an entourage of kids half enchanted by her and half scared witless Then there are Uncle Frank who with self fulfilling flair would have drawn a pistol at the merest suggestion that his family was dysfunctional and of course Grandfather who lost his finger to a machete and his mind to cough medicine A mystical world of carnivals talking fiddles houses on wheels atomic bombs and total immersion baptisms Edward Swift s Big Thicket was also a world in which he was loved unconditionally and that alone makes it worth getting to know Losing My Virginity Richard Branson,2009 This is the bestselling autobiography of iconic entrepreneur Sir Richard Branson featuring his take on his latest business ventures personal achievements and intrepid adventures You ll discover how Sir Richard is committed to building a better world t

life of an iconic global entrepreneur *Losing My Virginity* Richard Branson, 2006-04-01 *The Show That Never Ends* David Weigel, 2017-06-13 The wildly entertaining story of progressive rock the music that ruled the 1970s charts and has divided listeners ever since *The Show That Never Ends* is the definitive story of the extraordinary rise and fall of progressive prog rock Epitomized by such classic chart topping bands as Yes Genesis Pink Floyd Jethro Tull and Emerson Lake Palmer along with such successors as Rush Marillion Asia Styx and Porcupine Tree prog sold hundreds of millions of records It brought into the mainstream concept albums spaced out cover art crazy time signatures multitrack recording and stagecraft so bombastic it was spoofed in the classic movie *This Is Spinal Tap* With a vast knowledge of what Rolling Stone has called the deliciously decadent genre that the punks failed to kill access to key people who made the music and the passion of a true enthusiast Washington Post national reporter David Weigel tells the story of prog in all its pomp creativity and excess Weigel explains exactly what was progressive about prog rock and how its complexity and experimentalism arose from such precursors as the Beach Boys Pet Sounds and the Beatles *Sgt Pepper* He traces prog s popularity from the massive success of Procol Harum s *Whiter Shade of Pale* and the Moody Blues *Nights in White Satin* in 1967 He reveals how prog s best selling epochal albums were made including *The Dark Side of the Moon* *Thick as a Brick* and *Tubular Bells* And he explores the rise of new instruments into the prog mix such as the synthesizer flute mellotron and famously the double neck guitar *The Show That Never Ends* is filled with the candid reminiscences of prog s celebrated musicians It also features memorable portraits of the vital contributions of producers empresarios and technicians such as Richard Branson Brian Eno Ahmet Ertegun and Bob Moog Ultimately Weigel defends prog from the enormous derision it has received for a generation and he reveals the new critical respect and popularity it has achieved in its contemporary resurgence *Amortality* Catherine Mayer, 2011-05-12 Does your real age match the age you feel When do we reach middle age When if ever are we old The way we age and the way we perceive age has changed radically As we embrace new experiences relationships and gadgets we barely stop to look at our watches let alone consider whether our behaviour is age appropriate In this provocative and timely book Catherine Mayer looks at the forces that created *amortality* the term she coined to describe the phenomenon of living agelessly As she follows this social epidemic through generations and across continents she reveals its profound impact on society our careers our families and ourselves Why be defined by numbers Are you *amortal* *Organization and Identity* Alison Linstead, 2005-08-12 The contributors to the collection bring approaches from current philosophising into the area of organization theory and critically assess their relevance and impact *Screw Business As Usual* Richard Branson, 2017-04-04 From the trailblazing founder and CEO of the Virgin Group a powerful argument for using business to make a positive impact in the world Richard Branson one of the world s most famous and admired business leaders argues that it s time to turn capitalism upside down to shift our values from an exclusive focus on profit to also caring for people communities and the planet As he writes My message is a simple one business as usual isn t working In fact it s business as

usual that's wrecking our planet Resources are being used up the air the sea the land are all heavily polluted The poor are getting poorer Many are dying of starvation or because they can't afford a dollar a day for life saving medicine Prophesying doom and gloom is simply not my style I think business can help fix things and create a more prosperous world for everyone I happen to believe in business because I believe that business can be a force for good By that I mean doing good is good for business Screw Business as Usual shows how easy it is for both businesses and individuals to embark on a whole new way of doing things solving major problems and turning our work into something we both love and are proud of *The Thinkers 50* Stuart Crainer, 2006-06-30 From the distinguished Charles Handy to the classic Philip Kotler to the outspoken Paul Krugman and including such visionary leaders as Bill Gates and Jeff Bezos *The Thinkers 50* based on an international survey of business academics practitioners consultants and journalists reinforces the powerful influences business and popular culture have on each other Following surveys that were conducted in 2001 and 2003 asking the single question Who is the most important living management thinker the 2005 survey is the first to be released with a companion book applying such criteria as practicality of ideas and international outlook to determine ranking and featuring colorful informative and concise profiles of the 50 individuals whose ideas most profoundly influence business today Each profile includes information on the subject's background and primary contributions and lists key publications and web sites Collectively they reflect the state of the art in contemporary management thinking and its application separating the people and ideas with lasting impact from the passing fads From students to entrepreneurs to seasoned executives *The Thinkers 50* provides a compendium of practical insights on the art and science of management *Intuition in Business* Eugene Sadler-Smith, 2022-12-19 This book explores the science behind intuitive decision making in business and shows how people's innate capacity for intuition can be nurtured and strengthened to maximize performance We are all familiar with those perplexing situations when we think we just know without knowing how or why we know In professional life it might be the job candidate's CV that checks all the boxes but somehow doesn't stack up should we perform some due diligence and dig a little deeper In personal life it could be the apartment that we're looking to rent that just felt right the minute we walked through the front door should we trust our hunch and grab it while we can What if time is of the essence What if there isn't any more data to be had in the time available In this volume Eugene Sadler Smith examines why situations like these often leave us in a quandary and why these decisions so often leave us in two minds He reveals that metaphorically speaking we have two minds in one brain an analytical mind and an intuitive mind which sometimes come to quite different conclusions about what we ought to do in those consequential decisions that permeate our professional and personal lives Rather than thinking of our intuitive and analytical minds in constant battle with each other we might instead think of them as two information processing systems that have evolved to complement each other The main idea of this book is that our analytical mind evolved to solve whilst our intuitive mind evolved to sense Neither is infallible and our intuitions can be both flawed and marvellous at the same time

The author's clear and detailed explanation of the science behind intuition reveals how we can make intelligent use of our intuition to sense and solve our way through a world that is fast moving complex and uncertain *The Power of Words* (2)
