**Negotiating Civil War** Henry Lovat, 2020-07-16 Civil war has been a fact of political life throughout recorded history However unlike inter state wars international law has not traditionally regulated such conflicts How then can we explain the post 1945 emergence and evolution of international treaty rules regulating the conduct of internal armed conflict the Civil War Regime Negotiating Civil War combines insights derived from Realist Rationalist Liberal and Constructivist approaches to International Relations to answer this question revisiting the negotiation of the 1949 Geneva Conventions the 1977 Additional Protocols and the 1998 Rome Statute of the International Criminal Court This study provides a rigorous critical account of the making of the Civil War Regime Sophisticated and persuasive it illustrates the complex interplay of material ideational social and strategic factors in shaping these rules with important lessons for the making and unmaking of international law in a rapidly shifting international political economic and security environment

**Defence Diplomacy and National Security Strategy** Ian Liebenberg, Dirk Kruijt, Shrikant Paranjpe, 2020-04-20 The post cold war era presented security challenges that at one level are a continuation of the cold war era at another level these phenomena manifested in new forms Whether the issues of economics and trade transfer of technologies challenges of intervention or humanitarian crisis the countries of the South previously pejoratively labelled Third World or developing countries have continued to address these challenges within the framework of their capabilities

and concerns The volume explores defence diplomacies national security challenges and strategies dynamics of diplomatic manoeuvres and strategic resource management of Latin American southern African and Asian countries

**Decolonization, Self-Determination, and the Rise of Global Human Rights Politics** A. Dirk Moses, Marco Duranti, Roland Burke, 2020-07-16 Leading scholars demonstrate how colonial subjects national liberation movements and empires mobilized human rights language to contest self determination during decolonization Between East and South Anna Calori, Anne-Kristin Hartmetz, Bence Kocsev, James Mark, Jan Zofka, 2019-10-21 During the Cold War alternative globalization projects were underway socialist Eastern Europe and left leaning countries in the Third World maintained close economic relations The two worlds traded and exchanged know how and technology This book examines the specific spaces of interaction of these exchanges and discusses the consequences for those projects of globalization undertaken in both world regions The Namibian War of Independence, 1966-1989 Richard Dale, 2014-10-21 The decolonization of Namibia was delayed from 1966 to 1989 the period of the war of independence pitting the Namibian nationalists against the South African minority ruled regime This book describes the diplomatic economic and military campaigns of the Namibian and South African belligerents and draws a comparison with several other decolonization wars Using data from parliamentary debates the aftermath is examined of the Namibian war and the newly independent nation The book provides a basis for further investigation of the decolonization process

**Re-Viewing Resistance in Namibian History** Silvester, Jeremy, 2015-07-13 Re Viewing Resistance in Namibian History brings together the work of experienced academics and a new wave of young Namibian historians architects of the past who are working on a range of public history and heritage projects from late nineteenth century resistance to the use of songs from the role of gender in SWAPO s camps to memorialisation and from international solidarity to aspects of the history of Kavango and Caprivi In a culturally and politically diverse democracy such as Namibia there are bound to be different perspectives on the past and history will be as plural as the history tellers The chapters in this book reflect this diversity and combine to create a remarkable collection of divergent voices providing alternative perspectives on the past Re Viewing Resistance in Namibian History writes forgotten people into history provides a reading of the past that reflects the tensions and competing identities that pervaded the struggle and deals with heritage that hurts

