North Central States:

Weeds of the North Central States Lloyd M. Wax, 1999-04 All the weeds commonly found in the North Central Region as well as a good many that are less common are illustrated and described in this book Detailed pictures have been given for most of the weeds and wherever possible in the descriptions common terms have been substituted for technical ones People with a minimum of botanical knowledge should therefore be able to identify almost every weed they are likely to find A weed is defined as a plant not intentionally sown whose undesirable qualities outweigh its good points Includes weed descriptions keys for identifying weeds glossary index to species and index to families B W drawings Handbook of Mammals of the North-Central States J. Knox Jones, Scientific reference on the mammals of Minnesota Iowa Wisconsin Michigan Illinois Indiana and Ohio The forests and grasslands of the seven north central states Minnesota Iowa Wisconsin Illinois Michigan Indiana and Ohio support a large mammalian fauna including at least 88 native species that have survived the profound impact of human settlement in both urban and rural environments This handbook is a basic introduction and guide to the identification of the 99 native and five introduced species that either live in the region today or are known to have lived there at the time of initial European settlement Designed by its authors for the field or laboratory it provides a two page spread for each species with a concise biological summary a photograph of the mammal and except for extirpated species a map showing its current distribution in the seven state area and an inset of its historically documented distribution in North America Also included are an introduction to the region's environments and zoogeography dichotomous keys for the identification of species and a glossary of terms The Labor Problem on Dairy Farms in Several Northeastern and Northcentral States During the 1942 Agricultural Season United States.
