The Cry Was Unity Mark Solomon, 2009-10-20 The Communist Party was the only political movement on the left in the late 1920s and 1930s to place racial justice and equality at the top of its agenda and to seek and ultimately win sympathy among African Americans This historic effort to fuse red and black offers a rich vein of experience and constitutes the theme of The Cry Was Unity Utilizing for the first time materials related to African Americans from the Moscow archives of the Communist International Comintern The Cry Was Unity traces the trajectory of the black red relationship from the end of World War I to the tumultuous 1930s From the just recovered transcript of the pivotal debate on African Americans at the 6th Comintern Congress in 1928 the book assesses the impact of the Congress's declaration that blacks in the rural South constituted a nation within a nation entitled to the right of self determination Despite the theory's serious flaws it fused the black struggle for freedom and revolutionary content and demanded that white labor recognize blacks as indispensable allies As the Great Depression unfolded the Communists launched intensive campaigns against lynching evictions and discrimination in jobs and relief and opened within their own ranks a searing assault on racism While the Party was never able to win a majority of white workers to the struggle for Negro rights or to achieve the unqualified support of the black majority it helped to lay the foundations for the freedom struggle of the 1950s and 1960s The Cry Was Unity underscores the successes and failures of the Communist led left and the ways in which it fought against racism and inequality This struggle comprises an important missing page that needs to be returned to the nation's history
