Catalogue of European Books, 1918-1919 [unclear]. [unclear], 1920 Tourism, Pilgrimage and Intercultural Dialogue
Dolors Vidal-Casellas, Silvia Aulet, Neus Crous-Costa, 2019-06-21 Religious heritage and sacred sites offer an opportunity for visitors to explore a community's cultural knowledge. However, it is important to consider the role of interpretation, meaning, experience, and narrative. This book is a timely reassessment of the increasing interconnections between the management of diversity and religious tourism and secular spaces on a global stage. It explores key learning points from a range of contemporary case studies on religious and pilgrimage activity; these relate to ancient sacred and emerging tourist destinations and new forms of pilgrimage, faith systems, and quasi-religious activities. By providing a conceptual framework, the book demonstrates the symbolism of sacred spaces within religious traditions and the relationships developed between them. It offers explanations on how to manage and communicate religious diversity and provides a solid overview of Religious tourism as a tool for intercultural dialogue. Interpretation of religious heritage for tourism. Cross-cultural contacts. This book will provide a valuable resource for those researching and practising tourism management, pilgrimage, and religious tourism.

Compiled by Hugh Robert Mill* Hugh Robert Mill, 1895 *The Sphinx on the Table* Janine Burke, 2009-05-26
Sigmund Freud's collection of Egyptian, Greek, and Roman antiquities is one of the art world's best-kept secrets. Over a forty-year period, he amassed an extraordinary array of nearly three thousand statues, vases, reliefs, busts, rings, and prints. For Freud, psychoanalysis and his art collection developed together in a symbiotic, nourishing relationship, each informing and enriching the other. Freud used myth to illustrate controversial theories like the Oedipus complex, situating ancient symbolism in a modern context. He explored the archaeology of the mind, unearthing his patients' dreams and memories while creating a personal museum of ancient treasure. Freud compared the process to analysis, where he cleared away material layer by layer to the technique of excavating a buried city. To create a portrait of Freud, the art collector Janine Burke builds a vibrant, richly detailed, and intimate image of his life and times, tracing Freud's taste for beautiful things back to his earliest years. *The Sphinx on the Table* is set against the glittering, decadent backdrop of fin de siècle Vienna, where an artistic flowering took place in painting, theater, writing, and architecture.
