Not Just About Food An Autobiographical Cookbook:

The Richard & Judy Book Club Reader Helen Cousins, 2016-03-03 In January 2004 daytime television presenters Richard Madeley and Judy Finnigan launched their book club and sparked debate about the way people in Britain from the general reader to publishers to the literati thought about books and reading The Richard Judy Book Club Reader brings together historians of the book literature scholars and specialists in media and cultural studies to examine the effect of the club on reading practices and the publishing and promotion of books Beginning with an analysis of the book club's history and its ongoing development in relation to other reading groups worldwide including Oprah's the editors consider issues of book marketing and genre Further chapters explore the effects of the mass broadcast celebrity book club on society literature and its marketing and popular culture Contributors ask how readers discuss books judge value and make choices The collection addresses questions of authorship authority and canon in texts connected by theme or genre including the postcolonial exotic disability and representations of the body food books and domesticity In addition book club author Andrew Smith shares his experiences in a fascinating interview

Chop Suey, USA Yong Chen, 2014-10-28 American diners began flocking to Chinese restaurants more than a century ago making Chinese cuisine the first mass consumed food in the United States By 1980 it had become the country's most popular ethnic cuisine Chop Suey USA is the first comprehensive analysis of the forces that made Chinese food ubiquitous in the American gastronomic landscape and turned the country into an empire of consumption Chinese food's transpacific migration and commercial success is both an epic story of global cultural exchange and a history of the socioeconomic political and cultural developments that shaped the American appetite for fast food and cheap labor in the nineteenth and twentieth centuries Americans fell in love with Chinese food not because of its gastronomic excellence They chose quick and simple dishes like chop suey over China's haute cuisine and the affordability of such Chinese food democratized the once exclusive dining out experience for underprivileged groups such as marginalized Anglos African Americans and Jews The mass production of food in Chinese restaurants also extended the role of Chinese Americans as a virtual service labor force and marked the racialized division of the American population into laborers and consumers The rise of Chinese food was also a result of the ingenuity of Chinese American restaurant workers who developed the concept of the open kitchen and popularized the practice of home delivery They effectively streamlined certain Chinese dishes turning them into nationally recognized brand names including chop suey the Big Mac of the pre McDonald's era Those who engineered the epic tale of Chinese food were a politically disfranchised numerically small and economically exploited group embodying a classic American story of immigrant entrepreneurship and perseverance

the body food books and domesticity In addition book club author Andrew Smith shares his experiences in a fascinating interview Transculturating Auto/Biography Rosalia Baena,2013-10-18 Rosalia Baena s theoretically challenging analytical volume of essays explores the diversity of shapes that transcultural life writing takes demonstrating how it has become one of the most dynamic and productive literary forms of self inscription and self representation Expanding much of the contemporary criticism on life writing which tends to centre on content the essays highlight that reading contemporary forms of life writing from a literary perspective is a rich field of critical intervention that has been overlooked because of recent cultural studies concerns with material issues To read life writing as primarily cultural texts undercuts much of its value as a complex dynamic of cultural production where aesthetic concerns and the choice and manipulation of form serve as signifying aspects to experiences and subjectivities This book was previously published as a special issue of *Prose Studies*

Cornbread Nation 7 Francis Lam,John T. Edge,2014-05-15 How does Southern food look from the outside The form is caught in constantly dueling stereotypes It s so often imagined as either the touchingly down home feast or the heartstopping health scourge of a nation But as any Southern transplant will tell you once they ve spent time in the region Southerners share their lives in food with a complex mix of stories of belonging and not belonging and of traditions that form identities of many kinds *Cornbread Nation 7* edited by Francis Lam brings together the best Southern food writing from recent years including well known food writers such as Sara Roahen and Brett Anderson a couple of classic writers such as Langston Hughes and some newcomers The collection divided into five sections Come In and Stay Awhile Provisions and Providers Five Ways of Looking at Southern Food The South Stepping Out and Southerners Going Home tells the stories both of Southerners as they move through the world and of those who ended up in the South It explores from where and from whom food comes and it looks at what food means to culture and how it relates to home *Centenarians' Autobiographies* Mita Banerjee,2023-12-18 Situated at the intersection between medical humanities aging studies autobiographical studies disability studies and ethic studies this book explores the fascination of centenarians autobiographies for humanites research It can be argued that the growing presence of centenarians autobiographies on book markets across the globe may be rooted in the public s desire for positive images of aging in contrast to the image of inevitable decay Recipes for Respect Rafia Zafar,2019-03-15 Food studies once trendy has settled into the public arena In the academy scholarship on food and literary culture constitutes a growing river within literary and cultural studies but writing on African American food and dining remains a tributary *Recipes for Respect* bridges this gap illuminating the role of foodways in African American culture as well as the contributions of Black cooks and chefs to what has been considered the mainstream Beginning in the early nineteenth century and continuing nearly to the present day African Americans have often been stereotyped as illiterate kitchen geniuses Rafia Zafar addresses this error highlighting the long history of accomplished African Americans within our culinary traditions as well as the literary and entrepreneurial strategies for civil rights and respectability woven into the written

records of dining cooking and serving Whether revealed in cookbooks or fiction memoirs or hotel keeping manuals agricultural extension bulletins or library collections foodways knowledge sustained Black strategies for self reliance and dignity the preservation of historical memory and civil rights and social mobility If to follow Mary Douglas s dictum food is a field of action that is a venue for social intimacy exchange or aggression African American writing about foodways constitutes an underappreciated critique of the racialized social and intellectual spaces of the United States
