

North Korea

Tae-Hwan Kwak, Seung-Ho Joo

North Korea:

The Real North Korea Andrei Lankov, 2013-04-10 Andrei Lankov has gone where few outsiders have ever been A native of the former Soviet Union he lived as an exchange student in North Korea in the 1980s He has studied it for his entire career using his fluency in Korean and personal contacts to build a rich nuanced understanding In *The Real North Korea* Lankov substitutes cold clear analysis for the overheated rhetoric surrounding this opaque police state After providing an accessible history of the nation he turns his focus to what North Korea is what its leadership thinks and how its people cope with living in such an oppressive and poor place He argues that North Korea is not irrational and nothing shows this better than its continuing survival against all odds A living political fossil it clings to existence in the face of limited resources and a zombie economy manipulating great powers despite its weakness Its leaders are not ideological zealots or madmen but perhaps the best practitioners of Machiavellian politics that can be found in the modern world Even though they preside over a failed state they have successfully used diplomacy including nuclear threats to extract support from other nations But while the people in charge have been ruthless and successful in holding on to power Lankov goes on to argue that this cannot continue forever since the old system is slowly falling apart In the long run with or without reform the regime is unsustainable Lankov contends that reforms if attempted will trigger a dramatic implosion of the regime They will not prolong its existence Based on vast expertise this book reveals how average North Koreans live how their leaders rule and how both survive

North Korea through the Looking Glass Kongdan Oh, Ralph C. Hassig, 2004-05-13 Fifty five years after its founding at the dawn of the cold war North Korea remains a land of illusions Isolated and anachronistic the country and its culture seem to be dominated exclusively by the official ideology of Juche which emphasizes national self reliance independence and worship of the supreme leader General Kim Jong Il Yet this socialist utopian ideal is pursued with the calculations of international power politics Kim has transformed North Korea into a militarized state whose nuclear weapons ballistic missiles and continued threat to South Korea have raised alarm worldwide This paradoxical combination of cultural isolation and military first policy has left the North Korean people woefully deprived of the opportunity to advance socially and politically The socialist economy guided by political principles and bereft of international support has collapsed Thousands perhaps millions have died of starvation Foreign trade has declined and the country's gross domestic product has recorded negative growth every year for a decade Yet rather than initiate the sort of market reforms that were implemented by other communist governments North Korean leaders have reverted to the economic policies of the 1950s mass mobilization concentration on heavy industry and increased ideological indoctrination Although members of the political elite in Pyongyang are acutely aware of their nation's domestic and foreign problems they are plagued by fear and policy paralysis North Korea Through the Looking Glass sheds new light on this remote and peculiar country Drawing on more than ten years of research including interviews with two dozen North Koreans who made the painful decision to defect from their homeland Kongdan Oh and

Ralph C Hassig explore what the leadership and the masses believe about their current predicament Through dual themes of persistence and illusion they explore North Korea s stubborn adherence to policies that have

China and North Korea C. Freeman,2015-06-30 At a time when Chinese policy makers appear to be rethinking China s historically close alliance relationship with North Korea this volume gathers a diverse collection of original essays by some of China s leading experts on North Korea and China s North Korea policy

North Korea: The Politics of Regime Survival Young Whan Kihl,Hong Nack Kim,2014-12-18 Featuring contributions by some of the leading experts in Korean studies this book examines the political content of Kim Jong Il s regime maintenance including both the domestic strategy for regime survival and North Korea s foreign relations with South Korea Russia China Japan and the United States It considers how and why the Democratic People s Republic of Korea DPRK became a hermit kingdom in the name of Juche self reliance ideology and the potential for the barriers of isolationism to endure This up to date analysis of the DPRK s domestic and external policy linkages also includes a discussion of the ongoing North Korean nuclear standoff in the region

