Palgrave Atlas Of Byzantine History:

The Palgrave Atlas of Byzantine History J. Haldon, 2005-10-14 The dominant Mediterranean power in the fifth and sixth centuries by the time of its demise at the hands of the Ottomans in 1453 the Byzantine empire was a shadow of its former self restricted essentially to the city of Constantinople modern Istanbul Surrounded by foes who posed a constant threat to its very existence it survived because of its administration army and the strength of its culture of which Orthodox Christianity was a key element This historical atlas charts key aspects of the political social and economic history of a medieval empire which bridged the Christian and Islamic worlds from the late Roman period into the late Middle Ages

The Archaeology of Imperial Landscapes Bleda S. Düring, Tessa D. Stek, 2018-03-29 This book examines the poorly understood transformations in rural landscapes and societies that formed the backbone of ancient empires [The Oxford Encyclopedia of Medieval Warfare and Military Technology](#) Clifford J. Rogers, 2010 From the Viking invasions to the Crusades to the Hundred Years War wars were crucial agents of change in medieval Europe They fostered many economic and political changes They also affected the science technology religion and culture of the parties involved Examines all aspects of warfare and military technology in medieval times and provides an exhaustive and accurate view of how and why wars were waged throughout Europe the Byzantine Empire and the Crusader States from circa 500 CE to circa 1500 [Money, Power and Politics in Early Islamic Syria](#) John Haldon, 2016-04-22 The transformation of the eastern provinces of the Roman empire from the middle of the seventh century CE under the impact of Islam has attracted a good deal of scholarly attention in recent years and as more archaeological material becomes available has been subject to revision and rethinking in ways that radically affect what we know or understand about the area about state building and the economy and society of the early Islamic world and about issues such as urbanisation town country relations the ways in which a different religious culture impacted on the built environment and about politics This volume represents the fruits of a workshop held at Princeton University in May 2007 to discuss the ways in which recent work has affected our understanding of the nature of economic and exchange activity in particular and the broader implications of these advances for the history of the region *The Byzantines* Averil Cameron, 2009-11-09 Winner of the 2006 John D Criticos Prize This book introduces the reader to the complex history ethnicity and identity of the Byzantines This volume brings Byzantium often misconstrued as a vanished successor to the classical world to the forefront of European history Deconstructs stereotypes surrounding Byzantium Beautifully illustrated with photographs and maps **Armenia and Byzantium without Borders** , 2023-08-14 Byzantium is more and more recognized as a vibrant culture in dialogue with neighbouring regions political entities and peoples Where better to look for this kind of dynamism than in the interactions between the Byzantines and the Armenians Warfare and diplomacy are only one part of that story The more enduring part consists of contact and mutual influence brokered by individuals who were conversant in both cultures and languages The articles in this volume feature fresh work by younger

