Northern Ireland Conflict Consociational Engagements:

The Northern Ireland Conflict John McGarry, Brendan O'Leary, 2004-03-18 This text explains why Northern Ireland's national divisions have made the achievement of a consociational agreement particularly difficult. The issues raised in the book are central to a proper understanding of Northern Ireland's past and future. **The Northern Ireland Conflict** John McGarry, *The Routledge Handbook of the Northern Ireland Conflict and Peace* Laura McAtackney, Máirtín Ó Catháin, 2023-11-13 The Routledge Handbook of the Northern Ireland Conflict and Peace is the first multi-authored volume to specifically address the many facets of the 30-year Northern Ireland conflict colloquially known as the Troubles and its subsequent peace process. This volume is rooted in opening space to address controversial subjects, answer key questions and move beyond reductive analysis that reproduces a simplistic two-community thesis. The temporal span of individual chapters can reach back to the formation of the state of Northern Ireland with many starting in the late 1960s to include a range of individuals, collectives, organisations, understandings and events at least up to the Good Friday Belfast Agreement in 1998. This volume has forefronted creative approaches in understanding conflict and allows for analysis and reflection on conflict and peace to continue through to the present day. With an extensive introduction, preface and 45 individual chapters, this volume represents an ambitious, expansive interdisciplinary engagement with the North of Ireland through society, conflict and peace from a wide range of disciplinary perspectives, theoretical frameworks and methodological approaches. While allowing for rich historical explorations of high-level politics rooted in state documents and archives, this volume also allows for the intermingling of different sources that highlight the role of personal papers, memory, space, materials and experience in understanding the complexities of both Northern Ireland as a people, place and political entity. **A Treatise on Northern Ireland, Volume III** Brendan O'Leary, 2019-04-04 The third volume of the definitive political history of Northern Ireland. The Good Friday Agreement deserved the attention the world gave it even if it was not always accurately understood. After its ratification in two referendums for the first time in history, political institutions throughout the island of Ireland rested upon the freely given assent of majorities of all the peoples on the island. It marked what was hoped the full political decolonization of Ireland. Whether Ireland would reunify or whether Northern Ireland remain in union with Great Britain now rested on the will of the people of Ireland North and South respectively. A complex mode of power sharing addressed the self-determination dispute. The concluding volume of Brendan O'Leary's *A Treatise on Northern Ireland* explains the making of this settlement and the many failed initiatives that preceded it under British direct rule. Long-term structural and institutional changes and short-term political maneuvers are given their due in this lively but comprehensive assessment. The Anglo-Irish Agreement is identified as the political tipping point itself, partially the outcome of the hunger strikes of 1980-81 that had prevented the criminalization of republicanism. Until 2016, the prudent judgment seemed to be that the Good Friday Agreement had broadly worked, eventually enabling Sinn Féin and the DUP to share power with intermittent attention from

the sovereign governments Cultural Catholics appeared content if not in love with the Union with Great Britain But the decision to hold a referendum on the UK s membership of the European Union has collaterally damaged and destabilized the Good Friday Agreement That in turn has shaped the UK s tortured exit negotiations with the European Union In appraising these recent events and assessing possible futures readers will find O Leary s distinctive angle of vision clear sharp unsentimental and unsparing of reputations in keeping with the mastery of the historical panoramas displayed throughout this treatise

The Routledge Handbook of Ethnic Conflict Karl Cordell, Stefan Wolff, 2016-01-22 A definitive global survey of the interaction of ethnicity nationalism and politics this handbook blends rigorous theoretically grounded analysis with empirically rich illustrations to provide a state of the art overview of the contemporary debates on one of the most pervasive international security challenges today Fully updated for the second edition the book includes a new section which offers detailed analyses of contemporary cases of conflict such as in Ukraine Kosovo the African Great Lakes region and in the Kurdish areas across the Middle East thus providing accessible examples that bridge the gap between theory and practice The contributors offer a 360 degree perspective on ethnic conflict from the theoretical foundations of nationalism and ethnicity to the causes and consequences of ethnic conflict and to the various strategies adopted in response to it Without privileging any specific explanation of why ethnic conflict happens at a particular place and time or why attempts at preventing or settling it might fail or succeed The Routledge Handbook of Ethnic Conflict enables readers to gain a better insight into such defining moments in post Cold War international history as the disintegration of the Soviet Union and Yugoslavia and their respective consequences the genocide in Rwanda and the relative success of conflict settlement efforts in Northern Ireland By contributing to understanding the varied and multiple causes of ethnic conflicts and to learning from the successes and failures of their prevention and settlement the Handbook makes a powerful case that ethnic conflicts are neither unavoidable nor unresolvable but rather that they require careful analysis and thoughtful and measured responses

