## **Palestinians In The Arab World Institution Building And The Search For State:**

Palestinians in the Arab World Laurie A. Brand, 1988-06-01 Traces the history of the Palestinians from their uprooting in 1948 to the present The only work of its kind it details the origins and evolution of the sociopolitical institutions that served as bases for the reemergence of the Palestinian movement The author explores the development of institutions among students women teachers and workers in the Palestinian communities of Egypt Kuwait and Jordan She uses a vast array of Arabic language sources and material from more than 100 interviews to reconstruct a chapter of Palestinian social and political history that has been largely ignored Unique and indispensable

Armed Struggle and the Search for State Yezid Sayigh, 1997-12-11 This masterly new work spans an entire epoch in the history of the contemporary Palestinian national movement from the establishment of Israel in mandate Palestine in 1948 to the PLO Israel accord of 1993 Contrary to the conventional view that national liberation movements proceed with state building only after attaining independence the case of the PLO shows that state building may shape political institutionalization throughout the previous struggle even in the absence of an autonomous territorial economic and social base That is the central argument of this insightful study which traces the political ideological and organizational evolution of the PLO and its constituent guerrilla groups Taking the much vaunted armed struggle as its connecting theme it shows how conflict was used to mobilize the mass constituency assert particular discourses of revolution and nationalism construct statist institutions and establish the legitimacy of a new political class and bureaucratic elite The book draws extensively on PLO archives official publications and internal documents of the various guerilla groups and over 400 interviews conducted by the author with the PLO rank and file Its span primary sources and conceptual framework make this the definitive work on the subject

**Minorities and State-Building in the Middle East** Paolo Maggolini, Idir Ouahes, 2020-10-19 This book offers fresh insights to enhance and diversify our understanding of the modern history of the state and societies in today's Jordan while also providing examples of why and how scholars can challenge the static and discursively government minded approaches to minorities and minoritisation especially the traditional emphasis on demographic balances Despite its small size and initial appearance of homogeneity Jordan provides an excellent case of a dynamic relational historically contingent and fluid approach to ethnic political and religious minorities in the context of the imposition of a modern state system on complex and varied traditional societies The editors and contributors present dynamic and relational perspectives on the status of and historical processes involved in the creation and absorption of minority groups within Jordan

**State Making in Asia** Richard Boyd, Tak-Wing Ngo, 2012-09-10 Including contributions from an international team of leading experts this volume examines state making from a uniquely Asian perspective and reveals some of the misunderstandings that arise when states and state making are judged solely on the basis of Western history The contributors argue that if we are to understand states in Asia then we must first recognize the particular combination of institution and ideologies embedded in Asian state making and their distinctiveness from the

Western experience Presenting new empirical and conceptual material based on original research the book provides a unique theoretical reflection of the state through a thorough comparison of East Asian nations and as such will be a valuable resource to scholars of Asian politics and international relations

**Decentering Discussions on Religion and State**

Sargon George Donabed, Autumn Quezada-Grant, 2015-04-09 This volume explores dynamic conversations through history between individuals and communities over questions about religion and state Divided into two sections our authors begin with considerations on the separation of religion and state as well as Roger Williams concept of religious freedom Authors in the first half consider nuanced debates centered on emerging narratives with particular emphasis on Native America Early Americans and experiences in American immigration after Independence The first half of the volume examines voices in American History as they publicly engage with notions of secular ideology Discussions then shift as the volume broadens to world perspectives on religion state relations Authors consider critical questions of nation religious identity and transnational narratives The intent of this volume is to privilege new narratives about religion state relations Decentering discussions away from national narratives allows for emerging voices at the individual and community levels This volume offers readers new openings through which to understand critical but overlooked interactions between individuals and groups of people with the state over questions about religion

