A Field Philosopher's Guide to Fracking: How One Texas Town Stood Up to Big Oil and Gas Adam Briggie, 2015-10-19 Winner of the Writers League of Texas Book Awards Finalist for the J. Anthony Lukas Book Prize From the front lines of the fracking debate a field philosopher explores one of our most divisive technologies When philosophy professor Adam Briggie moved to Denton Texas he had never heard of fracking Only five years later he would successfully lead a citizens initiative to ban hydraulic fracturing in Denton the first Texas town to challenge the oil and gas industry On his journey to learn about fracking and its effects he leaped from the ivory tower into the fray In beautifully narrated

chapters Briggie brings us to town hall debates and neighborhood meetings where citizens wrestle with issues few fully understand Is fracking safe How does it affect the local economy Why are bakeries prohibited in neighborhoods while gas wells are permitted next to playgrounds In his quest for answers Briggie meets people like Cathy McMullen Her neighbors cows asphyxiated after drinking fracking fluids and her orchard was razed to make way for a pipeline Cathy did not consent to drilling but those who profited lived far out of harm s way Briggie s first instinct was to think about fracking deeply Drawing on philosophers from Socrates to Kant but also on conversations with engineers legislators and industry representatives he develops a simple theory to evaluate fracking we should give those at risk to harm a stake in the decisions we make and we should monitor for and correct any problems that arise Finding this regulatory process short circuited with government and industry alike turning a blind eye to symptoms like earthquakes and nosebleeds Briggie decides to take action Though our field philosopher is initially out of his element joining fierce activists like Texas Sharon once called the worst enemy of the oil and gas industry his story culminates in an underdog victory for Denton now nationally recognized as a beacon for citizens rights at the epicenter of the fracking revolution The Hoarding Handbook Christiana Bratiotis,Cristina Sorrentino Schmalisch,Gail Steketee,2011-06-22 Hoarding is a serious time consuming and expensive problem for virtually every community across the United States First responders often encounter hoarding unexpectedly and are confused about how to resolve the wide range of problems from public health and fire safety violations to housing violations to concern for the welfare of children elders and animals Sometimes solutions must be coordinated across several human service disciplines The first of its kind this handy guide is a nuts and bolts resource filled with case studies tips and strategies and easy to use suggestions for professionals responding to hoarding situations Organized around the common ways hoarding captures the attention of social service providers this user friendly guide provides tools to assess the problem to coordinate and delegate tasks among helping professionals and to work directly with reluctant hoarders and those affected by the hoarding Chapters give hands on guidance and decision trees for who should be involved and what strategies are needed for each case This book is compassionate and comprehensive an invaluable reference for social workers and human service providers in a broad range of fields Joy in Your Garden: A Seasonal Guide to Gardening Joy Bossi,Karen Bastow,2023-02-02 With easy to learn tips and advice from experts Joy Bossi and Karen Bastow Joy in Your Garden A Seasonal Guide to Gardening will have you gardening in no time Novice gardeners or natural green thumbs will enjoy the success of gardening in any season of the year The expertise and wisdom provided in this book will help you master the art of gardening from using the correct tools for your garden to choosing a ripe watermelon With beautiful photographs and helpful sketches this book is sure to please the gardener in your family **The Handbook of Landfill Operations** Neal Bolton,1995 Resource added for the Environmental Engineering Waste and Water Technology program 105062
