AIDS Narratives Steven F. Kruger, 2013-10-28 This is the first book length study of the rich fiction that has emerged from the AIDS crisis Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality such as the construction of AIDS as a disease of gay men part of a battle over masculinity and thus largely excluding women with AIDS from public attention the book considers how such discourses have shaped narrative understandings of AIDS On the one hand AIDS is seen as an invariably fatal weakening of an individual's bodily defenses a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness On the other hand AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness The fiction of AIDS depends upon these two narratives with one major subgenre of AIDS novel presenting narratives of personal illness decline and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it

Between Men and Feminism (RLE Feminist Theory) David Porter, 2013-05-20 Between Men and Feminism had its origins in a lively colloquium at St John's College Cambridge in 1990 It discusses how two decades of feminism have affected the ways men define their own masculinities and how they have responded in their own social sexual and political lives to the challenges posed by the evolving feminist critiques of patriarchy and maleness itself The collection contains a great diversity of approaches from Britain and North America It includes viewpoints from academics a poet an educational researcher and the members of an active men's group Gay issues feature prominently as do psychoanalytical views and a number of the pieces provide a refreshingly personal and practical outlook Between Men and Feminism shows men finding their own way within the spaces feminism has opened to them rediscovering their own gendered voices and participating in the transformation of controlling ideologies in their daily lives These very readable accounts will appeal not only to students in the social sciences and gender studies but to all men who find themselves responding to the feminist challenge

A Road to Stonewall Byrne Fone, 1995 Since the June 1969 uprising at New York's Stonewall Inn the very

word Stonewall has become etched in the American psyche as a synonym for liberation Stonewall proved a cataclysmic marker in the lives of gay men and lesbians it was the point after which gay people were no longer content to live in fearful silence as their most basic rights were trampled on or ignored Stonewall happened because homosexuals of all races revolted against an act of official oppression It was indeed a beginning but it was also the culmination of a long struggle against the tyranny of socially regulated and defined speech about homosexuality In this insightful and engaging analysis Byrne R S Fone maps out one very significant road to Stonewall the literary course of male homoerotic desire and the homophobia that has made so much of what homosexuals have written so passionate and moving Most of the texts Fone analyzes presume that sexuality is the central aspect of identity Whereas gay literature since 1969 has been a vocal and supporting partner to the activism that has characterized the movement for lesbian and gay rights before 1969 there were few political initiatives and only a handful of organized groups the text was dominant **Cultura postmoderna y poesía amorosa** Michael J.
