**Pan-Africanism and East African Integration** Joseph S. Nye, Jr., Nye, Jr. (Joseph S.), *Towards Pan-Africanism* Stephen M. Magu, 2023-03-11 This book traces the development and impact of regional economic communities RECs in Africa and addresses a timely question do REC members and the REC itself positively influence member states behaviors towards other members and more broadly regionally and continentally due to REC membership Changing member states behaviors is measured across three interconnected fundamental dimensions of societal systems proposed by Marshall and Elzinga Marshall in CSP s Global Repot 2017 These are i the persistence of conflict or its counterpoint achieving peace ii fostering democratization and better governance and iii achieving socio economic development and as proposed by this research a fourth dimension iv being active participants in multilateralism Is membership in a REC ultimately beneficial to the member and other countries in the region While there are no clear and obvious at least discernible traditional benefits such as increase in trade perhaps because Africa s overall trade relative to the world is about 3 percent there are other non trade benefits e g decrease in conflict coercion to take certain actions towards peace and refrain from others coups and wars presenting in REC member states These in actions abilities coercions exclusions and cooperation instances are outlined and discussed in the book

**Politics and Pan-Africanism** Dawn Nagar, 2019-12-12 Offering an examination of the diplomatic and economic regional power structures in Africa and their relationships with each other Dawn Nagar discusses the potential and future of pan Africanism The three primary regional economic communities RECs that are recognised by the African Union as the key building blocks of a united Africa are examined these are the Common Market for Eastern and Southern Africa COMESA the East African Community EAC and the Southern African Development Community SADC These RECS include Africa s major economies Egypt South Africa and Kenya but are also home to Africa s most conflict prone and volatile states the Democratic Republic of the Congo DRC Burundi South Sudan Somalia and Lesotho Providing a detailed overview of the current relationship between these power blocs this book provides insight into the current state of diplomatic and economic relations within Africa and shows how far there is to go for a future of Pan Africanism

**Studies in East African Geography and Development** S.H. Ominde, 2024-03-29 This title was originally published in 1971 This title was originally published in 1971

**Constructing the East African Community** Mariel Reiss, 2022-04-27 This book provides a systematic analysis of the establishment and decision making processes concerning the institutional design of the East African Community EAC throughout the 1990s and discusses to what extent these were impacted and inspired by other regional organizations from Africa and Europe Analysing the decision making processes that led to the set up of the EAC the book explores the extent to which they were impacted by several other regional organizations namely the Organization of African Unity OAU the Common Market for Eastern and Southern Africa COMESA the Southern African Development Community

SADC the European Union EU and the first EAC The findings indicate that the relevant east African state and non state actors adopted substantial aspects from the first EAC the EU and the COMESA and adapted them to set up the current EAC This book demonstrates that the perception of other regional organizations and their institutional design considerably effected the construction of the EAC here its own past provided crucial learning objectives which challenges the notion of mimicry or replica regional organizations of the EU in the Global South This work will be of particular interest to scholars and students of regional and international organizations international relations multilevel governance approaches as well as diffusion literature **East African Community Law** Emmanuel Ugirashebuja, John Eudes Ruhangisa, Tom

Ottervanger, Armin Cuyvers, 2017-03-06 East African Community Law provides a comprehensive and open access text book on EAC law Written by leading experts including the president of the EACJ national judges academics and practitioners it provides the most complete overview to date of this increasingly important field Uniquely the book also provides a systematic comparison with EU law EU companion chapters provide concise overviews of EU law and its development offering valuable inspiration for the application and further development of EAC law The book has been written for all practitioners judges civil servants academics and students faced with questions of EAC law It discusses institutional substantive and jurisdictional issues including the nature of EAC law free movement and competition law as well as the reception of EAC law in Partner States **Ronald W. Walters and the Fight for Black Power, 1969-2010** Robert C. Smith, 2018-02-08 From his

leadership of the first modern lunch counter sit ins at age twenty to his work on African American reparations at the time of his death at age seventy two Ronald W Walters 1938 2010 was at the cutting edge of African American politics A preeminent scholar activist and media commentator he was founding chair of the Black Studies Department at Brandeis where he shaped the epistemological parameters of the new discipline Walters was an early strategist of congressional black power and a longtime advocate of a black presidential candidacy His writings on the politics of race in America both predicted the constraints on President Obama in advancing African American interests and anticipated the emergence of the white nationalism found in the Tea Party and Donald Trump insurgency In this fascinating book Robert C Smith combines history and biography to offer an overview of the last half century of black politics in America through the lens of the life and work of the man often described as the W E B Du Bois of his time **'Is It Global War on Terrorism' or Global War over Terra**