Identity in Northern Ireland Henry Jarrett, 2017-10-16 Consociational power sharing is often perceived to be the method of conflict management that is most likely to succeed in deeply divided societies The case of Northern Ireland in particular is heralded by many as a consociational success story Since the signing of the Good Friday Belfast Agreement in 1998 significant conflict transformation has taken place in the form of a considerable reduction in levels of violence and the establishment of power sharing between unionists and nationalists This book looks at what consociational power sharing

achieves after its implementation specifically whether it can work to overcome existing identities in divided societies or whether it simply freezes divisions It argues that if consociational power sharing is facilitating a move towards a genuinely shared society this would be demonstrated in the focus of the election campaigns of Northern Ireland's political parties which would be almost exclusively based around socio economic issues affecting the whole population rather than narrow single identity concerns However the book claims that on the whole this has not been realised Although election campaigns are today less strident than they were in the pre 1998 era it remains the case that they usually foreground single identity symbolism as it is this that resonates with voters Whilst consociational power sharing has been very successful in reducing levels of violent conflict and facilitating elite level cooperation between unionists and nationalists it has been much less successful in reducing divisions within wider society to facilitate a genuinely shared Northern Irish identity By establishing an important middle ground between consociational proponents and critics this research will be of significant interest to students and scholars of ethnic politics political sociology conflict management and divided societies more generally

Nationalism and Conflict Management Eric Taylor Woods, Robert Schertzer, Eric Kaufmann, 2013-09-13 Ethno national conflict is one of the central issues of modern politics Despite the emergence of approaches to managing it from nation building to territorial autonomy in recent years the application of these approaches has been uneven Old conflicts persist and new ones continually emerge The authors of this book contend that what is needed to drive forward the theory and practice of ethno national conflict management is a more nuanced understanding of ethnicity and nationalism The book addresses this issue by linking theories of ethnicity and nationalism to theories of conflict management Its contributors share a common goal of demonstrating that a nuanced understanding of ethnicity and nationalism can beneficially inform conflict management in theory and practice To do so they analyse both hot and cold conflict zones as well as cases that have been important in the development of the most widely used conflict management models The book is aimed at those interested in the theory and practice of ethno national conflict management as well as the study of ethnicity and nationalism It is well suited for undergraduate and advanced research students experts and policy makers This book was originally published as a special issue of Commonwealth and Comparative Politics

Ethnic Conflict Neal G. Jesse, Kristen P. Williams, 2010-02-09 As ethnic groups clash the international community faces the challenge of understanding the multiple causes of violence and formulating solutions that will bring about peace Allowing for greater insight Jesse and Williams bridge two sub fields of political science in Ethnic Conflict international relations and comparative politics They systematically apply a levels of analysis framework looking at the individual domestic and international contexts to better explore and understand its complexity Five case study chapters apply the book's framework to disputes around the world and include coverage of Bosnia the Israeli Palestinian conflict Northern Ireland Sri Lanka and Sudan Never losing sight of their analytical framework the authors provide richly detailed case studies that help students understand both the unique and shared causes of each conflict

A Critical Evaluation of "Territorial Separation" as a Method of Addressing Ethnic Conflicts Ako S. Jalal, 2022-07-26 *A Critical Evaluation of Territorial Separation as a Method of Addressing Ethnic Conflicts* focuses on the reasons that have contributed to ethnic conflicts in Kirkuk. In the book, Ako S. Jalal addresses geographic, economic, political, and social factors. He argues in the outcome of the research that the previous applied methods like power sharing and Constitution rewriting could not address ethnic conflicts effectively. Finally, Jalal proves through the research hypothesis that the basic method to address ethnic conflicts in Kirkuk is territorial separation.

Courts and Consociations Christopher McCrudden, Brendan O'Leary, 2013-02-21 *Consociations* are power sharing arrangements increasingly used to manage ethno-nationalist, ethno-linguistic, and ethno-religious conflicts. Current examples include Belgium, Bosnia, Northern Ireland, Burundi, and Iraq. Despite their growing popularity, they have begun to be challenged before human rights courts as being incompatible with human rights norms, particularly equality and non-discrimination. *Courts and Consociations* examines the use of power sharing agreements, their legitimacy, and their compatibility with human rights law. Key questions include: to what extent, if any, consociations conflict with the liberal individualist preferences of international human rights institutions; and to what extent consociational power sharing may be justified to preserve peace and the integrity of political settlements. In three critical cases, the European Court of Human Rights has considered equality challenges to important consociational practices: twice in Belgium and then in *Sejdic and Finci v Bosnia* regarding the constitution established for Bosnia Herzegovina under the Dayton Agreement. The Court's decision in *Sejdic and Finci* has significantly altered the approach it previously took to judicial review of consociational arrangements in Belgium. This book accounts for this change and assesses its implications. The problematic aspects of the current state of law are demonstrated. Future negotiators in places riven by potential or actual bloody ethnic conflicts may now have less flexibility in reaching a workable settlement which may unintentionally contribute to sustaining such conflicts and make it more likely that negotiators will consider excluding regional and international courts from reviewing these political settlements. Providing a clear, accessible introduction to both the political use of power sharing settlements and the human rights law on the issue, this book is an invaluable guide to all academics, students, and professionals engaged with transitional justice, peace agreements, and contemporary human rights law.

