Metastrategy Memorandum For The President:

Metastrategy Ray S. Cline,1988 *Metastrategy* Ray S. Cline,1988 **NATO and Eastern Europe After 2000** Laure Paquette,2001 NATO is acutely aware of its increased status as a force for stability in a drastically altered Atlantic community The number of its initiatives is on the increase just as a new political economic and military Europe emerges The Cold War s end has wrought as many changes as there are continuities in the security environment Eastern and Central European states especially NATO and PfP members enjoy an increasing importance to NATO both as trading partners and as new participants in the civil society While the literature on relations between NATO and the East Europeans is rather limited the study of the overall posture of those states in the international system is almost non existent so that the consequences of their posture for NATO s renewed concept are unknown The study of these countries security posture and strategic interactions with Central European states in general promotes the renewed role of NATO This book shows that each of the long term relations with Poland the Czech Republic Romania and Bulgaria is subordinated to the goal of entering the European Union and that their different values will makes relations difficult This will test NATO s new strategic concept to the limit It also shows the importance of strategic thinking *Strategy and Ethnic Conflict* Laure Paquette,2002-02-28 Ethnic conflict now presents the thorniest problems for military and civilian strategists of all stripes This book presents a new general theory of strategy encompassing studies of the relationship between values interest and strategy as these relate to ethnic conflicts It focuses on the relationship between values and strategy building a theory on the hypothesis that national values influence national strategy Paquette s research reveals that national values influence national strategy through three mechanisms cognition appreciation and evaluation Each mechanism and indeed the whole value focused approach to strategic thinking is described using a network of interrelated statements Paquette develops a methodology specific to the issues of international security and ethnic considerations She tests this theory extensively for internal consistency before applying it to a single historical case French decision making on national strategy between 1955 and 1970 however because of its generality this same theory could easily be applied to other cases As with any theory it is possible to vary successively or simultaneously assumptions or conditions and to derive new predictions This process of deriving variations has the potential to help in the training of strategists both military and civilian **Choice** ,1988 □□□□□□ □□ □,2007-05-01 Forthcoming Books Rose Arny,1989-09 **Political Science** ,1995 *The View of Economic and Technology Cooperation in APEC* Keiji Omura,1997 *Future Imperilled* Bharat Karnad,1994 Contributed articles Chiang Ching-kuo Remembered Ray S. Cline,1989 This study of Chiang Ching kuo CCK the late President of the Republic of China on Taiwan is a unique slice of history It is based on experience of close Chinese American intelligence cooperation in the 1950s and 1960s when the author was representing his government as CIA station chief in Taipei It begins with the author s visit to Taiwan over thirty years ago and ends at President Chiang s funeral in January 1988 Dr Cline describes not

only CCK the man but his political legacy of economic and political progress in the Republic of China The Taiwan experience is a developmental model for all Asia The book printed by Arcata Graphics is richly illustrated with contemporary photographs and includes in its first publication in the United States the candid diary that CCK kept when he was virtually a hostage in the Soviet Union 1925 1937 and learned to hate communism as it really existed under Stalin Altogether this book provides an authentic account of a man relatively little known in the Western world yet one who contributed enormously to democracy in Asia His place in history as a great Chinese political leader deserves to be put on the record Originally published in 1989 **Journal of Political Science** ,1995 **Subject Guide to Books in Print** ,1996 [Foreign Affairs](#) ,