**Africana?** Nkwazi Nkuzi Mhango, 2017-12-06 Global War on Terrorism or Global War over Terra Africana How Imperial Powers Seek to Occupy Africa Militarily is a long onerous academic voyage of the demystification and demythologization of the Global War on Terror former US president George W Bush and former UK premier Tony Blair conceived envisaged and declared for their hidden personal and national interests It is a hidden and untold story of the other side about the GWOT which is but the GWOTA Major arguments presented gyrate around the deconstruction and overhaul of the GWOT so that it can be equally formulated and fought by all nations for the interests of all but not the interests of some as it currently is Also

the book repudiates the pontification the pontifices maximus of the GWOTA have always made ex nihilo while concealing their drive s for perpetually exploiting poor countries Terrorism is a world phenomenon everybody must fight provided it is collectively agreed decided and declared for the collective good and interests of the world but not the interests of a few hegemonic countries that usurped the power of declaring who is a terrorist and who is not Although terrorism is real the manner it is fought is a little bit knotty This tome acts as an eye opener and a wake up call for Africa to start interrogating and excavating the hidden truths about the GWOT chiefly the way it was enacted declared presented and now fought with essentialist and controversialist modus operandi and rationale Other major questions asked and answered are Why exporting military and military hardware guised as fighting terrorism without underscoring the terror military incursion will inter alia cause to Africa especially If truly the aim of the GWOT is to wage war on terror why doesn t the West want to empower African armies Why did the US appoint itself to lead the war conceived and declared without meeting the requirements of the just war or international standards Why hasn t the world learned from Iraq and Libya whose governments were toppled under the fa ade of the GWOT Is it the GWOT or the GWOTA

**Power and the Presidency in Kenya** Anaïs Angelo,2020 The first study to use Jomo Kenyatta s political biography and presidency as a basis for examining the colonial and postcolonial history of Kenya

**The Palgrave Handbook of Christianity in Africa from Apostolic Times to the Present** Andrew Eugene Barnes,Toyin Falola,2024-03-07 This comprehensive Handbook provides chapter length surveys of the history of Christian missions and Christian churches on the African continent since the time of Christ Africa is rapidly becoming the most Christianized region of the world While common narratives about Christianity tend to present Christianity as a set of ideas and beliefs imposed on Africa from the outside such narratives hold little meaning for African Christians or for those seeking to understand Christianity in Africa as an indigenous faith The aim of the Handbook is to propose a set of scholarly starting points for a new set of narratives The chapters collected here communicate an idea of Christianity as it has been embraced among African peoples at particular historical moments It therefore grants voice to the various strands of African Christianity on their own terms and offers scholarly study of what these voices teach us about how the world s most adhered to religion is practiced and understood on the continent of Africa

Measuring International Authority Liesbet Hooghe,2017 This is the third of five ambitious volumes theorizing the structure of governance above and below the central state This book is written for those interested in the character causes and consequences of governance within the state This book sets out a measure of authority for seventy six international organizations IOs from 1950 or the time of their establishment to 2010 which can allow researchers to test expectations about the character sources and consequences of international governance The international organizations considered are regional e g the EU Andean Community NAFTA cross regional e g Commonwealth of Nations the Organization of Islamic Cooperation and global e g the UN World Bank WTO Firstly the book introduces carefully constructed estimates for the scope and depth of authority exercised by international

governments The estimates are unique in their comparative scope their specificity and time span Secondly it describes describe broad trends in IO authority by comparing delegation and pooling over time across IOs and across decision areas Thirdly it presents the evidence gathered by the authors to estimate international authority by carefully discussing forty seven international organizations and showing how their bodies are composed what decisions each body makes and how they make decisions Transformations in Governance is a major new academic book series from Oxford University Press It is designed to accommodate the impressive growth of research in comparative politics international relations public policy federalism environmental and urban studies concerned with the dispersion of authority from central states up to supranational institutions down to subnational governments and side ways to public private networks It brings together work that significantly advances our understanding of the organization causes and consequences of multilevel and complex governance The series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars The series targets mainly single authored or co authored work but it is pluralistic in terms of disciplinary specialization research design method and geographical scope Case studies as well as comparative studies historical as well as contemporary studies and studies with a national regional or international focus are all central to its aims Authors use qualitative quantitative formal modeling or mixed methods A trade mark of the books is that they combine scholarly rigour with readable prose and an attractive production style The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and Walter Mattli of the University of Oxford

