Bishir, Michael T. Southern, 2003 Central North Carolina boasts a rich and varied architectural landscape This richly illustrated guide offers a fascinating look at the Piedmont's historic architecture covering more than 2 000 sites in 34 counties 535 illustrations **Sticks & Stones** Margaret Ruth Little, 1998 An old graveyard writes Ruth Little is a cultural encyclopedia an invaluable source of insight and information about the families traditions and cultural connections that shape a community But although graveyards and gravemarkers have long been recognized as vital elements of the material culture of New England they have not received the same attention in the South Sticks and Stones is the first book to consider the full spectrum of gravemarkers both plain and fancy in a southeastern state From gravehouses to cedar boards to seashell mounds to tomb tables to pierced soapstones to homemade concrete headstones an incredibly rich collection of gravemarker types populates North Carolina's graveyards

Exploring the cultural economic and material differences that gave rise to such variation Little traces three major parallel developments a tradition of headstones crafted of native materials by country artisans a series of marble monuments created by metropolitan stonecutters and a largely twentieth century legacy of wood and concrete markers made within the African American community With more than 230 illustrations including 120 stunning photographs by Tim Buchman *Sticks and Stones* offers an illuminating look at an important facet of North Carolina s cultural heritage

The Beauty of Holiness Louis P. Nelson,2009-06-01 Intermingling architectural cultural and religious history Louis Nelson reads Anglican architecture and decorative arts as documents of eighteenth century religious practice and belief In *The Beauty of Holiness* he tells the story of the Church of England in colonial South Carolina revealing how the colony s Anglicans negotiated the tensions between the persistence of seventeenth century religious practice and the rising tide of Enlightenment thought and sentimentality Nelson begins with a careful examination of the buildings grave markers and communion silver fashioned and used by early Anglicans Turning to the religious functions of local churches he uses these objects and artifacts to explore Anglican belief and practice in South Carolina Chapters focus on the role of the senses in religious understanding the practice of the sacraments and the place of beauty regularity and order in eighteenth century Anglicanism The final section of the book considers the ways church architecture and material culture reinforced social and political hierarchies Richly illustrated with more than 250 architectural images and photographs of religious objects *The Beauty of Holiness* depends on exhaustive fieldwork to track changes in historical architecture Nelson imaginatively reconstructs the history of the Church of England in colonial South Carolina and its role in public life from its early years of ambivalent standing within the colony through the second wave of Anglicanism beginning in the early 1750s

Building the British Atlantic World Daniel Maudlin,Bernard L. Herman,2016-03-11 Spanning the North Atlantic rim from Canada to Scotland and from the Caribbean to the coast of West Africa the British Atlantic world is deeply interconnected across its regions In this groundbreaking study thirteen leading scholars explore the idea of transatlanticism or a shared Atlantic world experience through the lens of architecture built spaces and landscapes in the British Atlantic from the seventeenth century through the mid nineteenth century Examining town planning churches forts merchants stores state houses and farm houses this collection shows how the powerful visual language of architecture and design allowed the people of this era to maintain common cultural experiences across different landscapes while still forming their individuality By studying the interplay between physical construction and social themes that include identity gender taste domesticity politics and race the authors interpret material culture in a way that particularly emphasizes the people who built occupied and used the spaces and reflects the complex cultural exchanges between Britain and the New World

The True Image Daniel W. Patterson, 2012-10-08 A thousand unique gravestones cluster around old Presbyterian churches in the piedmont of the two Carolinas and in central Pennsylvania Most are the vulnerable legacy of three generations of the Bigham family Scotch Irish stonecutters whose workshop near Charlotte created the earliest surviving art of British settlers in the region In *The True Image* Daniel Patterson documents the craftsmanship of this group and the current appearance of the stones In two hundred of his photographs he records these stones for future generations and compares their iconography and inscriptions with those of other early monuments in the United States Northern Ireland and Scotland Combining his reading of the stones with historical records previous scholarship and rich oral lore Patterson throws new light on the complex culture and experience of the Scotch Irish in America In so doing he explores the bright and the dark sides of how they coped with challenges such as backwoods conditions religious upheavals war political conflicts slavery and land speculation He shows that headstones resting quietly in old graveyards can reveal fresh insights into the character and history of an influential immigrant group

A Man of Bad Reputation Drew A. Swanson, 2023-08-29 Five years after the Civil War North Carolina Republican state senator John W Stephens was found murdered inside the Caswell County Courthouse Stephens fought for the rights of freedpeople and his killing by the Ku Klux Klan ultimately led to insurrection Governor William W Holden s impeachment and the early unwinding of Reconstruction in North Carolina In recounting Stephens s murder the subsequent investigation and court proceedings and the long delayed confessions that revealed what actually happened at the courthouse in 1870 Drew A Swanson tells a story of race politics and social power shaped by violence and profit The struggle for dominance in Reconstruction era rural North Carolina Swanson argues was an economic and ecological transformation Arson beating and murder became tools to control people and landscapes and the ramifications of this violence continued long afterward The failure to prosecute anyone for decades after John Stephens s assassination left behind a vacuum as each side shaped its own memory of Stephens and his murder The malleability of and contested storytelling around Stephens s legacy presents a window into the struggle to control the future of the South
