and Donald Rakestraw The events in this story paved the way for one of the most far reaching developments in American history the age of expansion The United States gradually came to believe in manifest destiny the irreversible expansion of the States across the continent The country's success with England in resolving the two territorial disputes marked the dawn of this new era Complicating the U S English situation in the 1840s was a border conflict brewing with Mexico Failure to resolve the disputes with England might have led the United States to war with two nations at once Careful negotiations led to settlements with England instead of war But the United States went to war with Mexico from 1846 to 1848 Prologue to Manifest Destiny offers a rare detailed look at the tense Anglo American relationship during the 1840s and the two agreements reached regarding the land in the Northeast and the Northwest Presidents John Tyler and James Polk and the robust master of diplomacy Daniel Webster were among the American actors who played center stage in the drama as well as Britain's Lord Ashburton who worked closely with Webster to keep the turbulent conflict over the Northeast territory from escalating into war This gripping frontier story will fascinate as it educates Prologue to Manifest Destiny is perfect for courses in American history international relations and diplomatic history

*Race, Nation, and Empire in American History*  
James T. Campbell, Matthew Pratt Guterl, Robert G. Lee, 2017-12-10 While public debates over America's current foreign policy often treat American empire as a new phenomenon this lively collection of essays offers a pointed reminder that visions of national and imperial greatness were a cornerstone of the new country when it was founded In fact notions of empire have long framed debates over western expansion Indian removal African slavery Asian immigration and global economic dominance and they persist today despite the proliferation of anti imperialist rhetoric In fifteen essays distinguished historians examine the central role of empire in American race relations nationalism and foreign policy from the founding of the United States to the twenty first century The essays trace the global expansion of American merchant capital the rise of an evangelical Christian mission movement the dispossession and historical erasure of indigenous peoples the birth of new identities and the continuous struggles over the place of darker skinned peoples in a settler society that still fundamentally imagines itself as white Full of transnational connections and cross pollinations of people appearing in unexpected places the essays are also stories of people being put quite literally in their place by the bitter struggles over the boundaries of race and nation Collectively these essays demonstrate that the seemingly contradictory processes of boundary crossing and boundary making are and always have been intertwined Contributors James T Campbell Brown University Ruth Feldstein Rutgers University Newark Kevin K Gaines University of Michigan Matt Garcia Brown University Matthew Pratt Guterl Indiana University George Hutchinson Indiana University Matthew Frye Jacobson Yale University Prema Kurien Syracuse University Robert G Lee Brown University Eric Love University of Colorado Boulder Melani McAlister George Washington University Joanne Pope Melish University of Kentucky Louise M Newman University of Florida Vernon J Williams Jr Indiana University Natasha Zaretsky Southern Illinois University Carbondale