**African Regional Trade Agreements as Legal Regimes** James Thuo Gathii, 2011-07-21 African regional trade integration has grown exponentially in the last decade This book is the first comprehensive analysis of the legal framework within which it is being pursued It will fill a huge knowledge gap and serve as an invaluable teaching and research tool for policy makers in the public and private sectors teachers researchers and students of African trade and beyond The author argues that African Regional Trade Agreements RTAs are best understood as flexible legal regimes particularly given their commitment to variable geometry and multiple memberships He analyzes the progress made toward trade liberalization in each region how the RTAs are financed their trade remedy and judicial regimes and how well they measure up to Article XXIV of GATT The book also covers monetary unions as well as intra African regional integration and examines free trade agreements with non African regions including the Economic Partnership Agreements with the European Union

**Race, Nation, and Citizenship in Postcolonial Africa** Ronald Aminzade, 2013-10-31 Nationalism has generated violence bloodshed and genocide as well as patriotic sentiments that encourage people to help fellow citizens and place public responsibilities above personal interests This study explores the contradictory character of African nationalism as it unfolded over decades of Tanzanian history in conflicts over public policies concerning the rights of citizens foreigners and the nation's Asian racial minority These policy debates reflected a history of racial oppression and foreign domination and were shaped by a quest for economic development racial

justice and national self reliance      Sovereignty as Responsibility Francis M. Deng, Sadikiel Kimaro, Terrence Lyons, 2010-12-01 The authors assert that sovereignty can no longer be seen as a protection against interference but as a charge of responsibility where the state is accountable to both domestic and external constituencies In internal conflicts in Africa sovereign states have often failed to take responsibility for their own citizens welfare and for the humanitarian consequences of conflict leaving the victims with no assistance This book shows how that responsibility can be exercised by states over their own population and by other states in assistance to their fellow sovereigns Sovereignty as Responsibility presents a framework that should guide both national governments and the international community in discharging their respective responsibilities Broad principles are developed by examining identity as a potential source of conflict governance as a matter of managing conflict and economics as a policy field for deterring conflict Considering conflict management political stability economic development and social welfare as functions of governance the authors develop strategies guidelines and roles for its responsible exercise Some African governments such as South Africa in the 1990s and Ghana since 1980 have demonstrated impressive gains against these standards while others such as Rwanda Somalia Liberia Nigeria and Sudan have failed Opportunities for making sovereignty more responsible and improving the management of conflicts are examined at the regional and international levels The lessons from the mixed successes of regional conflict management actions such as the West African intervention in Liberia the East African mediation in Sudan and international efforts to urge talks to end the conflict in Angola indicate friends and neighbors outside the state in conflict have important roles to play in increasing sovereign responsibility Approaching conflict management from the perspective of the responsibilities of sovereign      Power in the Global Information Age Joseph S. Nye Jr., 2004-04-28 One of the most brilliant and influential international relations scholars of his generation Joseph S Nye Jr is one of the few academics to have served at the very highest levels of US government This volume collects together many of his key writings for the first time as well as new material and an important concluding essay which examines the relevance of international relations in practical policymaking This book addresses America s post Cold War role in international affairs the ethics of foreign policy the information revolution terrorism

**Africa and the Backlash Against International Courts** Peter Brett, Line Engbo Gissel, 2020-07-23 At the start of the twenty first century the story of Africa s engagement with international law was one of marked commitment and meaningful contributions Africa pioneered new areas of law and legal remedies such as international criminal law and universal jurisdiction and gave human rights jurisdiction to a number of new international courts However in recent years African states have mobilised politically and collectively against the regional courts and the International Criminal Court contesting these institutions authority and legitimacy at national regional and international levels Africa and the Backlash Against International Courts provides the first comprehensive account of this important phenomenon bringing together original fieldwork empirical analysis and a critical overview of the diverse scholarship on both

international and African regional courts Moving beyond conventional explanations Brett and Gissel use this remarkable research to show how the actions of African states should instead be seen as part of a growing desire for a more equal global order a trend that not only has huge implications for Africa s international relations but that could potentially change the entire practice of international law *Africa* Air University (U.S.). Library,1977 Uniting Africa David J. Francis,2017-05-15 Plagued by bloody wars and armed conflicts political instability communal violence and displaced persons and at the mercy of natural catastrophes such as drought and famine it is not surprising that the Western press has long dismissed Africa as the hopeless continent In the face of these challenges Africa today is faced with a stark choice either unite or perish The debate on why and how the continent should unite in terms of co operative peace security and development is more urgent than at any other time in Africa s post colonial history Moving forward from the failure of the earlier typically idealistic Africa unity project David Francis demonstrates how peace and security challenges have created the imperative for change He argues that a series of regional peace and security systems are emerging and that states that have participated in practical experiments in regional peacekeeping peace support operations conflict stabilization management and preventive diplomacy are building de facto systems of peace and security that could be institutionalized and extended
