Palestines Children:

Children of Palestine Dawn Chatty, Gillian Lewando Hundt, 2005-03-01 Palestinian children and young people living both within and outside of refugee camps in the Middle East are the focus of this book. For more than half a century these children and their caregivers have lived a temporary existence in the dramatic and politically volatile landscape that is the Middle East. These children have been captive to various sorts of stereotyping both academic and popular. They have been objectified much as their parents and grandparents as passive victims without the benefit of international protection. And they have become the beneficiaries of numerous humanitarian aid packages which presume the primacy of the Western model of child development as well as the psycho-social approach to intervention. Giving voice to individual children in the context of their households and their community, this book aims to move beyond the stereotypes and Western-based models to explore the impact that forced migration and prolonged conflict have had and continue to have on the lives of these refugee children.

The Short Stories in Palestinian Children's Literature During the Twentieth Century Dr. Rafi' Saed Mohammad Yehya, 2024-12-01 The study of children's stories in Palestine during the twentieth century will examine the history and development of this genre, understand the main aspects, and consider the historical and geographical characteristics. The thesis combines the theoretical with the practical aspect. It consists of an introduction, four chapters, a conclusion, and an appendix. The introduction explains the importance of the study, its process, and its procedural applications and objectives. The first chapter deals with the processes of the Palestinian narrative and children's literature through a historical comparison that includes historical retracing the conditions of the historical and geographical stages and finally the general characteristics of the period. **Lived Resistance Against the War on Palestinian Children** Heidi Morrison, 2024-08

Despite the increasing volume of scholarship that shows children as political actors, prior to this book a cohesive framework was lacking that would more fully examine and express children's relationship with political power. Rather than simply hitching children's resistance to standard theories of resistance, Heidi Morrison seeks to meet children on their own terms. Through the case study of Palestinian children, contributors theorize children's resistance as an embodied experience called lived resistance. A critical aspect of the study of lived resistance is not just documenting what children do but specifically how scholars approach the topic of children's resistance. With *Lived Resistance against the War on Palestinian Children*, the authors account for the vessel, i.e. the body in flesh and mind, through which such resistance generates and operates. The diverse group of chapter authors examine Palestinian children's art and media, imprisonment, parenting experiences, bereavement, neoliberalism, refugee camps, and protest movements as aspects of their collective and individual political power. Through these outlets, the book shows consistencies and contends that these children's relationship to political power operates from an inclusive model of citizenship and is social justice oriented, symbolically oriented, and contingently based.

the government of Israel Furthermore the Times regularly ignores or under reports a multitude of critical legal issues pertaining to Israel s policies including Israel s expropriation and settlement of Palestinian land the two tier system of laws based on national origin evocative of South Africa s apartheid regime the demolition of Palestinian homes and use of deadly force against Palestinians These journalistic practices have not only shielded the extent of Israel s transgressions from the American electorate which is Israel s main source of financial and military support it has severely diminished our understanding of the Middle East and of US foreign policy in general

Promoting the Psychosocial Well Being of Children Following War and Terrorism M.J. Friedman, A. Mikus-Kos, 2005-11-15 This book aims to promote the psychosocial well being of children following war and terrorism Experts from the former Yugoslavia Israel Palestine NATO countries and elsewhere have contributed chapters detailing conceptual models and practical examples of community based interventions for children Some authors are experienced experts with extensive experience in providing community based interventions for children during post war reconstruction Others have scientific experience conducting either research or program evaluation for such interventions A third group of participants has experience in both the provision and evaluation of psychosocial services to children These different perspectives are easy to identify from one chapter to the next and provide a creative tension regarding competing approaches to conceptualizing and implementing the most effective interventions It is clear that such alternative views are complementary rather than

contradictory The purpose of this book therefore is to show how community based psychosocial approaches can benefit from a thoughtful synthesis of both experiential and empirical strategies that link individual mental health psychosocial well being with the health and stability of the community **Palestine's Children** Ghassān Kanafānī, Barbara Harlow, 2000
