International Association of Buddhist Studies. Conference,2006 Contributed articles presented at the 13th Conference of the International Association of Buddhist Studies held in Bangkok Dec 2002 **Journal of the Burma Research Society** Burma Research Society,1928 *Encyclopaedia of the Hindu World (Volume 2)* Ganga Ram Garg,1992-01-01 The number of paths to the One Infinite is necessarily infinite according to Hinduism it is this recognition of many paths each valid in itself that gives to Hinduism its immense variety Hinduism is thus like a huge river with an innumerable tributaries It Contains within it the influence of many cultures The culture of the Aryans Dravidian and the tribal peoples the culture of the later invaders the influence of Buddhism Jainism etc to which Hinduism gave birth and of Islam and Christianity which came from outside can be traced at various stages of the evolution of Hindu thought The Hindu scheme of life thus leaves a man free to think for himself while providing him with a background in the form of a long tradition halling from the Vedic times Many people would prefer to be guided by a flexible schemes of life which Hinduism represents than by a seat of rigid unalterable dogmas which lose their importance with the passing of time Moreover Hinduism is a Continuous process and is still in the making *The Stream of the Essence of the Deathless* Daniel Malinowski Stuart,2007 *Buddhist Legacies in Mainland Southeast Asia* François Lagirarde,2006 **A Comparative History of World Philosophy** Ben-Ami Scharfstein,1998-01-01 Breaks through the cultural barriers between Western Indian and Chinese philosophy and demonstrates that despite considerable differences between these three great philosophical traditions there are fundamental resemblances in their abstract principles **The Historians' History of the World Vol.2 (of 25) (Illustrations)** Henry Smith Williams, Many a nation has walked God s earth has long enjoyed its good things has come into being and passed away without our knowing anything of its history or even whether it had a history at all For no nation has a history except one that makes history that is

to say that influences the course of human development It is with races as with individuals none is kept in mind by posterity save those who have distinguished themselves by ideas that have modified the life of mankind or which comes to the same thing have been pioneers in fresh fields of action The greater the spiritual gain a nation has brought to the rest of the world the longer and more steadily its life has flowed in the channels it was the first to make the longer is its history told among them The nations of history are those which have put forward in one fashion or another their claim to the dominion of the world Thus we may fitly ask what claim it is that is made upon our interest by the history of the Jewish nation And the answer will be that nothing which excites our attention or stirs us to admiration or imitation in the history of other nations is here present in any large measure Israel was always a small nay a petty nation settled in a narrow space never of any considerable importance in the political history of the East it never brought forth a Ramses II a Sargon an Esarhaddon an Assurbanipal a Nebuchadnezzar or a Cyrus to bear its banner into distant lands Yet for all this the history of Israel has for us an interest quite different from that of those other nations of antiquity And if as we see Israel is far surpassed in martial glory by the peoples of the great empires and by the Romans in their influence on the development of law there are yet other points in which it must yield unquestioned precedence to other nations of antiquity We do not find in Israel the same feeling for beauty as among the Greeks who like no nation before them or after showed forth the laws of beauty in every sphere of intellectual life and to this day in such matters stand forth in a perfection which has never again been attained far less excelled Among the Hebrews there is nothing analogous nothing comparable to what we admire in the Hellenic people It has no epic nothing that can be compared with the Iliad and the Odyssey against which the Germans set the Nibelungen Lied and the Finns the Kalewala it has not the slightest rudiments of a drama the Song of Songs and Job are not dramas There is a school of lyrical poetry unsurpassed for all time and the music that corresponds to it But the bent towards science which actuates the Greeks is wholly lacking wholly lacking the bent towards 2 philosophy Nor was it ever eminent in ancient days in the walks of commerce enterprise and invention by which also a nation may conquer the world its intellectual life is absolutely one sided a one sidedness that produces on us the effect of extreme singularity But the attraction it has for us does not lie in this singularity It is due rather to the circumstance that this small nation has exerted a far greater influence over the course of the history of the whole human race than the Greeks or Romans that to us it has become typical in many more respects than they Our present modes of thought and feeling our lives and actions are far more profoundly influenced by the world of thought and feeling which Israel brought to the birth than by that of Greece or Rome Our whole civilisation to day is saturated with tendencies and impulses which have their origin in Israel To be continue in this ebook [Imagining a Place for Buddhism](#) Anne E. Monius,2001-12-06 While Tamil speaking South India is celebrated for its preservation of Hindu tradition other religious communities have played a significant role in shaping the region s religious history Among these non Hindu communities is that of the Buddhists who are little understood because of the scarcity of remnants of Tamil speaking

Buddhist culture Here focusing on the two Buddhist texts in Tamil that are complete a sixth century poetic narrative and an eleventh century treatise on grammar and poetics Monius sheds light on the role of literature and literary culture in the formation articulation and evolution of religious identity and community

The Encyclopaedia Britannica Hugh Chisholm,1910 *The Encyclopædia Britannica* Hugh Chisholm,1910 *Strange Parallels: Volume 1, Integration on the Mainland* Victor Lieberman,2003-05-26 This ambitious work has two novel goals to overcome the extreme fragmentation of early Southeast Asian historiography and to connect Southeast Asian to world history Combining careful local research with wide ranging theory Lieberman argues that over a thousand years each of mainland Southeast Asia s great lowland corridors experienced a pattern of accelerating integration punctuated by recurrent collapse These trajectories were synchronized not only between corridors but most curiously between the mainland as a whole much of Europe and other sectors of Eurasia He describes in detail the nature of mainland consolidation which was simultaneously territorial religious ethnic and commercial and dissects the mix of endogenous and external factors responsible Here then is a fundamentally original analysis not only of Southeast Asia but of the pre modern world
