Mesopotamia And The Bible:

Mesopotamia and the Bible Mark W. Chavalas,K. Lawson Younger, Jr.,2003-12-01 The study of Syro Mesopotamian civilization has greatly advanced in the past twenty five years In particular the renewed interest in Eastern or Mesopotamian Syria has radically altered our understanding of not only the ancient Near East but of the Bible as well With Syria east of the Euphrates becoming one of the most active areas of archaeological investigation in the entire Near East the need for a synthesis of this research and its integration with the Hebrew Bible has greatly increased This volume charts the state of our knowledge following a general chronological flow and will appeal not only to scholars of the ancient Near East but also to Biblical specialists interested in the historical and religious backgrounds to the Israelite and Judahite kingdoms

Mesopotamia and the Bible Lands Neil Morris,2009 A detailed overview of history in Mesopotamia including the various civilizations that lived there from the Sumerians up to the founding of Christianity The Holy Bible and Archaeology of Mesopotamia Thamur Hindo,2021-08-29 The book sheds light on some Biblical texts and archaeological documents related to successive important events that took place in Mesopotamia Greek interpretation of ancient Iraq from the time of creation and until the return of the exiled Jews to their homeland after the fall of Babylonia at the hands of the Persians in 539 B C The idea of presenting the two accounts separately in the six chapters might help to examine and assess whether God is really a God of love and is able to preserve the dignity of the human race that He created in His image and likeness and whether the world is stable prosperous and carrying high moral human values due to the dedication and diligence of these inspired believers to fulfill God s will over the course of 6000 years On the other hand to evaluate the contents of archaeological documents extracted from Mesopotamia that reveal the natures functions and achievements of the goddess of creation sky air waters and storms as well as the accomplishments of gods of Nations Kings and heroes of Epics and whether they can be adopted by generations as a constitution for life and inherited cultural civilization The last chapter introduces some Biblical prophecies that have been literally fulfilled regarding the fall of Assyria and Babylonia in addition to other prophecies recorded in the book of Revelation that are also supposed to be fulfilled at the end of ages but not before the collapse of the city of Babylon which was announced by the second Angel in 14 8 nor before the action of the sixth Angel in 16 12 when he poured out his bowl on the great river Euphrates and its water was dried up to prepare the way for the kings from the East The Author is an accredited Iraqi civil engineer who managed and accomplished numerous building and road projects He was appointed to complete construction projects in the heart of the archaeological site of the ancient city of Babel in the late 1980 s Being proud of the heritage and civilizations of his country that are recorded in the texts of The Holy Bible and for those reasons the idea began to develop into the belief that God devoted him to the diligence to produce this book Despite the fact that the dates of some artifacts precedes the dates of any written text in The Holy Bible acknowledging that the amount of documents extracted from the Land of Mesopotamia which is very modest in relation to the enormous

volume of information in the contents of The Holy Bible that does not decrease increase or change As matter of fact The Holy Bible remains as the main source for the success of the archaeological exploration projects that s the reason why the title of the book begins with The Holy Bible The Author presents various opinions selected from some publications that show the multiplicity of assumptions regarding successive topics related to each other In the absence of concrete evidences and to reach a single conclusion the remaining possibility is to adhere to one hypothesis or find a suitable new one that corresponds to the sequence of events that took place in Mesopotamia For instance The Creation The existence of the four rivers branching from Garden of Eden Genesis 2 10 The reality of the flood which was confirmed by the epic of Gilgamesh Nimrod is not a sinister but a builder king blessed of God Genesis 10 9 10 and Abraham crossed the Euphrates River once not three or four times Joshua 24 3

Children in Ancient Israel Shawn W. Flynn,2018-08-30 Flynn contributes to the emerging field of childhood studies in the Hebrew Bible by isolating stages of a child s life and through a comparative perspective studies the place of children in the domestic cult and their relationship to the deity in that cult The study gathers data relevant to different stages of a child s life from a plethora of Mesopotamian materials prayers myths medical texts rituals and uses that data as an interpretive lens for Israelite texts about children at similar stages such as pre born children the birth stage breast feeding adoption slavery children s death and burial rituals childhood delinquency This analysis presses the questions of value and violence the importance of the domestic cult for expressing the child s value beyond economic value and how children were valued in cultures with high infant mortality rates From the earliest stages to the moments when children die and to the children s responsibilities in the domestic cult later in life this study demonstrates that a child is uniquely wrapped up in the domestic cult and in particular is connected with the deity The domestic cultic value of children forms the much broader understanding of children in the ancient world through which other more problematic representations can be tested Throughout the study it becomes apparent that children s value in the domestic cult is an intentional catalyst for the social promotion of YHWHism

Secrecy and the Gods Alan Lenzi,2008 Secrecy and the Gods is a comparative mythological study of the

human reception and treatment of divine secret knowledge in ancient Mesopotamia and biblical Israel The human royal council was the social model for ancient ideas about divine knowledge being secret just as human kings had secrets so too did the gods Diviners who received this knowledge from the gods in an on going ad hoc manner were an essential link between the divine assembly and the human royal council for whom such knowledge was intended Scribes eventually adapted the ad hoc divinatory means of receiving divine communications to their culturally significant texts By discursively asserting a historical connection between themselves and unique mediators with a close divine affiliation the apkallus and Moses the scribes constructed myths that legitimated their texts as divine revelation and claimed these were received in history through normal scribal channels In this manner scribes fixed the secret of the gods permanently among humans in textualized form that valorized their own position within society Although the origin of divine secret knowledge was rooted in a common mythological idea of the divine assembly its treatment was quite distinct The Mesopotamians guarded divine secret knowledge through various scribal means including the attachment of a Geheimwissen colophon to certain tablets treated exhaustively whereas biblical Israel published it openly The contrast in treatment of divine secret knowledge was directly related to different mytho political self understandings Mesopotamia s imperial aspirations versus biblical Israel s vassaldom As vassals to Yahweh the divine imperial king the kings of Judah and Israel as presented in the biblical material were not to formulate secret orders they were only to obey them