and established scholars that illustrate the varieties of interaction in the fields of literature material culture and religion Contributors are Gert Boersema Emilio Bonfiglio Bernard Coulie Karen Hamada Robin Meyer Johannes Preiser Kapeller Claudia Rapp Mark Roosen Werner Seibt Emmanuel Van Elverdinghe Theo Maarten van Lint Alexandra Kyriaki Wassiliou Seibt and David Zakarian Byzantium Triumphant Julian Romane, 2021-08-04 This vibrant history examines the wars of three Byzantine emperors Nicephorus II Phocas John I Tzimiskes and Basil II The Bulgar Slayer In *Byzantium Triumphant* Julian Romane presents an in depth chronicle of the many wars waged by Nicephorus II Phocas his nephew and assassin John I Tzimiskes and the infamous Basil II Capturing the drama of battle as well as the strategic operations of each campaign Romane depicts the new energy and improved methods of warfare developed in the late tenth and early eleventh century He also sheds light on the court intrigues and political skulduggery of the period These emperors were at war on all fronts fighting for survival and dominance against enemies including the Arab caliphates Bulgars and the Holy Roman Empire not to mention dealing with civil wars and rebellions Romane's careful research drawing particularly on the evidence of Byzantine military manuals allows him to produce a gripping narrative underpinned by a detailed understanding of the Byzantine tactics organization training and doctrine *Cultures of Eschatology* Veronika Wieser, Vincent Eltschinger, Johann Heiss, 2020-07-20 In all religions in the medieval West as in the East ideas about the past the present and the future were shaped by expectations related to the End The volumes *Cultures of Eschatology* explore the many ways apocalyptic thought and visions of the end intersected with the development of pre modern religio political communities with social changes and with the emergence of new intellectual and literary traditions The two volumes present a wide variety of case studies from the early Christian communities of Antiquity through the times of the Islamic invasion and the Crusades and up to modern receptions from the Latin West to the Byzantine Empire from South Yemen to the Hidden Lands of Tibetan Buddhism Examining apocalypticism messianism and eschatology in medieval Christian Islamic Hindu and Buddhist communities the contributions paint a multi faceted picture of End Time scenarios and provide their readers with a broad array of source material from different historical contexts The first volume *Empires and Scriptural Authorities* examines the formation of literary and visual apocalyptic traditions and the role they played as vehicles for defining a community's religious and political enemies The second volume *Time Death and Afterlife* focuses on key topics of eschatology death judgment afterlife and the perception of time and its end It also analyses modern readings and interpretations of eschatological concepts

strategy across six continents From Charlemagne to Henry V and Scandinavia to Florence southbound to Morocco then across the Sahara to Kongo past the Adriatic to Byzantium and Georgia and the Crusades and Egypt further still into Indian and Chinese dynasties and Japan and finally to Central and South America this Handbook provides ready access to military strategy across the medieval world stage In the process it fills a significant gap in the history of strategy and serves to connect the ancient world with the modern demonstrating that whatever the period military leaders have consistently plied warfare in the pursuit of greater ends This Handbook will be of much interest to researchers and students of military strategy medieval military history and strategic studies in general

The Limits of Universal Rule Yuri Pines, Michal Biran, Jörg Rüpke, 2021-01-21 The first comparative study to explore the dynamics of expansion and contraction of major continental empires in Eurasia

Byzantium and the Emergence of Muslim-Turkish Anatolia, Ca. 1040-1130 Alexander Daniel Beihammer, 2017-02-17 This book proposes a new interpretation of the transformation from Byzantine to Muslim Turkish Anatolia With the waning influence of Constantinople and Cairo in Anatolia and the Muslim heartlands local elites and regional powers came to the fore as holders of political authority and rivals in endless power struggles Turkish warrior groups quickly assumed a leading role in this process because of their intrusion into pre existing social networks and their successful exploitation of administrative tools and local resources There was no Byzantine decline nor Turkish triumph but rather the driving force of change was the successful interaction between these two spheres

The Oxford Handbook of Byzantine Studies Elizabeth Jeffreys, John F. Haldon, Robin Cormack, 2008 The Oxford Handbook of Byzantine Studies presents discussions by leading experts on all significant aspects of this diverse and fast growing field Byzantine Studies deals with the history and culture of the Byzantine Empire the eastern half of the Late Roman Empire from the fourth to the fourteenth century Its centre was the city formerly known as Byzantium refounded as Constantinople in 324 CE the present day Istanbul Under its emperors patriarchs and all pervasive bureaucracy Byzantium developed a distinctive society Greek in language Roman in legal system and Christian in religion Byzantium s impact in the European Middle Ages is hard to over estimate as a bulwark against invaders as a meeting point for trade from Asia and the Mediterranean as a guardian of the classical literary and artistic heritage and as a creator of its