Northern Ireland and the European Union Mary C. Murphy, 2016-05-16 This unique study breaks new ground in engaging the study of Northern Ireland politics directly with broader debates about European integration and European governance. The text offers the most comprehensive coverage to date of the institutional development of Northern Ireland following the UK government's devolution programme and Northern Ireland's development as an autonomous policy actor in Europe. This study marshals evidence from Northern Ireland's relationship with the European Union (EU) during the contemporary era of devolved power. The text argues that in Northern Ireland, a series of

national and regional constraints complexities and divisions limit regional autonomy These original insights question the synergy between devolution and the EU and query the existence of new forms of governance This is a contribution of both immense substance and considerable importance and should be essential reading for those with an interest in Northern Ireland and EU politics **Power-Sharing and Political Stability in Deeply Divided Societies** Allison

McCulloch, 2014-06-05 Nearly all the peace accords signed in the last two decades have included power sharing in one form or another The notion of both majority and minority segments co operating for the purposes of political stability has informed both international policy prescriptions for post conflict zones and home grown power sharing pacts across the globe This book examines the effect of power sharing forms of governance in bringing about political stability amid deep divisions It is the first major comparison of two power sharing designs consociationalism and centripetalism and it assesses a number of cases central to the debate including Nigeria Sri Lanka Fiji Bosnia and Herzegovina Burundi and Northern Ireland Drawing on information from a variety of sources such as political party manifestoes and websites media coverage think tank reports and election results the author reaches significant conclusions about power sharing as an invaluable conflict management device This text will be of key interest to students and scholars of ethnic conflict management power sharing ethnic politics democracy and democratization comparative constitutional design comparative politics intervention and peace building

Transformation Sean Byrne, 2010-10-18 This book examines the role of economic aid in the management and resolution of protracted ethnic conflicts focusing on the case study of Northern Ireland The book describes the results of a study of the role of economic aid within Northern Ireland through the viewpoints of citizens collected in an opinion poll as well as

community group leaders whose projects received funding funding agency civil servants and development officers The study explains the importance of economic and social development in promoting cross community contact as well as within single identity communities and the need for a multitrack intervention approach to transform the conflict in Northern Ireland It makes an important contribution to our understanding of how economic assistance impacts on a divided society with a history of protracted violence and provides important perspectives on the peace through development idea One of the key unanswered questions relating to economic aid and preventing future violence is that of the significance of external economic aid in building peace after violence By examining the respondents political imagery this book expands on existing work on economic aid and peace building in other societies coming out of violence Northern Ireland s changing social economic and political context reflects the fact that economic aid and sustainable economic development is a cornerstone of the peacebuilding process The goal of the book is to provide a foundational knowledge base for students and practitioners about the role of economic aid in building the peace dividend in post accord societies The book will be of great interest to students of conflict resolution peacebuilding Irish politics peace and conflict studies and politics and IR in general

Lebanon after the Syrian Withdrawal Ohannes Geukjian, 2016-11-10 Lebanon experienced serious instability and ethno national conflict following the Syrian withdrawal in 2005 compounded by the Arab Spring which led to regional instability and civil war in Iraq and Syria Why did consociational democracy fail Was failure inevitable What impact could external powers play in creating an environment where consociationalism might be successfully implemented This book addresses these key questions and provides a comprehensive analysis of how internal and external elite relations influence the chances of a successful regulation of ethno national conflict through power sharing Exploring the roles played by Syria Qatar Iran Saudi Arabia the United States and France it argues that external actors in the Lebanese conflict largely determined whether power sharing was successfully established and shows that the consociational democratic model cannot provide long term conflict regulation in their absence The author argues that relationships between internal and external actors determine the prospects for successful conflict regulation and pinpoints the crucial role of the external forces in the creation of power sharing agreements in Lebanon concluding that future success is dependent on the maintenance of positive exogenous pressures This book will be of key interest to students and scholars studying politics international relations and Middle East studies
