Palestinian Objects at the University of Minnesota William D. E. Coulson, 1986 **Palestinian Refugees and Identity** Luigi Achilli, 2015-06-22 After the creation of the State of Israel in 1948 Palestinian refugees fled over the border into Jordan which in 1950 formally annexed the West Bank In the wake of the 1967 War another wave of Palestinians sought refuge in the Hashemite kingdom Today 42 per cent of registered Palestinian refugees live in Jordan As a result of this historical context one might expect Palestinian refugee camps to be highly politicised spaces Yet Luigi Achilli argues in this book that there is in fact a relative absence of political activity Instead what is prevalent is a desire to live an ordinary life It is within the framework of the performing and creating everyday life working praying relaxing watching football matches surfing the internet or idling in barber shops that Achilli examines nationalism and identity Palestinian refugees have been traditionally depicted by the Western media as inherently political beings ready to fight and resist all attempts to quash their nationalist struggle But except for occasional political demonstrations and events neither the political turmoil in Gaza and the West Bank nor the uprisings throughout the Middle East of 2011 have roused refugees out of what they described as the ordinary course of daily life in the camp Achilli argues instead that refugee daily life in many ways revolves around the practice of suspending the political The performative and reiterative dimensions of ordinary activities have not however precluded refugees from feeling an affinity for many of the meanings ideals and values of Palestinian nationalism Achilli holds that it is through the desire for an ordinary life that these Palestinian refugees are able to assert their own meanings and understandings of national identity against the more inflexible interpretations provided by the political systems in Gaza and the West Bank Examining the concepts of everyday Islam as well as the construction of masculine identity in the camps Achilli offers vital analysis of the complexities and ambiguities of camp dwellers experience of the political in ordinary times

Facts and Fables (RLE Israel and Palestine) Clifford A. Wright,2015-05-22 The Arab Israeli conflict is one of the greatest threats to world peace today Yet for all the importance and passion of this conflict very little is actually known about the story behind the headlines Behind each confrontation and each act of terrorism is a long and deep story This primer on the Arab Israeli conflict first published in 1989 examines the real stories behind the conflict and separates fact from fable By carefully documenting each claim and counter claim many widely held beliefs are unmasked as myths *Palestine in the Time of Jesus* K. C. Hanson,Douglas E. Oakman,2008-07-15 Hanson and Oakman s award winning and enormously illuminating volume quickly has become a widely used and cited introduction to the social context of the early Jesus movement This new printing augments the text with multiple features on an accompanying CD ROM Pens, Swords, And the Springs of Art Nadia G. Yaqub,2007 Offering an analysis of oral poetry dueling performed at traditional Palestinian weddings this book addresses poetry dueling as a performative and compositional device and explores the complex linkages between this tradition and other genres of Arabic poetry **A Wayside Shrine in Northern Moab: Excavations in the Wadi ath-Thamad** P. M. Michele Daviau,Margreet L. Steiner,2017-08-31 Major recent excavations have shed much light on the complexity of Iron Age society and religion in southern Palestine a region where both Judeans and Edomites lived However it is not clear whether the religious practices attested at these sites were a reflection of localised customs or were common rituals for peoples of Cisjordan and we do not know their extent An isolated shrine site at Wadi ath Thamad Site WT 13 in northern Moab which contained numerous finds of Iron Age figurines and statues has been the subject of detailed excavation The rich harvest of figurines ceramic statues beads miniature ceramic vessels architectural models faunal remains and shells and fossils constitutes the evidence for repeated cultic activities Although dating to the Iron Age at the time of the consolidation of the kingdom of Moab there is insufficient evidence at present to determine the full range of cultic practices and deities venerated by the peoples of the lands within ancient Moab and by those visitors to the shrine The links between WT 13 and the surrounding town sites is only now coming to light with excavation at Atarus and Khirbat al Mudayna as well as at the Ammonite site of Tall Damiyah in the Jordan Valley where a comparable shrine has recently been uncovered WT 13 clearly serves as a link between the Jordan Valley and the Negev adding to our knowledge of local and foreign influences in the region during the Iron Age *Catastrophe Remembered* Nur Masalha,2008-02-29 The 1948 Palestine War is known to Israelis as the War of Independence But for Palestinians the war is forever the Nakba the catastrophe The war led to the creation of the State of Israel and the destruction of much of Palestinian society by the Zionist forces For all Palestinians the Nakba has become central to history memory and identity This book focuses on Palestinian internal refugees in Israel and internally displaced Palestinians across the Green Line It uses oral history and interviews to examine Palestinian identity and

memory indigenous rights international protection the right of return and a just solution in Palestine Israel Contributors include several distinguished authors and scholars such as William Dalrymple Prof Naseer Aruri Dr Ilan Pappé Prof Isma'il Abu Sa'ad and Dr Nur Masalha

Israel / Palestine Alan Dowty, 2013-08-27 What explains the peculiar intensity and evident intractability of the Israeli-Palestinian conflict? Of all the hot spots in the world today, the apparently endless clash between Jews and Arabs in the Middle East seems unique in its longevity and resistance to resolution. Is this conflict really different from other ethnic and nationalist confrontations, and if so, in what way? In this fully revised and updated third edition of his highly respected introductory text, Alan Dowty demystifies the conflict by putting it in broad historical perspective, identifying its roots and tracing its evolution up to the current impasse. His account offers a clear analytic framework for understanding transformations over time, and in doing so, punctures the myths of an age-old conflict with an unbridgeable gap between the two sides. Rather than simply reciting historical detail, this book presents a clear overview that serves as a road map through the thicket of conflicting claims. This newly expanded edition updates the analysis to include the latest developments and also integrates into the analysis a fuller account of the regional and international context of the conflict. In this account, the opposed perspectives of the two sides are presented in full, leaving readers to make their own evaluations of the issues. The book thus expresses fairly and objectively the concerns, hopes, fears, and passions of both sides, making it clear why this conflict is waged with such vehemence and why, for all that, there are some grounds for optimism.

The Late Bronze Age and Early Iron Ages of Central Transjordan Patrick E. McGovern, Robin Brown, 1986 A critical transition period in the archaeology and history of Palestine, the Late Bronze Age and Early Iron Age is described in detail from the perspective of a group of sites in the Baq'ah Valley. A major emphasis is on how scientific techniques, including magnetic location of undisturbed burial deposits and analytical reconstruction of very early industries, can be effectively integrated into an archaeological project. Contrary to traditional views, the evidence supports a relatively peaceful development within a single cultural tradition rather than the intrusion of a new people or segment of the existing population by invasion, migration, or revolt.
