**Not for Rent** Stacy Wakefield-Forte, Grrrt, *Not for Rent* Stacy Wakefield, Stacy Wakefield-Forte, Grrrt, 2003  
Resistance is more important than ever Living in a country with a president we did not elect who is waging a war without popular support vast numbers of Americans are feeling disempowered alienated from our government leaders and frightened What can we do The British activists from the 1990s documented in *Not For Rent* have some ideas to share with us In 1995 the British Parliament passed a draconian new law which curtailed civil liberties to a shocking extent The Criminal Justice Act essentially turned squatting underground parties and raves a nomadic lifestyle and protesting into criminal acts Travelling through England and Scotland the summer after this law went into effect Stacy and Grrrt discovered that not only were squatting protesting and parties still happening the law had politicized an entire generation More and more young people felt compelled to resist both to show their disregard for a government which did not represent them and to create exciting creative alternatives to the mainstream culture The activist underground was thriving The way Bush's government has used the events of September 11th to pick away at our civil liberties is reminiscent of this time The numbers of frustrated people who have taken to the streets to protest his war show how widespread the disillusionment with his government is But *Not for Rent* is not a book about unjust laws It is a vibrant celebration of creative resistance political alternatives and social engagement It is about what is possible when smart socially conscious people get together and create communities on their own terms Use it for inspiration *Alternative and Activist Media* Mitzi Waltz, 2005-10-11 This study of alternative and activist media provides an introduction to alternative media theories audiences and practices It brings diverse voices and concepts from outside the commercial media world to the fore enriching and challenging mass media Illustrated with historical and current examples from both a UK and international perspective it also includes carefully constructed exercises and discussion topics based on case studies and available texts Topics include the place of alternative media in a mass media world a history of alternative and activist media media participation and consumption by marginalised audiences the use of pirate and community radio video and television by community and minority groups fanzines and other small publishing ventures by individuals the use of alternative media for explorations in design the blurring of boundaries between alternative and mass media and new technology and its possibilities for alternative media *DiY Culture* George McKay, 1998-07-17 Editor George McKay claims that popular protest today is characterized by a culture of immediacy and direct action Gathered here is a collection of in depth and reflective pieces by activists and other key figures in Britain's DiY culture From the environmentalist to the video activist the raver to the road protester the neo pagan to the anarcho capitalist Britain's youth forge a new kind of politics 16 photos **Moral Rhetoric and the Criminalisation of Squatting** Lorna Fox O'Mahony, David O'Mahony, Robin Hickey, 2014-10-24 This collection of critical essays considers the criminalisation of squatting from a range of different theoretical policy and practice perspectives While the practice of squatting has long been

criminalised in some jurisdictions the last few years have witnessed the emergence of a newly constituted political concern with unlawful occupation of land With initiatives to address the threat of squatting sweeping across Europe the offence of squatting in a residential building was created in England in 2012 This development which has attracted a large measure of media attention has been widely regarded as a controversial policy departure with many commentators Parliamentarians and professional organisations arguing that its support is premised on misunderstandings of the current law and a precarious evidence base concerning the nature and prevalence of squatting

**Moral Rhetoric and the Criminalisation of Squatting** explores the significance of measures to criminalise squatting for squatters owners and communities The book also interrogates wider themes that draw on political philosophy social policy criminal justice and the nature of ownership to consider how the assimilation of squatting to a contemporary punitive turn is shaping the political social legal and moral landscapes of property housing and crime

**Alternative Media** Chris Atton, 2002 Drawing examples from the UK and the US this volume offers an introduction to alternative media It includes radical media as well as newer cultural forms such as zines fanzines and personal Web sites

**Non-Plan: Essays on Freedom, Participation and Change in Modern Architecture and Urbanism** Jonathan Hughes, Simon Sadler, 2013-01-11 Non Plan explores ways of involving people in the design of their environments a goal which transgresses political categories of right and left Attempts to circumvent planning bureaucracy and architectural inertia have ranged from free market enterprise zones to self build housing and from squatting to sophisticated technologies of prefabrication Yet all have shared in a desire to let people shape the built environment they want to live and work in How can buildings better reflect the needs of their inhabitants How can cities better facilitate the work and recreation of their many populations Modernism had promised a functionalist approach to resolving the architectural needs of the twentieth century yet the design of cities and buildings often appears to confound the needs of those who use them their design and layout being highly regulated by restrictive legislation planning controls and bureaucracy Non Plan considers the theoretical and conceptual frameworks within which architecture and urbanism have sought to challenge entrenched boundaries of control focusing on the architectural history of the post war period to the present day This provocative book will be of interest to architects planners and students of architecture design town planning and architectural history Its contributors include architects critics and historians including many whose work helped shape the Non Plan debate during the period
