William Clark Jay H. Buckley,2012-10-11 For three decades following the expedition with Meriwether Lewis for which he is best known William Clark forged a meritorious public career that contributed even more to the opening of the West from 1807 to 1838 he served as the U S government s most important representative to western Indians This biography focuses on Clark s tenure as Indian agent territorial governor and Superintendent of Indian Affairs at St Louis Jay H Buckley shows that Clark had immense influence on Indian white relations in the trans Mississippi region specifically and on federal Indian policy generally As an agent of American expansion Clark actively promoted the government factory system and the St Louis fur trade and favored trade and friendship over military conflict Clark was responsible for one tenth of all Indian treaties ratified by the U S Senate His first treaty in 1808 began Indian removal from what became Missouri Territory His last treaty in 1836 completed the process divesting Indians of the northwestern corner of Missouri Although he sympathized with the Indians fate and felt compassion for Native peoples Clark was ultimately responsible for dispossessing more Indians than perhaps any other American Drawing on treaty documents and Clark s voluminous papers Buckley analyzes apparent contradictions in Clark s relationship with Indians fellow bureaucrats and frontier entrepreneurs He examines the choices Clark and his contemporaries made in formulating and implementing Indian policies and explores how Clark s paternalism as a slaveholder influenced his approach to dealing with Indians Buckley also reveals the ambiguities and cross purposes of Clark s policy making and his responses to such hostilities as the Black Hawk War William Clark Indian Diplomat is the complex story of a sometimes sentimental yet always pragmatic imperialist Buckley gives us a flawed but human hero who in the realm of Indian affairs had few equals among American diplomats

Niles,Jeremiah Hughes,George Beatty,1825 **The History of Foreign Investment in the United States to 1914** Mira Wilkins,1989 From the colonial era to 1914 America was a debtor nation in international accounts owing more to foreigners than foreigners owed to us By 1914 it was the world s largest debtor nation Mira Wilkins provides the first complete history of foreign investment in the United States during that period The book shows why the United States was attractive to foreign

investors and traces the changing role of foreign capital in the nation's development covering both portfolio and direct investment. The immense new wave of foreign investment in the United States today and our return to the status of a debtor nation once again the world's largest debtor nation makes this strong exposition far more than just historically interesting. Wilkins reviews foreign portfolio investments in government securities federal state and local and in corporate stocks and bonds as well as foreign direct investments in land and real estate manufacturing plants and even such service sector activities as accounting insurance banking and mortgage lending. She finds that between 1776 and 1875 public sector securities principally federal and state securities drew in the most long term foreign investment whereas from 1875 to 1914 the private sector was the main attraction. The construction of the American railroad system called on vast portfolio investments from abroad there was also sizable direct investment in mining cattle ranching the oil industry the chemical industry flour production and breweries as well as the production of rayon thread and even submarines. In addition there were foreign stakes in making automobile and electrical and nonelectrical machinery. America became the leading industrial country of the world at the very time when it was a debtor nation in world accounts.
