model has primarily been used in the study of Romantic post Romantic and contemporary literary texts Applications of the concepts to medieval literature however are a fairly recent phenomenon This book examines key canonical works from medieval Spain showing how descriptions of the natural world in these texts are informed by both the authors perceptions of the environment and established literary models *Medieval Fare* Martha M. Daas,2022-09-28 Unique in its cultural and religious makeup medieval Iberia represented a crossroads of cultures This crossroads was reflected in large and small ways On a grand scale we see the convergence of intellectual ideas and great innovations in agriculture and science On a more intimate level we see an intersection of cultures as reflected in habits of consumption The acts of producing food cooking and eating demonstrate the political realities of the land at times interdependent and at times at odds Food as an archeological and anthropological tool can help us understand a particular moment in time In considering the nature of consumption we may arrive at the heart of a culture In *Medieval Fare* the author explores food references found in a number of medieval Iberian texts in order to expand our knowledge of daily life in the Middle Ages By examining the depiction of food and consumption this pioneering study provides insight into the cultural religious and social complexities of medieval Iberia *A History of the Spanish Language through Texts* Christopher Pountain,2002-09-11 A History of the Spanish Language through Texts examines the evolution of the Spanish language from the Middle Ages to the present day Pountain explores a wide range of texts from poetry through newspaper articles and political documents to a Bunuel film script and a love letter With keypoints and a careful indexing and cross referencing system this book can be used as a freestanding history of the language independently of the illustrative texts themselves **A Companion to Mester de Clerecía Poetry**,2024-07-15 Mester de clerecía is the term traditionally used to designate the first generations of learned poetry in medieval Ibero Romance dialects the precursors of modern Castilian and other Romance languages of the Iberian Peninsula In its time this poetry was anything but traditional These long poems of structured verse reappropriate the heroic past through the retelling of legends from Classical Antiquity saints lives miracle stories Biblical apocrypha and other tales At the same time the poems recast the place of their authors and learned characters within their stories in the shifting dynamics of their thirteenth and fourteenth century present Contributors are Pablo Ancos Maria Cristina Balestrini Fernando Ba os Vallejo Andrew M Beresford Olivier Biaggini Martha M Daas Emily C Francomano Ryan Giles Michelle M Hamilton Anthony