**Ethnicity and the State**

Judith D. Toland, 2017-07-28 Modern states have evolved as complex political structures in which unitary forms of government maintain an uncertain equilibrium with ethnically plural societies Historically ruling elites have tried with little success to eradicate ethnicity through genocide bury it under accusations of tribalism discredit it with the mind frame of modernization or confine it to local rather than national political arenas This broad ranging volume examines the dynamics of ethnic manipulation and accommodation by dominant and subordinate groups in the state building process Ethnicity and the State reflects the widely varying political contexts and cultures in which reasons of state contend with unyielding ethnic allegiances European South American Asian and Middle Eastern examples reveal a consistent set of themes and attitudes The authors find that while the state must realize its authority and stability through a strictly defined charter of rights and values ethnic identity exercises its power more freely and flexibly The sense of peoplehood may be artificially constructed in response to immediate need or it may be ancient and organic growing over time It has the potential to cut across race class and gender Its central tenets and myths may be reinterpreted recreated enlarged upon or modified as the political situation warrants Flexibility of belief and the need to identify with a larger group account both for the durability of ethnic loyalty and its vulnerability to manipulation This volume is particularly timely at a moment when national governments in many parts of the world must face the adoption of more equitable forms of rule to hold their ethnically diverse societies together Taken together the analyses presented here warn against institutionalizing ethnic strife and offer a vision of how the state may foster expectations and policies that serve the interests of all ethnic groups within their borders Political scientists historians and anthropologists will find this book

valuable for its interpretations of forces that continue to reshape the social and political fabric of the world **Inter-Arab Alliances** Curtis R. Ryan, 2009-01-04 There is a method to the apparent madness of Arab politics In a region where friends can become enemies and enemies become friends seemingly at the drop of the hat Curtis Ryan argues that there is logic to be found Through fourteen years of field research and interviews with key policy makers Ryan examines the remarkably stable Jordan as a microcosm of the region's politics He traces the last four decades of Jordanian foreign policy in an attempt to better understand what seems like chaos What Ryan finds is an approach that is fundamentally different from alliances made in the West in both how and why they are made With governmental change and upheaval occurring on a seemingly regular basis Arab nations approach diplomacy with much different means and potential ends The impact of this diplomacy is arguably the most immediate in the world today as conflict with words and conflict with weapons are sometimes separated by mere days The topic of international relations in the Arab world is as complex as it is important Ryan gives the reader the theoretical background and shows its direct applicability through the foreign policy of Jordan **The Women and War Reader** Lois Ann Lorentzen, Jennifer E. Turpin, 1998-07 Women play many roles during wartime This compelling study brings together the work of foremost scholars on women and war to address questions of ethnicity women and the war complex peacemaking motherhood and more It leaves behind outdated arguments about militarist men and pacifist women while still recognizing differences in men's and women's relationships to war **Civil Society in the Middle East, Volume 2** Norton, 2021-11-15 Civil Society in the Middle East is a project of the Department of Politics and the Koverkian Center for Near Eastern Studies New York University Project director is Augustus Richard Norton Boston University While there is wide disagreement about the outcome among those who follow events in the Middle East there is little doubt that the regimes in the region are under increasing pressure from their citizens In rich and poor states alike incipient movements of men and women are demanding a voice in politics Recent political developments in Jordan Yemen Lebanon even the future state of Palestine clearly show the vitality and dynamism of civil society the melange of associations clubs guilds syndicates federations unions parties and groups which provide a buffer between state and citizen and which are now so clearly at the forefront of political liberalization in the region Civil Society in the Middle East a two volume set of papers providing an unusually detailed and rich assessment of contemporary politics within the Middle East and in this sense alone quite literally peerless is the result of a project of the Department of Politics and the Kevorkian Center for Near Eastern Studies at New York University Volume I contains contributions by Augustus Richard Norton Raymond A Hinnebusch Laurie Brand Muhammad Muslih Mustafa Kamil al Sayyid Ghanim al Najjar and Neil Hicks Eva Bellin Jill Crystal Saad al Din Ibrahim and Alan Richards *Civil society in the Middle East. 2 (2001)* Augustus Richard Norton, 2001 Leading scholars assembled by the Civil Society in the Middle East program provide lucid informed essays on the quality of political life weighing the role of civil society and assessing the prospects for political reform in the Middle East **Palestinian Refugees in International**

**Law** Francesca P. Albanese, Lex Takkenberg, 2020-05-21 The Palestinian refugee question resulting from the events surrounding the birth of the state of Israel seventy years ago remains one of the largest and most protracted refugee crises of the post WWII era Numbering over six million in the Middle East alone Palestinian refugees status varies considerably according to the state or territory hosting them the UN agency assisting them and political circumstances surrounding the Israeli Palestinian conflict these refugees are naturally associated with Despite being foundational to both the experience of the Palestinian refugees and the resolution of their plight international law is often side lined in political discussions concerning their fate This compelling new book building on the seminal contribution of the first edition 1998 offers a clear and comprehensive analysis of various areas of international law including refugee law human rights law humanitarian law the law relating to stateless persons principles related to internally displaced persons as well as notions of international criminal law and probes their relevance to the provision of international protection for Palestinian refugees and their quest for durable solutions

