Gendered Scenarios of Revolution Rosario Montoya, 2012-12-06 In 1979 toward the end of the Cold War era Nicaragua's Sandinista movement emerged on the world stage claiming to represent a new form of socialism Gendered Scenarios of Revolution is a historical ethnography of Sandinista state formation from the perspective of El Tule a peasant village that was itself thrust onto a national and international stage as a model Sandinista community This book follows the villagers story as they joined the Sandinista movement performed revolution before a world audience and grappled with the lessons of this experience in the neoliberal aftermath Employing an approach that combines political economy and cultural analysis Montoya argues that the Sandinistas collapsed gender contradictions into class ones and that as the Contra War exacerbated political and economic crises in the country the Sandinistas increasingly ruled by mandate as vanguard party instead of creating the participatory democracy that they professed to work toward In El Tule this meant that even though the Sandinistas created new roles and possibilities for women and men over time they upheld pre revolutionary patriarchal social structures Yet in showing how the revolution created opportunities for Tule os to assert their agency and advance their interests even against the Sandinistas own interests this book offers a reinterpretation of the revolution's supposed failure Examining this community's experience in the Sandinista and post Sandinista periods offers perspective on both processes of revolutionary transformation and their legacies in the neoliberal era Gendered Scenarios of Revolution will engage graduate and undergraduate students and scholars in anthropology sociology history and women's and gender studies and appeal to anyone interested in modern revolution and its aftermath

Mexicans in Alaska Sara V. Komarnisky, 2018-07-01 *Mexicans in Alaska* analyzes the mobility and experience of place of three generations of migrants who have been moving between Acuitzio del Canje Michoacán Mexico and Anchorage Alaska since the 1950s Based on Sara V Komarnisky's twelve months of ethnographic research at both sites and on more than ten years of engagement with the people in these locations this book reveals that over time Acuitzences have created a comprehensive sense of orientation within a transnational social field Both locations and the common experience of mobility between them are essential for feeling at home This migrant way of life requires the development of a transnational habitus as well as the skills statuses and

knowledge required to live in both places Komarnisky's work presents a multigenerational and cross continental understanding of the contemporary transnational experience Mexicans in Alaska examines how Acuitzences are living working and imagining their futures across North America and suggests that anthropologists look across borders to see how broader structural conditions operate both within and across national boundaries Understanding the experiences of transnational migrants remains a critical goal of contemporary scholarship and Komarnisky's analysis of the complicated lives of three generations of migrants provides depth to the field
