Northrop Frye A. C. Hamilton, 1991 *Modern Criticism and Theory* Nigel Wood, David Lodge, 2014-06-11 This third edition of *Modern Criticism and Theory* represents a major expansion on its previous incarnations with some twenty five new pieces or essays included This expansion has two principal purposes Firstly in keeping with the collection's aim to reflect contemporary preoccupations the reader has expanded forward to include such newly emergent considerations as ecocriticism and post theory Secondly with the aim of presenting as broad an account of modern theory as possible the reader expands backwards to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx Freud and Virginia Woolf This radical expansion of content is prefaced by a wide ranging introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories *Modern Criticism and Theory* has long been regarded as a necessary collection Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today

The Reception of Northrop Frye, 2021-08-31 The widespread opinion is that Northrop Frye's influence reached its zenith in the 1960s and 1970s after which point he became obsolete his work buried in obscurity This almost universal opinion is summed up in Terry Eagleton's 1983 rhetorical question Who now reads Frye In *The Reception of Northrop Frye* Robert D Denham catalogues what has been written about Frye books articles translations dissertations and theses and reviews in order to demonstrate that the attention Frye's work has received from the beginning has progressed at a geomantic rate Denham also explores what we can discover once we have a fairly complete record of Frye's reception in front of us such as Hayden White's theory of emplotments applied to historical writing and Byron Almén's theory of musical narrative The sheer quantity of what has been written about Frye reveals that the only valid response to Eagleton's rhetorical question is a very large and growing number the growth being not incremental but exponential **Northrop Frye in modern criticism: selected papers from the English Institute**, ed Murray Krieger, **American Literary Criticism Since the 1930s** Vincent B. Leitch, 2009-09-10 *American Literary Criticism Since the 1930s* fully updates Vincent B Leitch's classic

book American Literary Criticism from the 30s to the 80s following the development of the American academy right up to the present day Updated throughout and with a brand new chapter this second edition provides a critical history of American literary theory and practice discussing the impact of major schools and movements examines the social and cultural background to literary research considering the role of key theories and practices provides profiles of major figures and influential texts outlining the connections among theorists presents a new chapter on developments since the 1980s including discussions of feminist queer postcolonial and ethnic criticism Comprehensive and engaging this book offers a crucial overview of the development of literary studies in American universities and a springboard to further research for all those interested in the development and study of Literature

After the New Criticism Frank Lentricchia, 2018-12-14 This work is the first history and evaluation of contemporary American critical theory within its European philosophical contexts In the first part Frank Lentricchia analyzes the impact on our critical thought of Frye Stevens Kermode Sartre Poulet Heidegger Saussure Barthes Lévi Strauss Derrida and Foucault among other less central figures In a second part Lentricchia turns to four exemplary theorists on the American scene Murray Krieger E D Hirsch Jr Paul de Man and Harold Bloom and an analysis of their careers within the lineage established in part one Lentricchia's critical intention is in evidence in his sustained attack on the more or less hidden formalist premises inherited from the New Critical fathers Even in the name of historical consciousness he contends contemporary theorists have often cut literature off from social and temporal processes By so doing he believes that they have deprived literature of its relevant values and turned the teaching of both literature and theory into a rarefied activity All along the way with the help of such diverse thinkers as Saussure Barthes Foucault Derrida and Bloom Lentricchia indicates a strategy by which future critical theorists may resist the mandarin attitudes of their fathers