North Korea's Foreign Policy under Kim Jong Il Seung-Ho Joo,2016-12-05 The Democratic People s Republic of Korea North Korea joined the rank of nuclear powers in October 2006 after exploding its first nuclear device The test was not fully successful yet it unequivocally demonstrated North Korea s nuclear weapons capability North Korea under the leadership of Kim Jong il remains as unpredictable and mysterious as ever This comprehensive study brings together leading scholars in the field to examine the country s current foreign policy under Kim Jong il as well as its bilateral relations with the USA China Russia Japan and South Korea

North Korea's Women-led Grassroots Capitalism Bronwen Dalton,Kyungja Jung,2023-12-01 North Korea is in the throes of economic and social if not political transition These changes have a pronounced gender dimension the crisis of the command economy and the gradual emergence of an informal market economy where remarkably the vast majority of North Korea s traders and merchants are women This book examines the complex relationship between gender roles and economic and social changes in North Korea The book based on extensive original research provides rich details of this development considers how women s roles in North Korea have developed over time and highlights how women are driving change in other areas of North Korean life too including family relationships women s sexuality and reproductive issues and women s cultural identity

North Korea Hazel Smith, 2015-04-06

In this historically grounded richly empirical study of social and economic transformation in North Korea Hazel Smith evaluates the marketization from below that followed the devastating famine of the early 1990s estimated to be the cause of nearly one million fatalities Smith shows how the end of the Cold War in Europe and the famine brought radical social change to all of North Korean society This major new study analyses how marketization transformed the interests expectations and values of the entire society including Party members the military women and men the young and the elderly Smith shows how the daily life of North Koreans has become alienated from the daily pronouncements of the North Korean government Challenging stereotypes of twenty five million North Koreans as mere bystanders in history Smith argues that North Koreans are neither victims nor villains but active agents of their own destiny

Understanding North Korea Jongwoo Han, Jung Tae-hern, 2013-12-04

Why does North Korea want to possess nuclear capabilities In order to find the answer to this question we must have an accurate understanding of the history and structure of the North Korean regime So far we have only formed conjectures and predictions regarding North Korea based on our own perspectives we now need to deal with and consider North Korea as is to reach viable solutions to the issues North Korea presents This volume contains analyses of the most salient critical issues pertinent to understanding the North Korean regime penned by representative Korean scholars of North Korea As such the book examines the historical formation of North Korea the identities of those power elite and the relative stability or instability as the case may be of the new regime under Kim Jong un Also an important aspect to consider is the possibility of socio economic change in North Korea Though North Korea has remained relatively static vis vis its political and military systems it is in the process of becoming rapidly marketized having continued various attempts to modify its economic policy In the social realm said economic shift has elicited the polarization of the disparate classes and the expansion of individualism Such social transformations obscured by the easily visible political reality of North Korea can provide solid grounds for determining the future of the North Korea regime Moreover it is imperative that we accurately understand the motivation behind North Korea's intention to develop nuclear weapons namely the expansion of deterrence We must recognize the

reasons for the North Korean hostility toward the United States from the very beginning of the DPRK formation and the North Korean fixation on nuclear weapons development Further we need to understand the nature of relations between China and North Korea relations on which the international community has focused since North Korea began its nuclear testing as well as the history and structure of relations between North and South Korea Only when we accurately understand North Korea can we reach solutions to the North Korean nuclear issue The studies in this volume by Korean scholars will reveal the veiled background of the visible phenomena and thereby help the readers to correctly understand the North Korean behaviors hitherto misunderstood or even those that were impossible to understand Nuclear Conundrum of Iran

and North Korea Hina Pandey,2023-11-03 This book examines Iran and North Korea from a non proliferation lens It highlights how these two countries stand out as nuclear challenges vis vis the NPT and unpacks their nuclear history recent developments nuclear resolve in the times of the pandemic and future challenges in a comprehensive manner It shows how these two issues remain similar distinguished dynamic but static so far progress on non proliferation is concerned The book will be a valuable read for students scholars academicians policy practitioners and anyone invested and interested in nuclear issues *China-North Korea Relations* Catherine Jones,Sarah Teitt,2020-04-24 Developing a new approach to exploring security relations between China and North Korea this timely book examines China s contradictory statements and actions through the lens of developmental peace It highlights the differences between their close relationship on the one hand and China s votes in favour of sanctions against North Korea on the other examining the background to this and its importance

North Korea and Security Cooperation in Northeast Asia Tae-Hwan Kwak,Seung-Ho Joo,2016-05-23 Relations between the two Koreas continue to be hostile volatile and unpredictable with North Korea s nuclear issue remaining as untamed as ever As such there is a growing urgency for security cooperation in Northeast Asia to be given immediate attention The key players in the region the US China Japan and Russia are keenly aware of the security threat of an armed clash between North and South Korea and are committed to denuclearization of the Korean peninsula This book explores the domestic factors of the two Koreas and the four major powers that influence their security policies towards North Korea and Northeast Asia This well thought out and consistently analysed volume has huge potential to frame the conversation on Northeast Asian relations in the coming years **Escape from North Korea** Melanie Kirkpatrick,2014-05-13 From the world s most repressive state comes rare good news the escape to freedom of a small number of its people It is a crime to leave North Korea Yet increasing numbers of North Koreans dare to flee They go first to neighboring China which rejects them as criminals then on to Southeast Asia or Mongolia and finally to South Korea the United States and other free countries They travel along a secret route known as the new underground railroad With a journalist s grasp of events and a novelist s ear for narrative Melanie Kirkpatrick tells the story of the North Koreans quest for liberty Travelers on the new underground railroad include women bound to Chinese men who purchased them as brides defectors carrying state secrets and POWs from the Korean War held

captive in the North for more than half a century Their conductors are brokers who are in it for the money as well as Christians who are in it to serve God The Christians see their mission as the liberation of North Korea one person at a time Just as escaped slaves from the American South educated Americans about the evils of slavery the North Korean fugitives are informing the world about the secretive country they fled Escape from North Korea describes how they also are sowing the seeds for change within North Korea itself Once they reach sanctuary the escapees channel news back to those they left behind In doing so they are helping to open their information starved homeland exposing their countrymen to liberal ideas and laying the intellectual groundwork for the transformation of the totalitarian regime that keeps their fellow citizens in chains

North Korea and Nuclear Weapons Sung Chull Kim, Michael D. Cohen (PhD), 2017 North Korea is perilously close to developing strategic nuclear weapons capable of hitting the United States and its East Asian allies Since their first nuclear test in 2006 North Korea has struggled to perfect the required delivery systems Kim Jong un s regime now appears to be close however Sung Chull Kim Michael D Cohen and the volume contributors contend that the time to prevent North Korea from achieving this capability is virtually over scholars and policymakers must turn their attention to how to deter a nuclear North Korea The United States South Korea and Japan must also come to terms with the fact that North Korea will be able to deter them with its nuclear arsenal How will the erratic Kim Jong un behave when North Korea develops the capability to hit medium and long range targets with nuclear weapons How will and should the United States South Korea Japan and China respond and what will this mean for regional stability in the short term and long term The international group of authors in this volume address these questions and offer a timely analysis of the consequences of an operational North Korean nuclear capability for international security

People's Army: The Military Power of North Korea Andrew Scobell, John M. Sanford, Daniel A. Pinkston, Strategic Studies Institute U.S. Congress, Donald Trump, 2020-07-03 North Korea is a country of paradoxes and contradictions Although it remains an economic basket case that cannot feed and clothe its own people it nevertheless possesses one of the world s largest armed forces This book provides the facts regarding the true force of North Korean Army and gives an assessment of its capability to harm the United States

North Korea and the Science of

Provocation Robert Daniel Wallace, 2016-02-03 Why does North Korea routinely turn to provocation to achieve foreign policy goals Are the actions of the volatile Kim regime predictable based on logical responses to the conditions faced by North Korea This book an examination of the Hermit Kingdom over the past 50 years explains why the Democratic People's Republic of Korea uses hostility and coercion as instruments of foreign policy Using three case studies and quantitative analysis of more than 2 000 conflict events the author explores the relationship between North Korea's societal conditions and its propensity for external conflict These findings are considered in light of diversionary theory the idea that leaders use external conflict to divert attention from domestic affairs Analyzing the actions of an isolated state such as North Korea provides a template for conflict scholarship in general *North Korea and Regional Security in the Kim Jong-un Era* Bruce E. Bechtol Jr., 2014-02-24 This study is one of the very first to analyze North Korea and the challenges that it presents to international security and community by looking through the prism of the first two years of the Kim Jong un regime

Non-Traditional Security Issues in North Korea Kyung-Ae Park, 2013-07-31 The concept of security has undergone significant change in the past few decades Traditionally thought of in terms of the state centric militarily focused realist discourse the concept of security has been broadened to include a greater number of potential threats and an increased number of relevant actors Yet despite the great changes in security scholarship the vast majority of studies on North Korea continue to focus primarily on the country's nuclear weapons program its military and other traditional security issues surrounding Pyongyang While North Korea captures headlines with its aggressive behavior and growing nuclear arsenal the ground level threats to average everyday North Koreans go largely unnoticed This groundbreaking volume seeks to refocus research on North Korean security from the traditional to largely unexplored non traditional security NTS issues In the wake of political succession to Kim Jung Un the issue of non traditional security is increasingly important From the lasting effects of the famine of the 1990s to continued food shortages and the growing marketization of North Korean society the Pyongyang regime is facing diverse and unprecedented challenges This book offers cutting edge analyses of emerging North Korean NTS issues by the world's leading specialists in the field It looks at these issues and their effects at the local regional and international level as well as examining the international community's efforts to promote an NTS approach to North Korea More specifically the volume addresses the traditional and non traditional security paradigms energy security gender security transnational organized crime the internal and external dimensions of North Korea's food security the Responsibility to Protect refugee issues and international law and the role of NGOs in promoting NTS in North Korea As the global community begins to move toward a more people centered approach to security and foreign policy work such as that presented in this thought provoking volume will be increasingly vital to scholars policymakers and interested citizens Contributors Tsuneo Akaha Peter Hayes Brendan Howe W Randall Ireson David C Kang Shin wha Lee Mark Manyin Kyung Ae Park Scott Snyder Jae Jung Suh David von Hippel Origins of North Korea's Juche Chae-jöng Sö, 2013 For over five

decades North Korea has outlived many forecasts of collapse despite defects in its system. *Origins of North Korea's Juche: Colonialism, War, and Development*, edited by Jae Jung Suh, argues that it has survived because of Juche, a unique political institution built on the simple notion of self-determination whose meanings and limits have been shaped by Koreans' experiences with colonialism, war, and development amidst surrounding superpowers that have complicated their aspirations and plans. The authors in this volume collectively provide an historical-institutionalist account of North Korean politics organized around the concept of Juche, commonly translated as self-reliance but best understood as subjecthood or being a master of one's own fate, focusing on its role as a response to North Korea's experiences with colonialism, the Korean War, and economic development. The contributors further discuss how Juche circumscribes the evolutionary path that North Koreans can take as they negotiate contemporary challenges. North Korea as it is now is best understood in terms of Juche, which embodies the cumulative effect of its historical experiences and responses and its future potential and trajectory as enabled and constrained by its conception of Juche. This collection provides fascinating insights into the politics and history of one of the world's most mysterious nations.

Unveiling the Energy of Verbal Art: An Mental Sojourn through **North Korea**

In a global inundated with screens and the cacophony of immediate interaction, the profound energy and mental resonance of verbal beauty often diminish in to obscurity, eclipsed by the regular barrage of noise and distractions.