own magnificent artistic style **The Dynamics of Ancient Empires** Ian Morris, Walter Scheidel, 2009-01-13 The world's first known empires took shape in Mesopotamia between the eastern shores of the Mediterranean Sea and the Persian Gulf beginning around 2350 BCE The next 2 500 years witnessed sustained imperial growth bringing a growing share of humanity under the control of ever fewer states Two thousand years ago just four major powers the Roman Parthian Kushan and Han empires ruled perhaps two thirds of the earth's entire population Yet despite empires' prominence in the early history of civilization there have been surprisingly few attempts to study the dynamics of ancient empires in the western Old World comparatively Such grand comparisons were popular in the eighteenth century but scholars then had only Greek and Latin literature and the Hebrew Bible as evidence and necessarily framed the problem in different more limited terms Near Eastern texts and knowledge of their languages only appeared in large amounts in the later nineteenth century Neither Karl Marx nor Max Weber could make much use of this material and not until the 1920s were there enough archaeological data to make syntheses of early European and west Asian history possible But one consequence of the increase in empirical knowledge was that twentieth century scholars generally defined the disciplinary and geographical boundaries of their specialties more narrowly than their Enlightenment predecessors had done shying away from large questions and cross cultural comparisons As a result Greek and Roman empires have largely been studied in isolation from those of the Near East This volume is designed to address these deficits and encourage dialogue across disciplinary boundaries by examining the fundamental features of the successive and partly overlapping imperial states that dominated much of the Near East and the Mediterranean in the first millennia BCE and CE A substantial introductory discussion of recent thought on the mechanisms of imperial state formation prefaces the five newly commissioned case studies of the Neo Assyrian Achaemenid Persian Athenian Roman and Byzantine empires A final chapter draws on the findings of evolutionary psychology to improve our understanding of ultimate causation in imperial predation and exploitation in a wide range of historical systems from all over the globe Contributors include John Haldon Jack Goldstone Peter Bedford Josef Wiesehöfer Ian Morris Walter Scheidel and Keith Hopkins whose essay on Roman political economy was completed just before his death in 2004 **Warfare in Late Byzantium, 1204-1453** Savvas Kyriakidis, 2011-05-23 Examining a wide body of sources this book offers a comprehensive analysis of late Byzantine attitudes to warfare and places late Byzantine military ethos thought and practice in the wider geographical cultural and historical context Cyprus between Late Antiquity and the Early Middle Ages (ca. 600-800) Luca Zavagno, 2017-05-18 Research on early medieval Cyprus has focused on the late antique golden age late fourth early fifth to seventh century and the so called Byzantine Reconquista post AD 965 while overlooking the intervening period This phase was characterized supposedly by the division of the political sovereignty between the Umayyads and the Byzantines bringing about the social and demographic dislocation of the population of the island This book proposes a different story of continuities and slow transformations in the fate of Cyprus between the late sixth and the early ninth centuries Analysis of

new archaeological evidence shows signs of a continuing link to Constantinople Moreover together with a reassessment of the literary evidence archaeology and material culture help us to reappraise the impact of Arab naval raids and contextualize the confrontational episodes throughout the ebb and flow of Eastern Mediterranean history the political influence of the Caliphate looked stronger in the second half of the seventh century the administrative and ecclesiastical influence of the Byzantine empire was held sway from the beginning of the eighth to the twelfth century Whereas the island retained sound commercial ties with the Umayyad Levant in the seventh and eighth centuries at the same time politically and economically it remained part of the Byzantine sphere This belies the idea of Cyprus as an independent province only loosely tied to Constantinople and allows us to draw a different picture of the cultural identities political practices and hierarchy of wealth and power in Cyprus during the passage from Late Antiquity to the early Middle Ages

Robinson,2010-11-04 Volume One of The New Cambridge History of Islam which surveys the political and cultural history of Islam from its Late Antique origins until the eleventh century brings together contributions from leading scholars in the field The book is divided into four parts The first provides an overview of the physical and political geography of the Late Antique Middle East The second charts the rise of Islam and the emergence of the Islamic political order under the Umayyad and the Abbasid caliphs of the seventh eighth and ninth centuries followed by the dissolution of the empire in the tenth and eleventh Regionalism the overlapping histories of the empire s provinces is the focus of Part Three while Part Four provides a cutting edge discussion of the sources and controversies of early Islamic history including a survey of numismatics archaeology and material culture
