

DIRECT TRANSLATION TECHNIQUES

3. Literal translation

Literal translation refers to a translation technique that can be used when the languages involved share parallel structures and concepts; NOT to a translation made word for word: Literal translation carries the imprint of the original.

This technique is used when it is possible to transpose the source language (SL) message element by element into the target language (TL) and obtain a text that is idiomatic.

The girl is sick → la bambina sta male

How are you? → come stai?

Good morning → buon giorno?

Spanish syntax requires that we add “s” to both words, but this continues to be literal translation. It is just a case of syntax normalization.

Message A Modern Literal Translation Of

Emilie Sanchez

Message A Modern Literal Translation Of:
