Dyar s unbelievable life For the first time insect biosystematist Marc E Epstein presents a complete account of Dyar s life

stages of insects brought about major changes in the scientific community s understanding of natural relationships and insect
systematics He was also the father of what came to be known as Dyar s Law a pragmatic method to standardize information
on insect larval stages as they grow Over the course of his illustrious career at the U S National Museum Smithsonian
Institution from 1897 1929 Dyar named over 3 000 species established the List of North American Lepidoptera an unrivaled
catalog of moths and butterflies and built one of the nation s premier lepidoptera and mosquito collections However Dyar s
