The Bayeux Tapestry Gale R. Owen-Crocker,2023-05-31 This collection of fifteen papers ranges from the author s initial interest in the Tapestry as a source of information on early medieval dress through to her startling

recognition of the embroidery's sophisticated narrative structure. Developing the work of previous authors who had identified graphic models for some of the images, she argues that not just the images themselves but the contexts from which they were drawn should be taken into account in reading the messages of the Tapestry. In further investigating the minds and hands behind this, the largest non-architectural artefact surviving from the Middle Ages, she ranges over the seams, the embroidery stitches, the language and artistry of the inscription, the potential significance of borders and the gestures of the figures in the main register, always scrutinising detail informatively. She identifies an overriding conception and house style in the Tapestry but also sees different hands at work in both needlecraft and graphics. Most intriguingly, she recognises a sub-contractor with a Roman source and a clownish wit. The author is Professor of Anglo-Saxon Culture at The University of Manchester, UK, a specialist in Old English poetry, Anglo-Saxon material culture and medieval dress and textiles.