**The Future of the Occupation of the Palestinian Territories after Gaza** Erwin van Veen, 2025-08-19 This open access book outlines four scenarios for the future of Israeli occupation of the Palestinian Territories as a broad canvas on which the interests roles and perspectives of the key stakeholders involved in occupation are subsequently painted An indirect result of 58 years of Israeli occupation of the Palestinian Territories the Hamas attack on Israel of 7 October 2023 and the ensuing Israeli military campaign have greatly worsened Palestinian security in the short term and Israeli security in the long term Durable prospects for achieving reconciliation and peace are now shrouded in uncertainty as political forces and views on both sides are likely to polarize and radicalize even further October 7 and its aftermath have also introduced new

uncertainties about the future nature of Israeli annexation and the modalities as well as extent of Palestinian resistance Old frames have lost much of their validity such as the Oslo agreements or even the logic underpinning security cooperation between the Palestinian Authority and the Israeli military The book aims to improve our understanding of the post October 7 context of occupation and the initiatives required to end it in the future Ultimately the book s intention is to shake up complacent policies and debates about the occupation of the Palestinian Territories by providing a more realistic basis for both reflection and action While short form analysis e g blogs essays and briefs of October 7 and the ensuing events have proliferated there has been little to no comprehensive analysis of the significance of these events for the future of occupation Using the method of scenario planning to develop an analytical baseline the added value of this book is that it offers a multi dimensional consideration of this question both through the range of stakeholders it covers and the variety of its authors with respect to their research focus and perspective

**Palestinians in Jordan** Luisa Gandolfo,2012-10-23 60 per cent of Jordanians are of Palestinian origin a statistic which has propelled Jordan into the role of both player and pawn in regional issues such as the birth of the state of Israel the prolonged Israel Palestine conflict the ascent and decline of Arab nationalism and the subsequent rise of political Islam and radicalism Exploring Jordan s diverse Palestinian communities Luisa Gandolfo illustrates how the Palestinian majority has been subject to discrimination all the while also playing a defining role in shaping Jordanian politics legal frameworks and national identity The conflicts of 1948

and 1967 the civil unrest following Black September in 1972 and the uprisings of 1988 and 2000 have all contributed to a fractious Jordanian Palestinian relationship In *Palestinians in Jordan* Gandolfo examines the history of this relationship looking at the socio political circumstances the economic and domestic policies the legal status of Palestinians in Jordan and the security dimension of Jordan's role in the region She argues that policies put in place over the last century have created a society that is marked by high levels of inter faith cohesion as evidenced by the success and integration of minority Christian communities She goes on to suggest that society divides along lines of ethnic and nationalist loyalty between Jordanians and Palestinians while domestic politics become increasingly fractious with the growth of Islamist groups that have gained grassroots appeal especially in the refugee camps *Palestinians in Jordan* looks through the kaleidoscope of Palestinian Jordanian identities that accommodate a complex and overlapping web of different religious affiliations mixed socio economic conditions and the experience of exile reconciled with daily life in Jordan At the same time identities of these communities continue to be rooted in an attachment to the concept of Palestine and the unifying force of the struggle against Zionism These layers have made the versatile and fluid nature of identities essential affording a fascinating study in inter communal dynamics and nationalism It is this which makes *Palestinians in Jordan* an important resource for those researching the Israel Palestine conflict as well as for students of the Middle East Politics Anthropology and Gender with an interest in identity

of the Palestinian women's movement from the 1930s to the post Oslo period and through the Second Intifada to examine the often fraught relationship between women and nationalism in Palestine. Offering one of the first intensive studies of Islamist women's activism, Jad also explores the impact of emerging feminist NGOs in depoliticizing the secular Palestinian women's movement. Studying these two developments together illuminates the nature of women's engagement in the Palestinian space, challenging myths of gender roles' immutability under Islam and the supposed modernizing benefits of Western style activism.