**The Oxford Handbook of the Ends of Empire** Martin Thomas, Andrew Thompson, 2018-12-06 The Oxford Handbook of the Ends of Empire offers the most comprehensive treatment of the causes course and consequences of the ends of empire in the twentieth century The volume s contributors convey the global reach of decolonization with chapters analysing the empires of Western Europe Eastern Europe China and Japan The Handbook combines broad regional treatments of decolonization with chapter contributions constructed around particular themes or social issues It considers how the history of decolonization is being rethought as a result of the rise of the new imperial history and its emphasis on race gender and culture as well as the more recent growth of interest in histories of globalization transnational history and

histories of migration and diaspora humanitarianism and development and human rights The Handbook in other words seeks to identify the processes and commonalities of experience that make decolonization a unique historical phenomenon with a lasting resonance In light of decades of historical and social scientific scholarship on modernization dependency neo colonialism failed state architectures and post colonial conflict the obvious question that begs itself is when did empires actually end In seeking to unravel this most basic dilemma the Handbook explores the relationship between the study of decolonization and the study of globalization It connects histories of the late colonial and post colonial worlds and considers the legacies of empire in European and formerly colonised societies *Science, Geopolitics and Culture in the Polar Region* Sverker Sörlin,2016-04-01 Throughout the twentieth century glaciologists and geophysicists from Denmark Norway and Sweden made important scientific contributions across the Arctic and Antarctic This research was of acute security and policy interest during the Cold War as knowledge of the polar regions assumed military importance But scientists also helped make the polar regions Nordic spaces in a cultural and political sense with scientists from Norden punching far above their weight in terms of population geographical size or economic activity This volume presents an image of Norden that stretches far beyond its conventional limits covering a vast area in the North Atlantic and the Arctic Sea as well as parts of Antarctica Rich in resources scarce in population but critically important in global and regional geopolitics these spaces were contested by major powers such as Russia the United States Canada and in the Antarctic Argentina Australia South Africa and others The empirical focus on Danish Norwegian and Swedish influence in the polar regions during the twentieth century embraces a diverse array of themes from the role of science in policy and diplomacy to the tensions between nationalism and internationalism with clear relevance to the important role science plays in contemporary discussions about Nordic engagement with the polar regions *Gordian Knot* Ryan M. Irwin,2012-09-07 Writing more than one hundred years ago African American scholar W E B Du Bois speculated that the great dilemma of the twentieth century would be the problem of the color line Nowhere was the dilemma of racial discrimination more entrenched and more complex than South Africa *Gordian Knot* examines South Africa s freedom struggle in the years surrounding African decolonization using the global apartheid debate to explore the way new nation states changed the international community during the mid twentieth century At the highpoint of decolonization South Africa s problems shaped a transnational conversation about nationhood Arguments about racial justice which crested as Europe relinquished imperial control of Africa and the Caribbean elided a deeper contest over the meaning of sovereignty territoriality and development Based on research in African American and European archives *Gordian Knot* advances a bold new interpretation about African decolonization s relationship to American power In so doing it promises to shed light on U S foreign relations with the Third World and recast understandings of the fate of liberal internationalism after World War II *Globalization of an Educational Idea* Ingrid Miethe,Tim Kaiser,Tobias Kriele,Alexandra Piepiorka,2019-07-22 In this book authors showcase the worldwide spread of Workers Faculties as an

example of both cooperation between socialist countries in education and globalization processes in the field of education Based on extensive research carried out in Cuban German Mozambican and Vietnamese archives as well as expert interviews it combines detailed case studies of educational transfers and policy implementation with a discussion of theoretical approaches to the study of globalization in and of education Research on Workers Faculties provides an especially interesting example for the study of educational transfer between socialist countries as well as for the interplay of such transfers with processes of globalisation for two reasons On one hand the first Workers Faculties were established already shortly after the October Revolution in Russia and Workers Faculties continue to exist in Cuba until today A study of these institutions therefore provides a dynamic perspective covering the whole period of the existence of the socialist camp On the other hand the spread of the Workers Faculty idea to four continents allows for an analysis that takes into account widely differing local contexts This book offers an analysis of general trends and particularities in the history of the global spread of the Workers Faculty idea and its implementation in local contexts Finally it discusses the results with a view towards theories of globalization in the field of education as well as of specificities of processes of socialist globalization

