North Charleston:

North Charleston, South Carolina, Neighborhood Analysis and Community Development Plan, Program, and Budget North Charleston (S.C.). Planning Department, 1976 *North Charleston*, 2002 Slightly north of the confluence of the Cooper and Ashley Rivers in South Carolina lies the Palmetto State's third largest metropolitan center North Charleston Although the city's official incorporation did not take place until 1972 the area's story begins much earlier Before the War between the States tremendous plantations including Ingleside Marshlands and Otranto lined the local waterways Several of North Charleston's main thoroughfares are traceable to earlier times as well Remount Road acquired its name as World War I army officers commanded soldiers who were standing beside their horses to remount while Meeting Street then called the broad path was used by the local Native Americans This pictorial history of North Charleston offers readers a unique chance to step back in time to revisit past generations of families and businesses no longer in existence to experience North Charleston's creation and expansion Crisp detailed text enhances vintage photographs together relating the city's storied past The images portray various aspects of the community's history from historic Montague Avenue and the city's oldest church St Peter's A M E through the city's population explosion when World War II increased the importance and size of the Navy Yard and the Charleston Air Force Base and into the cultural development and beautification that the city is presently undergoing Probably the most important inclusion however are the numerous faces of individuals who throughout the 20th century have visited this place and called it home Without the contributions of such individuals no matter how large or how small North Charleston as it is known today simply would not be the same Charleston Susan Crawford, 2023-04-04 An unflinching look at a beautiful endangered tourist pummeled and history filled American city At least thirteen million Americans will have to move away from American coasts in the coming decades as rising sea levels and increasingly severe storms put lives at risk and cause billions of dollars in damages In Charleston South Carolina denial boosterism widespread development and public complacency about racial issues compound the city like our country has no plan to protect its most vulnerable In these pages Susan Crawford tells the story of a city that has played a central role in America's painful racial history for centuries and now as the waters rise stands at the intersection of climate and race Unbeknownst to the seven million mostly white tourists who visit the charming streets of the lower peninsula each year the Holy City is in a deeply precarious position Weaving science narrative history and the family stories of Black Charlestonians Charleston chronicles the tumultuous recent past in the life of the city from protests to hurricanes while revealing the escalating risk in its future A bellwether for other towns and cities Charleston is emblematic of vast portions of the American coast with a future of inundation juxtaposed against little planning to ensure a thriving future for all residents In Charleston we meet Rev Joseph Darby a well regarded Black minister with a powerful voice across the city and region who has an acute sense of the city's shortcomings when it comes to matters of race and water We also hear from Michelle Mapp one of the city's most promising

Black leaders and Quinetha Frasier a charismatic young Black entrepreneur with Gullah Geechee roots who fears her people's displacement And there is Jacob Lindsey a young white city planner charged with running the city's ten year comprehensive plan efforts who ends up working for a private developer These and others give voice to the extraordinary risks the city is facing The city of Charleston with its explosive gentrification over the last thirty years crystallizes a human tendency to value development above all else At the same time Charleston stands for our need to change our ways and the need to build higher drier more densely connected places where all citizens can live safely Illuminating and vividly rendered Charleston is a clarion call and filled with characters who will stay in the reader's mind long after the final page
