Wilson, 2019-09-19 This two volume work celebrates 50 notable achievements of African Americans highlighting black contributions to U S history and examining the ways black accomplishments shaped American culture This two volume encyclopedia offers a unique look at the African American

experience from the arrival of the first 20 Africans at Jamestown through the launch of the Black Lives Matter movement and the Ferguson Protests. It illustrates subjects such as the Jim Crow period, the Brown v Board of Education case that overturned segregation, Jackie Robinson's landmark integration of major league baseball, and the election of Barack Obama as president of the United States. Drawing from almost 400 years of U.S. history, the work documents the experiences and impact of Black people on every aspect of American life. Presented chronologically, the selected events each include at least one primary source to provide the reader with a first person perspective. These range from excerpts of speeches given by famous African American figures to programs from the March on Washington. The remarkable stories collected here bear witness to the strength of a group of people who chose to survive and found ways to work collectively to force America to live up to the promise of its founding.

Race, Place, and Memory Margaret M. Mulrooney, 2022-03-15. A revealing work of public history that shows how communities remember their pasts in different ways to fit specific narratives. *Race, Place, and Memory* charts the ebb and flow of racial violence in Wilmington, North Carolina, from the 1730s to the present day. Margaret Mulrooney argues that white elites have employed public spaces, memorials, and celebrations to maintain the status quo. The port city has long celebrated its white colonial revolutionary origins, memorialized Decoration Day, and hosted Klan parades. Other events such as the Azalea Festival have attempted to present a false picture of racial harmony to attract tourists. And yet the revolutionary acts of Wilmington's African American citizens, who also demanded freedom first from slavery and later from Jim Crow discrimination, have gone unrecognized. As a result, beneath the surface of daily life, collective memories of violence and alienation linger among the city's Black population. Mulrooney describes her own experiences as a public historian involved in the centennial commemoration of the so-called Wilmington Race Riot of 1898, which perpetuated racial conflicts in the city throughout the twentieth century. She shows how, despite organizers' best efforts, a white-authored narrative of the riot's contested origins remains. Mulrooney makes a case for public history projects that recognize the history-making authority of all community members and prompts us to reconsider the memories we inherit. A volume in the series *Cultural Heritage Studies*, edited by Paul A. Shackel. Publication of the paperback edition made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities.

African American History Day by Day Karen Juanita Carrillo, 2012-08-22. The proof of any group's importance to history is in the detail, a fact made plain by this informative book's day-by-day documentation of the impact of African Americans on life in the United States. One of the easiest ways to grasp any aspect of history is to look at it as a continuum. *African American History Day by Day: A Reference Guide to Events* provides just such an opportunity. Organized in the form of a calendar, this book allows readers to see the dates of famous births, deaths, and events that have affected the lives of African Americans and, by extension, of America as a whole.