West Germany and Namibia's Path to Independence, 1969-1990 Thorsten Kern, 2019-06-05 Namibia's main liberation movement the South West Africa People's Organisation SWAPO relied heavily on outside support for its armed struggle against South Africa's occupation of what it called South West Africa While East Germany's solidarity with Namibia's struggle for national self-determination has received attention little research has been done on West Germany's policy towards Namibia which must be seen in the light of inter-German rivalry The impact of the wider realities of the Cold War on Namibia's rocky path to independence leaves ample room for research and new interpretations In this study Thorsten Kern shows that German division played a vital role in West Germany's position towards Namibia during the Cold War The two states deeply diverging policies characterised in this context by competition for influence over SWAPO were strongly affected by the Cold War rivalry between the capitalist West and the communist East Yet ultimately the dynamics of rapprochement helped to bring about Namibia's independence This book is based upon a doctoral dissertation presented to the University of Cape Town in 2016 Kern conducted research in the National Archives of Namibia and in German archives and his work draws on interviews with contemporary witnesses

In from the Cold Gilbert M. Joseph, Daniela Spenser, 2008-01-11 Reexamines the Cold War in Latin America by shifting the focus away from superpower decision making and exploring the many ways in which Latin American leaders and ordinary people used manipulated shaped and were victimized by the Cold War

**The Internationalisation of the Labour Question** Stefano Bellucci, Holger Weiss, 2019-11-26 This edited collection is a global history of workers organisations since 1919 the year when the International Labour Organisation ILO the Comintern and the International Federation of Trade Unions were formed This historical moment represents a caesura in labour history as it epitomises the beginning of what the editors and the contributors in this book call the internationalisation of the labour

question The case studies in this centenary volume analyse the relationship between global workers organisations and the new ideological confrontation between liberal capitalism socialism and communism since the Bolshevik Revolution in Russia Workers organisations trade unions in particular grew in importance and managed to organise internationally forming alliances cemented by ideology and sustained by international institutional bodies or centrals In the nascent capitalist versus communist struggle trade unions thrived Is it mere coincidence that today s decline of unionism coincides with the end of ideological antagonism This book emphasises important global labour issues such as gender as well as international workers histories from Latin America Asia and Africa

**Science, Geopolitics and Culture in the Polar Region** Professor Sverker Sörlin, 2013-10-28 Throughout the twentieth century glaciologists and geophysicists from Denmark Norway and Sweden made important scientific contributions across the Arctic and Antarctic This research was of acute security and policy interest during the Cold War as knowledge of the polar regions assumed military importance But scientists also helped make the polar regions Nordic spaces in a cultural and political sense with scientists from Norden punching far above their weight in terms of population geographical size or economic activity This volume presents an image of Norden that stretches far beyond its conventional limits covering a vast area in the North Atlantic and the Arctic Sea as well as parts of Antarctica Rich in resources scarce in population but critically important in global and regional geopolitics these spaces were contested by major powers such as Russia the United States Canada and in the Antarctic Argentina Australia South Africa and others The empirical focus on Danish Norwegian and Swedish influence in the polar regions during the twentieth century embraces a diverse array of themes from the role of science in policy and diplomacy to the tensions between nationalism and internationalism with clear relevance to the important role science plays in contemporary discussions about Nordic engagement with the polar regions

**Foreign Aid and Landmine Clearance** Matthew Breay Bolton, 2010-01-30 In the decade since the signing of the Ottawa Treaty which banned the production and use of anti personnel mines governments have spent over 3 billion on clearing up and mitigating the security threat of mines cluster munitions and other unexploded ordnance in the world s current and former war zones However this flow of cash into regions dominated by violent social structures raises numerous political issues Through detailed archival and field research this book explores the politics behind the allocation and implementation of foreign aid by the US and Norway for demining in Afghanistan Bosnia and Sudan It is an essential resource for practitioners and policymakers working in the field of landmine clearance and for students and researchers of Development Studies and post war reconstruction
