**Scandinavian Song** Anna Hersey,2016-08-11 Scandinavian art songs are a unique expression of the cultures of Sweden Norway and Denmark Although these three countries are distinct from one another their languages and cultures share many similarities Common themes found in art and literature include a love of nature especially of the sea feelings of longing and melancholy the contrast between light and dark the extremes of the northern climate and lively folk traditions These shared sensibilities are reflected and expressed in a tangible way through music Scandinavian art song has faced several challenges over the years in North America even in the American Midwest where descendants of Scandinavian immigrants are concentrated But matters have changed recently with the recent expansion of diction curricula to cover languages other than

English French German and Italian The primary obstacle remains practical resources for the study of art songs and lyric diction of Sweden Norway and Denmark This guide remedies this problem Scandinavian Song is a practical guide to the art songs of Sweden Norway and Denmark Unlike other sources that give at best a cursory overview of lyric diction in the Scandinavian languages this guide provides practical information enabling teachers and students to render transcriptions of Swedish Norwegian and Danish texts into the International Phonetic Alphabet IPA an absolute necessity for any study of repertoire An extensive survey of available music sample IPA transcriptions and translations as well as a website link with native speakers reciting selected song texts make this book an invaluable resource for students and professors in North American college university and conservatory voice programs
