Levinas, Ethics, and the Israeli-Palestinian Conflict

Norman K. Swazo, 2025-05-30 This book engages with the philosophical thought of French Jewish philosopher Emmanuel Levinas. It studies some of his Talmudic readings and his concern for a Jewish universal ethics. It does so in relation to the protracted Israeli-Palestinian conflict and the moral imperatives that apply to the conduct of the State of Israel and the Israeli Defense Forces (IDF) vis-à-vis the Palestinian people. The book not only looks at what Levinas understands about the moral universality of the Talmud but also applies this understanding to the assessment of the IDF military operations ongoing in Gaza since October 7, 2023. In this way, the author makes a distinction between the moral teaching of rabbinic Judaism to which Levinas appeals for its universality on the one hand and the ideology of political Zionism on the other hand to which Levinas subscribed; hence, moral critique of the latter required in view of this moral teaching. A unique contribution, this book will be indispensable to scholars and researchers of European philosophy, Jewish ethics, religious studies, Talmudic studies, and contemporary moral philosophy, as well as those interested in the Israeli-Palestinian conflict. *Imagining Palestine*

Tahrir Hamdi, 2022-11-17 Winner of the Counter Current Award at the 2023 Palestine Book Awards. All national identities are somewhat fluid, held together by collective beliefs and practices as much as official territory and borders. In the context of the Palestinians, whose national status in so many instances remains unresolved, the articulation and imagination of national identity is particularly urgent. This book explores the ways that Palestinian intellectuals, artists, activists, and ordinary citizens imagine their homeland, examining the works of key Palestinian and other thinkers and writers such as Edward Said, Ghassan Kanafani, Naji Al Ali, Mahmoud Darwish, Mourid Barghouti, Radwa Ashour, Suheir Hammad, and Susan Abulhawa. Deploying decolonial and resistance concepts such as Palestinian *sumud*, Tahrir Hamdi argues that the imaginative construction of Palestine is a key element in the Palestinians' ongoing struggle. An interdisciplinary work drawing upon critical theory, postcolonial and decolonial studies, and literary analysis, this book will be of interest to students and scholars of Palestine and Middle East studies and Arabic literature. Zionism, the German Empire, and Africa

Axel Stähler, 2018-11-05 Zionism, the German Empire, and Africa explores the impact on the self-perception and culture of early Zionism of contemporary constructions of racial difference and of the experience of colonialism in imperial Germany. More specifically, interrogating in a comparative analysis material ranging from mainstream satirical magazines and cartoons to literary, aesthetic, and journalistic texts, advertisements, postcards, and photographs, monuments, and campaign medals, ethnographic exhibitions, and publications, popular entertainment, political speeches, and parliamentary reports, the book situates the short-lived but influential Zionist satirical magazine *Schlemiel* (1903-07) in an extensive network of nodal clusters of varying and shifting significance and with differently developed strains of cohesion or juncture that roughly encompasses the three decades from

Religions in Antiquity Jacob Neusner,2004-07-09 These essays were originally intended for presentation to Professor Erwin Ramsdell Goodenough on the occasion of his seventy fifth birthday Before his death in March 1965 he knew of our plans for this volume and was gladdened by them The editor hopes that these papers many of which fruitfully utilize Goodenough s scholarship may contribute to the critical discussion of some problems of concern to him during his lifetime He can conceive no higher nor more appropriate act of reverence for the memory of a beloved teacher and friend From the Foreword by Jacob Neusner **Studies in the History of Religions** Bentley Layton, *The Only Language They Understand* Nathan Thrall,2017-05-16 In a myth busting analysis of the world s most intractable conflict a star of Middle East reporting argues that only one weapon has yielded progress confrontation Scattered over the territory between the Jordan River and the Mediterranean Sea lie the remnants of failed peace proposals international summits secret negotiations UN resolutions and state building efforts The conventional story is that these well meaning attempts at peacemaking were repeatedly thwarted by the use of violence Through a rich interweaving of reportage historical narrative and forceful analysis

Nathan Thrall presents a startling counter history He shows that Israelis and Palestinians have persistently been marching toward partition but not through the high politics of diplomacy or the incremental building of a Palestinian state In fact negotiation collaboration and state building the prescription of successive American administrations have paradoxically entrenched the conflict in multiple ways They have created the illusion that a solution is at hand lessened Israel s incentives to end its control over the West Bank and Gaza and undermined Palestinian unity Ultimately it is those who have embraced confrontation through boycotts lawsuits resolutions imposed by outside powers protests civil disobedience and even violence who have brought about the most significant change Published as Israel s occupation of East Jerusalem the West Bank and Gaza reaches its fiftieth year which is also the centenary of the Balfour Declaration that first promised a Jewish national home in Palestine *The Only Language They Understand* advances a bold thesis that shatters ingrained positions of both left and right and provides a new and eye opening understanding of this most vexed of lands Israeli Exceptionalism M. Alam,2009-11-09 This book discusses the small band of European Zionists who entered the world stage in late 19th century determined to create a Jewish state and considers how at that time in Europe Jewish Gentile frictions were local problems whilst today in Israel they have come to form the pivot of global conflict **Answer to difficulties in the books of Moses** John Thein,1900 **Monthly Bulletin of the Hebrew Sheltering and Immigrant Aid Society** ,1915 The Bible dictionary ,1875 *Moses and Israel* ,1874 *The Bible Dictionary. Illustrated, Etc* ,1863 **Zionist Israel and the Question of Palestine** Tamar Amar-Dahl,2016-11-07 After half a century of occupation and tremendous costs of the conflict Israel is still struggling with the idea of a Palestinian state in what is often perceived as the Biblical Eretz Israel Mapping Zionism enemy images peace and war policies as well as democracy within the Jewish State the present study offers original insights into Israel s role in this conflict By analyzing Israeli history politics and security oriented political culture as it has been evolving from 1948 on this book reveals the ideological and political structures of a Zionist oriented state and society In doing so it uncovers the abyss between the Zionist vision of Eretz Israel on the one hand and the aspiration to achieve normalization peace and security on the other In view of this conflict laden bi national reality the Palestinian question is identified as the Achilles heel of Jewish statehood in the Land of Israel Thus Zionist Israel and the Question of Palestine provides a fresh innovative critical and yet accessible perspective on one of the most controversial issues in contemporary history Golden Age ,1926
