*Northern Ireland* Maurice Irvine,1991      *Northern Ireland* Maurice Irvine,1991      *The Ambivalence of the Sacred* Scott R. Appleby,2000 This text explains what religious terrorists and religious peacemakers share in common and what causes them to take different paths in fighting injustice      **The Troubles** Tim Pat Coogan,2015-12-16 The Troubles refers to a violent thirty year conflict at the heart of which lay the constitutional status of Northern Ireland Over 3 000 people were killed on all sides and many more damaged by a legacy that continued long past 1998 After looking at the roots of Catholic discrimination of the Northern Irish state Coogan points to Orange prejudice in housing education and jobs and the lack of a Catholic outlet for peaceful protest He argues that the war in the North started as a civil rights demonstration but that radical Orange response soon turned protest into war He takes a close look at Ian Paisley the great pornographer John Hume the quiet peacemaker Gerry Adams gunman turned peacemaker and Albert Reynolds the first prime minister to insist on peace In this controversial volume Coogan covers all parts of the war from Bloody Sunday in 1972 to the Bobby Sands hunger strike Although written from a nationalist viewpoint Coogan has taken a complicated history and explained it simply with grace and wit      *The Statesman's Year Book: 1992-93* B. the First Edition At last there is an excellent reliable and absorbing account of Orangeism Eamonn Phoenix *The Irish News* A thorough and determinedly unbiased account written with great enthusiasm Niall Savage *The Sunday Business Post* *The Rise and Fall of Christian Ireland* Crawford Gribben, 2021-09-09 *The Rise and Fall of Christian Ireland* describes the emergence long dominance sudden division and recent decline of Ireland's most important religion as a way of telling the history of the island and its peoples Throughout its long history Christianity in Ireland has lurched from crisis to crisis Surviving the hostility of earlier religious cultures and the depredations of Vikings evolving in the face of Gregorian reformation in the eleventh and twelfth centuries and more radical protestant renewal from the sixteenth century Christianity has shaped in foundational ways how the Irish have understood themselves and their place in the world And the Irish have shaped Christianity too Their churches have staffed some of the religion's most important institutions and developed some of its most popular ideas But the Irish church like the island is divided After 1922 a border marked out two jurisdictions with competing religious politics The southern state turned to the Catholic church to shape its social mores until it emerged from an experience of sudden onset secularization to become one of the most progressive nations in Europe The northern state moved more slowly beyond the protestant culture of its principal institutions but in a similar direction of travel In 2021 1 500 years on from the birth of Saint Columba Christian Ireland appears to be vanishing But its critics need not relax any more than believers ought to despair After the failure of several varieties of religious nationalism what looks like irredeemable failure might actually be a second chance In the ruins of the church new Patricks and Columbas shape the rise of another Christian Ireland

**International Handbook of Violence Research** Wilhelm Heitmeyer, John Hagan, 2005-08-12 An international manual is like a world cruise a once in a lifetime experience All the more reason to consider carefully whether it is necessary This can hardly be the case if previous research in the selected field has already been the subject of an earlier review or even several competing surveys On the other hand more thorough study is necessary if the intensity and scope of research are increasing without comprehensive assessments That was the situation in Western societies when work began on this project in the summer of 1998 It was then too that the challenges emerged any manual especially an international one is a very special type of text which is anything but routine It calls for a special effort the state of the art has to be documented for selected subject areas and its presentation made as compelling as possible The editors were delighted therefore by the cooperation and commitment shown by the eighty one contributors from ten countries who were recruited to write on the sixty two different topics by the constructive way in which any requests for changes were dealt with and by the patient response to our many queries This volume is the result of a long process It began with the first drafts outlining the structure of the work which were submitted to various distinguished colleagues Friedheim Neidhardt of Berlin Gertrud Nunner Winkler of Munich and Roland Eckert of Trier to name only a few supplied valuable comments at this stage
