Frontier Boosters Elaine Naylor, 2014-04-01 Frontier Boosters is a compelling social history of urbanization and economic development in the nineteenth century American West Focusing on Port Townsend Washington and the surrounding Puget Sound region Elaine Naylor examines economic development boosterism and the dynamics of class and race in frontier settlement In the late nineteenth century Seattle had not yet fully emerged as the premier city of the Pacific Northwest and the residents of Port Townsend had every reason to imagine their town located at the entrance to Puget Sound the waterway for the timber resources that drove Washington's frontier economy as the region's burgeoning metropolis Naylor argues that the promotion of local economic development defined as boosterism and commonly linked with land speculators investors and businessmen was in fact embraced by ordinary frontier citizens As such a booster mentality became integrated into Port Townsend's social dynamics shaping the town's class and race relations specifically between its Euro American Native American and Chinese communities Frontier Boosters illuminates the importance of economic development to ordinary settlers and highlights the complex interrelationship between the social dynamics of class and race within the context of the American frontier *Ants, Galileo, and Gandhi* Sissel Waage, Ray Anderson, 2017-09-08 Although sustainability efforts in business are still a work in progress it is increasingly clear that key elements of a new generation of enterprises will be radically different from those of our contemporary modern industrial economy The core distinctions between what currently exists and what is being created are communicated in this book through the compelling metaphor of Ants Galileo and Gandhi This collection developed from The Natural Step's conference on Sustainability and Innovation in 2002 provides radical ideas

for generating a new perspective on the dynamics of business systems Ants symbolise the lessons to be learned from nature and the dependence of individual beings on broader complex systems Galileo embodies brilliance in perceiving and proving that the current paradigm is flawed Gandhi exemplifies exceptional compassion in fighting for fundamental change All of these attributes are increasingly relevant in a world where globally we are experiencing both a steady decline in life supporting resources and rising demands Recognition of these challenges is sparking innovation within the private sector where the first glimmers of systemic change can be seen The book examines the emergence of 21st century enterprises that recognise their reliance on broad social and ecological systems ants incorporate sparks of genius rooted in rigorous analyses Galileo and acknowledge the importance of compassion and determination within any endeavour Gandhi With contributions from Ray Anderson Gretchen Daily Karl Henrik Rob **Precarious Prescriptions** Laurie B.
