Peter Trudgill

North Yorkshire And North Humberside:

North Yorkshire and North Humberside Cyril Bainbridge, 1989-01 *Ritual in Early Bronze Age Grave Goods* John Hunter, Ann Woodward, 2014-10-31 The exotic and impressive grave goods from burials of the Wessex Culture in Early Bronze Age Britain are well known and have inspired influential social and economic hypotheses invoking the former existence of chiefs warriors and merchants and high ranking pastoralists Alternative theories have sought to explain the how display of such objects was related to religious and ritual activity rather than to economic status and that groups of artefacts found in certain graves may have belonged to religious specialists This volume is the result of a major research that aimed to investigate Chalcolithic and Early Bronze Age grave goods in relation to their possible use as special dress accessories or as equipment employed within ritual activities and ceremonies Many items of adornment can be shown to have formed elements of elaborate costumes probably worn by individuals both male and female who held important ritual roles within society Furthermore the analysis has shown that various categories of object long interpreted as mundane types of tool were in fact items of bodily adornment or implements used in ritual contexts or in the special embellishment of the human body Although never intended to form a complete catalogue of all the relevant artefacts from England the volume provides an extensive and intensively illustrated overview of a large proportion of the grave goods from English burial sites *Language in the British Isles* Peter Trudgill, 1984-05-17 **The Changing Geography of the United Kingdom** V. Gardiner, Michael Hugh Matthews, 2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company **The Changing Geography of the UK 3rd Edition** Hugh Matthews, Vince Gardiner, 2020-10-28 This book presents a full description and interpretation of the changes that have occurred in the United Kingdom during the 1990s It offers an understanding of the social economic political and physical forces bringing about the changes in the United Kingdom The Changing Geography of the UK Hugh Matthews, Vince Gardiner, 2002-03-11 First published in 2000 Within the last decade the UK has undergone major shifts in terms of its land economy society polity and environment all of which have had a profound effect on the geographical landscape This fully revised edition of a widely appreciated book presents a full description and interpretation of the changes that have occurred during the 1990s It includes a great deal of new material from a revised team of contributors *John Catt's Which School? 2012* Tom Wheare, Wendy Bosberry-Scott, 2011-09 First published in 1924 Which School brings together in one volume a wide range of information and advice updated annually on independent education for children up to the age of 18 years **Regional Climates of the British Isles** Julian Mayes, Dennis Wheeler, 2002-09-11 Global climate and the effects of global warming are commanding unprecedented interest as climates grow more dynamic and changeable How does global warming change patterns of climate Why is the weather and climate of the British Isles so variable Regional Climates of the British Isles presents a comprehensive and up to date survey of the diverse climate of the British Isles Examining the ways in which regional climates evolve from the interplay of meteorological conditions and

geography of the British Isles leading climatologists provide detailed explanations of the climatic characteristics of eleven regions of the British Isles Climatic distinctiveness and local weather contrasts are described for each region together with a summary of climatic data from 1961 to the present Reviewing the history and causes of climatic change and evaluating regional models Regional Climates of the British Isles offers an important analysis of climatic variations Examining future climatic change and its likely consequences the authors acknowledge the need for regionally diverse responses to the greenhouse effect Statutory Instruments Great Britain,1973 *Preparatory Schools 2011* ,2011 The Macmillan Guide to the United Kingdom 1978-79 NA NA,2015-12-25 **Regional Trends** ,1987 **Regional Science in Business** Graham Clarke,Moss Madden,2013-03-09 Graham Clarke and Moss Madden 1 1 Background In the mid 1990s there were a number of papers in regional science that questioned the relevance and purpose of the entire sub discipline Bailly and Coffey 1994 for example talked of regional science in crisis They argued that there were two fundamental problems First regional science was too theoretical in the sense that many of its products were models that could neither be calibrated too complex or operationalised too abstract in the real world They suggested that regional science had not sufficiently demonstrated that it can address real world problems and subsequently lacked a focus on relevant policy issues Second they argued that regional science had become too narrow in focus and had moved away too far from real people and their daily concerns or struggles in life This was not the first time we had witnessed these sorts of arguments both from outside the discipline and from within Sayer 1976 was perhaps the first to argue for a shift from a model based focus in regional science to one based on political economy Breheny 1984 criticised the deep ignorance among regional scientists of the nature of practical policy making and implementation see also Rodwin 1987 for similar views in the mid 1980s Such self reflection is a feature of many disciplines as they reach maturity There have been many similar reflections in geography Johnston 1996 Barnes 1996 and economics see the collection in the January edition of the Economic Journal 1991 **Issues of Regional Identity** Edward Royle,1998 As regionalism assumes new importance in Britain and throughout the EU this work brings together historians and geographers to offer regional perspectives on Britain that avoid both the traditional parochialism of local history and the generalizations of a national approach **Regions, Cities and the Circular Economy** Sébastien Bourdin,André Torre,Eveline van Leeuwen,2024-12-09 This timely book presents a theoretical and practical reflection on the circular economy and its potential to reduce reuse and recycle for the world of tomorrow Investigating how to avoid resource depletion it provides an in depth study into how cities and regions have engaged with this concept in an effort to enhance resource efficiency and minimise environmental damage Which School? 2011 Wendy Bosberry-Scott,2010-10 First published in 1924 Which School brings together in one volume a wide range of information and advice updated annually on independent education for children up to the age of 18 years **Which School? for Special Needs 2009/2010** Wendy Bosberry-Scott,2009-04 This guide offers parents a comprehensive directory of independent and non maintained schools in

Britain which provide for children with sensory or physical impairment learning difficulties and emotional or behavioural problems

Anglo-Saxon Graves and Grave Goods of the 6th and 7th Centuries AD Alex Bayliss, 2017-07-05 The Early Anglo Saxon Period is characterized archaeologically by the regular deposition of artefacts in human graves in England The scope for dating these objects and graves has long been studied but it has typically proved easier to identify and enumerate the chronological problems of the material than to solve them Prior to the work of the project reported on here therefore there was no comprehensive chronological framework for Early Anglo Saxon Archaeology and the level of detail and precision in dates that could be suggested was low The evidence has now been studied afresh using a co ordinated suite of dating techniques both traditional and new a review and revision of artefact typology seriation of grave assemblages using correspondence analysis high precision radiocarbon dating of selected bone samples and Bayesian modelling using the results of all of these These were focussed primarily on the later part of the Early Anglo Saxon Period starting in the 6th century This research has produced a new chronological framework consisting of sequences of phases that are separate for male and female burials but nevertheless mutually consistent and coordinated These will allow archaeologists to assign grave assemblages and a wide range of individual artefact types to defined phases that are associated with calendrical date ranges whose limits are expressed to a specific degree of probability Important unresolved issues include a precise adjustment for dietary effects on radiocarbon dates from human skeletal material Nonetheless the results of this project suggest the cessation of regular burial with grave goods in Anglo Saxon England two decades or even more before the end of the seventh century That creates a limited but important discrepancy with the current numismatic chronology of early English sceattas The wider implications of the results for key topics in Anglo Saxon archaeology and social economic and religious history are discussed to conclude the report

Regional Development in the 1990s Ron Martin, Peter Townroe, 2013-10-18 This book documents the changing nature and challenge of regional development in Britain and Ireland in the final decade of this century In the first half of this book region by region profiles review the experience of the eighties and reflect on the present climate assessing problems and opportunities The second half provides 25 commentaries on changes influencing the development of regions from questions of industry technology and employment to the impact of national policy and 1992 and the prospects and capacity for regional policy and development
