Notes on the Religious, Moral, and Political State of India Before the Mahomedan Invasion Sykes (Colonel, William Henry), 1841

Before the Empire of English: Literature, Provinciality, and Nationalism in Eighteenth-Century Britain A. Yadav, 2004-07-22 Before the Empire of English offers a broad re examination of Eighteenth century British literary culture centred around issues of language nationalism and provinciality It revises our tendency to take for granted the metropolitan centrality of English language writers of this period and shows instead how deeply these writers were conscious of the traditional marginality of their literary tradition in the European world of culture The book focuses attention on crucial but largely overlooked aspects of Eighteenth century English literary culture the progress of English topos since the death of Cowley and the cultural aspirations and anxieties it condenses the concept of the republic of letters and its implications for issues of cultural centrality and provinciality and the importance of cultural nationalist emphases in Augustan poetics in the context of these concerns about provinciality The book examines imperial aspirations and imaginings in the English literary culture of the period but it shows how such aspirations are responses to provincial anxieties more so than they are marks of imperial self assurance

Mead* Arthur (king.), 1897 *The Writing Workshop Note Book* Alan Ziegler, 2010-09 The Writing Workshop Note Book is devoted to making remaking and remarking on writing Animated by a concern about how we relate to our own and others writing and by a desire to have a felicitous effect on the reader's experience with writing and critiquing and supported by his experience from decades of leading writing workshops Ziegler has the following goals for this book 1 It will be useful if you are taking or thinking of taking a writing workshop 2 It will benefit workshop teachers 3 It will be a helpful companion to a solitary writer who can be thought of as a workshop of one 4 It will be pleasant to read While this book does focus on the workshop experience it is impossible to truly explore the workshop without dealing with the heart that sustains the workshop's brain the act of creation Thus Part One is concerned with the work that leads to the drafts on the workshop table and Part Two emphasizes what happens around the table while these drafts are critiqued The two Parts are not discrete the issues in Part One often occupy workshop discussion Teachers of writing do not open up cans of lectures pedagogy in workshops gets doled out in brief exegeses organized opportunistically as the work comes across the table Ziegler replicates this process by arranging the material into notes which the reader can absorb sequentially or alight on as he flips through the pages **Roman Ideas of Deity in the Last Century Before the Christian Era** William Warde

This book stands at the intersection of recent work in historiography and the study of political culture in the early Middle Ages It takes the autograph manuscript of a tenth century monk Richer as a point of entry into the author's world and asks how he and his contemporaries in the religious and intellectual community of Reims engaged in Frankish politics By shifting focus from the events and actors that typically occupy centre stage in political theatre to the writing of history and its authors it offers a sustained reflection on the relationship between politics and history As a case study it aims ultimately to articulate new possibilities for the study of early medieval politics and at the same time to provide a model for a type of historical inquiry in which the development of questions and the exploration of possibilities stand more prominent than the conclusions drawn from them *History and Politics in Eleventh-Century Baghdad* George Makdisi,2024-12-11 In the present collection of his articles George Makdisi is first of all concerned with the local history and the topography of Baghdad This is of interest in itself as a study of one of the principal urban centres of the medieval world but it also has a broader significance For Baghdad as the seat of the Abbasid caliphate was the focal point of much of the Islamic world at the time the rivalries between rulers and their ministers and the conflicts between secular and religious authorities and between different religious factions all find their reflection in the physical structure of the city and in the writings of those who lived there Of particular note are the studies on the only extant diary of the period that of Ibn al Banna and its historical significance both in terms of the literary genre and as a unique source for the affair of Ibn Aqil a cause célèbre that shook the world of Islam The theme of authority and power is then developed in the second set of articles focusing on the relations between caliph and sultan after the coming of the Saljuks Au cours des articles rassemblés dans le présent volume George Makdisi s'attache avant tout à l'histoire locale et à la topographie de Bagdad En soi ceci présente un intérêt particulier en tant qu'étude d'un des principaux centres urbains du monde médiéval cependant la signification en est plus large en effet Bagdad en tant que siège du Califat abbasside était le point de mire d'une grande partie du monde islamique de l'époque les rivalités entre les dirigeants et leurs ministres et les conflits entre autorités séculières et religieuses ainsi qu'entre diverses factions religieuses sont autant de choses qui se voient reflétées au travers de la structure de la ville et dans les écrits de ceux qui y vivaient À noter plus particulièrement les études sur le seul journal de l'époque qui ait été conservé celui d'Ibn al Banna et sa signification historiographique
