**Merchant-Ivory** Ismail Merchant, 2012-04-09 Merchant Ivory Interviews gathers together for the first time interviews made over the past five decades with director James Ivory b 1928 producer Ismail Merchant 1936 2005 and screenwriter Ruth Prawer Jhabvala b 1927 Beginning with their earliest work in India and ending with James Ivory s last film The City of Your Final Destination 2009 the book traces their career while offering valuable insights into their creative filmmaking process The volume serves as a corrective to the prevailing critical orthodoxy attached to Merchant Ivory s work which tends to regard them as being solely concerned with historically accurate costumes and settings As independent filmmakers they have developed an idiosyncratic approach that resists facile classification Merchant Ivory have insisted on maintaining their independence More importantly this book shows how Merchant Ivory have always taken considerable care in casting their films as well as treating actors with respect This is a deliberate policy designed to bring out one of the triumvirate s principal thematic concerns running throughout their work the impact of the clash of cultures on individuals Partly this has been inspired by their collective experiences of living and working in different cultures They do not offer any answers to this issue rather they believe that their task is simply to raise awareness to make filmgoers conscious of the importance of cultural sensitivities that assume paramount significance in any exchange whether verbal or nonverbal English Filming, English Writing Jefferson Hunter, 2010-04-05 Jefferson Hunter examines English films and television dramas as they relate to English culture in the 20th century He traces themes such as the influence of U S crime drama on English film and film adaptations of literary works as they appear in screen work from the 1930s to the present A Canterbury Tale and the documentary Listen to Britain are analyzed in the context of village pageants and other wartime explorations of Englishness at risk English crime dramas are set against the writings of George Orwell while a famous line from Noel Coward leads to a discussion of music and image in works like Brief Encounter and Look Back in Anger Screen adaptation is also broached in analyses of the 1985 BBC version of Dickens s Bleak House and Merchant Ivory s The Remains of the Day British rural landscapes on film Paul Newland, 2016-09-01 British rural landscapes on film offers insights into how rural areas in Britain have been represented on film from the silent era through both world wars and on into the twenty first century It is the first book to exclusively deal with representations of the British countryside on film The contributors demonstrate that the countryside has provided Britain and its constituent nations and regions with a dense range of spaces in which cultural identities have been and continue to be worked through British rural landscapes on film demonstrates that British cinema provides numerous

examples of how national identity and the identity of the countryside have been partly constructed through filmic representation and how British rural films can allow us to further understand the relationship between the cultural identities of specific areas of Britain and the landscapes they inhabit

**Shot on Location** R. Barton Palmer, 2016-02-18 In the early days of filmmaking before many of Hollywood's elaborate sets and soundstages had been built it was common for movies to be shot on location Decades later Hollywood filmmakers rediscovered the practice of using real locations and documentary footage in their narrative features Why did this happen What caused this sudden change Renowned film scholar R Barton Palmer answers this question in *Shot on Location* by exploring the historical ideological economic and technological developments that led Hollywood to head back outside in order to capture footage of real places His groundbreaking research reveals that wartime newsreels had a massive influence on postwar Hollywood film although there are key distinctions to be made between these movies and their closest contemporaries Italian neorealist films Considering how these practices were used in everything from war movies like *Twelve O'Clock High* to westerns like *The Searchers* Palmer explores how the blurring of the formal boundaries between cinematic journalism and fiction lent a reality effect to otherwise implausible stories *Shot on Location* describes how the period's greatest directors from Alfred Hitchcock to Billy Wilder increasingly moved beyond the confines of the studio At the same time the book acknowledges the collaborative nature of moviemaking identifying key roles that screenwriters art designers location scouts and editors played in incorporating actual geographical locales and social milieus within a fictional framework Palmer thus offers a fascinating behind the scenes look at how Hollywood transformed the way we view real spaces

Film Adaptation and Its Discontents Thomas Leitch, 2007-06-15 Most books on film adaptation the relation between films and their literary sources focus on a series of close one to one comparisons between specific films and canonical novels This volume identifies and investigates a far wider array of problems posed by the process of adaptation Beginning with an examination of why adaptation study has so often supported the institution of literature rather than fostering the practice of literacy Thomas Leitch considers how the creators of short silent films attempted to give them the weight of literature what sorts of fidelity are possible in an adaptation of sacred scripture what it means for an adaptation to pose as an introduction to rather than a transcription of a literary classic and why and how some films have sought impossibly close fidelity to their sources After examining the surprisingly divergent fidelity claims made by three different kinds of canonical adaptations Leitch's analysis moves beyond literary sources to consider why a small number of adapters have risen to the status of auteurs and how illustrated books comic strips video games and true stories have been adapted to the screen The range of films studied from silent Shakespeare to Sherlock Holmes to *The Lord of the Rings* is as broad as the problems that come under review

Pockets of Change Jane Stadler, Peta Mitchell, Adam Atkinson, Tricia Hopton, 2011-04-29

The twelve essays collected in *Pockets of Change* locate adaptation within a framework of two overlapping if not simultaneous creative processes on the one hand adaptation is to be understood as an acknowledged transposition of an existing source that is the process of adapting from on the other hand adaptation is also a process of purposeful shifting and evolving of creative practices in response to external factors including but not limited to other creative works in other words the process of adapting to This book explores adaptation then as an active practice of repetition and as a reactive process of development or evolution The essays also extend beyond the production transformation and interpretation of texts to interrogate the values and practices at work in cultural transition and transformation during periods of social and historical change Collectively the papers theorize adaptation by taking on three tasks first to examine the conditions under which the two processes of adaptation operate second to give an account of the space and moment in which the processes unfold the pockets of the title and finally to examine what emerges from pockets of adaptation While adapting from and adapting to are both processes that appear to preclude innovation in the way that they acknowledge and depend on external sources *Pockets of Change* demonstrates that adaptation is productive It not only references prior texts attitudes practices and media but it also invites us to re visit the past and to re think the present in new ways potentially giving narrative space to muted or occluded voices This book therefore brings together an innovative and varied range of approaches to interpretations and uses of adaptation challenging the assumption that an adaptation is simply either a re make or the act of turning one medium into another Adaptation then names not only the means by which texts are transformed but also the space in which that transformation takes place T
