par P. VIETTE.

En dehors de l'espèce bien connue, *Chrysidiridia madagascariensis* (Lesson), il existe à Madagascar toute une série d'Uraniides blanches. La présente note a pour but l'étude des espèces qui ont été classées dans le genre *Urapteroides* Moore par M. GAEDE (1928) dans l'œuvre du Dr A. Serrz (tome XIV).

Ces espèces sont les suivantes :

- *Micronia fasciata* P. Mabille (1879 : 92).
- *Micronia malgassaria* P. Mabille (1879 : 92).
- *Micronia suavis* Ch. Oberthür (1923 a : 151).
- *Micronia piperita* Ch. Oberthür (1923 a : 153).
- *Micronia antsianakaria* Ch. Oberthür (1923 a : 154).

Après avoir acquis la collection de P. MABILLE, Ch. OBERTHÜR (1923 b : 12), en ce qui concerne les *Micronia* malgaches, établit les synonymies suivantes :

*M. fasciata* P. Mabille, 1879 = *M. suavis* Ch. Oberthür, 1923.

*M. malgassaria* P. Mabille, 1879 = *M. antsianakaria* Ch. Oberthür, 1923.

## Notes Et Memoires 9 1969:

**The Delimitation of the Continental Shelf between Denmark, Germany and the Netherlands** Alex G. Oude Elferink, 2014-01-09 Alex G Oude Elferink's detailed analysis of the negotiations between Denmark Germany and The Netherlands concerning the delimitation of their continental shelf in the North Sea makes use of the full range of government archives in these three States He looks at the role of international law in policy formulation and negotiations and explores the legal context political considerations and in particular oil interests which fed into these processes He also explains why the parties decided to submit their disputes to the International Court of Justice and looks at the preparation of their pleadings and litigation strategy before the Court The analysis shows how Denmark and The Netherlands were able to avoid the full impact of the implications of the Court's judgment by sidestepping legal arguments and insisting instead on political considerations

*With Friends Like These* David Meren, 2012-05-15 One of the most enduring images of Quebec's Quiet Revolution is of Charles de Gaulle proclaiming Vive le Québec libre from the balcony of Montreal City Hall in 1967 The French president's provocative act laid bare Canada's unity crisis and has dominated interpretations of the Canada Quebec France triangle ever since *With Friends like These* demystifies this cri du balcon by shifting the focus from de Gaulle to the broader domestic and international forces at play Meren traces the evolution of Quebec's special relationship with France after the Second World War and reveals that the resulting clash of nationalisms French Québecois and Canadian was fuelled not only by personalities and events but also by the efforts to respond to the power and influence of the United States in an increasingly interconnected world By seeking to understand rather than simply condemn aspects of Quebec Gaullist and Canadian nationalism Meren casts doubt on established interpretations of events and exposes the complexity of a growing international interest in Canadian affairs

**Algebraic Methods in Operator Theory** Raul E. Curto, Palle E.T.

Jorgensen, 2012-12-06 The theory of operators stands at the intersection of the frontiers of modern analysis and its classical counterparts of algebra and quantum mechanics of spectral theory and partial differential equations of the modern global approach to topology and geometry of representation theory and harmonic analysis and of dynamical systems and mathematical physics The present collection of papers represents contributions to a conference and they have been carefully selected with a view to bridging different but related areas of mathematics which have only recently displayed an unexpected network of interconnections as well as new and exciting cross fertilizations Our unifying theme is the algebraic view and approach to the study of operators and their applications The complementarity between the diversity of topics on the one hand and the unity of ideas on the other has been stressed Some of the longer contributions represent material from lectures in expanded form and with proofs for the most part However the shorter papers as well as the longer ones are an integral part of the picture they have all been carefully refereed and revised with a view to a unity of purpose timeliness readability and broad appeal Raul Curto and Palle E.T. The European Rescue of the Franco Regime, 1950-1975 Fernando

Guirao, 2021-01-21 The European Rescue of the Franco Regime 1950-1975 explores how the governments of the founding members of the European Coal and Steel Community and the European Economic Community acting collectively via the European Communities assisted in the consolidation of the Franco regime It explains how the Six the Nine after 1972 implemented a set of policy measures that facilitated the subsistence of the Franco regime proving that trade with the Six improved Spain's overall economic performance which in turn secured Franco's rule The Six provided the Spanish economy with a stable supply of essential raw materials and capital goods and with outlet markets for the country's main export commodities Through these mechanisms the European Communities assisted Spanish economic development and supported the stabilization of the non democratic political regime ruling Spain The Franco regime was never threatened by European integration and the Six Nine managed to isolate meaningful Community negotiations with Spain from mounting political disturbance The European Rescue of the Franco Regime 1950-1975 shows that without unremitting material assistance from Western Europe it would have been considerably more challenging for the Franco regime to attain the stability that enabled the dictator to maintain his rule until he died peacefully at 82 years old Structure Et Conception Des Ordinateurs Guy G.
