**A Pride of Place** Kimberly Prothro Williams, 2003. A Pride of Place, the result of a quarter-century's worth of painstaking research and collection, presents the first comprehensive architectural and historic inventory of the widely diverse and irreplaceable rural residences of Fauquier County, Virginia. Hundreds of photographs and illustrations, each accompanied by informative text, provide a fascinating and helpful overview of the county's rich architectural heritage.

*Lady of the House* Charlotte Furness, 2018-06-30. Three accounts of remarkable women who oversaw their own households, stamped their authority on the estates they managed, and overcame misfortune. This book tells the true stories of three gentle women who were born, raised, lived, and died within the world of England's Country Houses. This is not the story of seen and not heard women; these are incredible women who endured tremendous tragedy and worked alongside their husbands to create a legacy that we are still benefitting from today. Harriet Leveson Gower, Countess Granville, second-born child of the infamous Georgiana, Duchess of Devonshire, married her aunt's lover, raised his illegitimate children, and reigned supreme as Ambassador over the Parisian elite. Lady Mary Isham lived at Lamport Hall in Northamptonshire with her family, where, despite great tragedy, she was responsible for developing a house and estate while her husband remained the silent Baronet. Elizabeth Manners, Duchess of Rutland, hailed from Castle Howard and used her upbringing to design and build a castle and gardens at Belvoir, suitable for a Duke and Duchess that inspired a generation of country house interiors. These women were expected simply to produce children, to be active members of society, to give handsomely to charity, and to look the part. What these three remarkable women did instead is develop vast estates, oversee architectural changes, succeed in business, take a keen role in politics, as well as successfully managing all the expectations of an aristocratic lady. The book looks at both the lives of the women and the buildings that they transformed. *The Creative Historian*

*Grammatical and Syntactical Approaches in Architecture: Emerging Research and Opportunities* Lee, Ju Hyun, Ostwald, Michael J., 2019-12-20. Shape grammar and space syntax have been separately developed but rarely combined in any significant way. The first of

these is typically used to investigate or generate the formal or geometric properties of architecture while the second is used to analyze the spatial topological or social properties of architecture Despite the reciprocal relationship between form and space in architecture it is difficult to conceptualize a completed building without a sense of both of these properties the two major computational theories have been largely developed and applied in isolation from each another Grammatical and Syntactical Approaches in Architecture Emerging Research and Opportunities is a critical scholarly resource that explores the relationship between shape grammar and space syntax for urban planning and architecture and enables the creative discovery of both the formal and spatial features of an architectural style or type This book furthermore presents a new method to selectively capture aspects of both the grammar and syntax of architecture Featuring a range of topics such as mathematical analysis spatial configuration and domestic architecture this book is essential for architects policymakers urban planners researchers academicians and students
