Ridpath Library of Universal Literature ,1908 The Sins of Rachel Ellis Philip Caveney,2014-07-14 Pandora is a sweet bright sixteen year old girl when she leaves her parents in London to spend the summer in Wales with her great great aunt Rachel Since she knows Rachel Ellis is very old Pandora is

surprised when she meets a youthful woman who doesn't look more than forty years old. Naturally inquisitive Pandora sets out to explore the surrounding countryside only to discover that her aunt is feared by the local townspeople because of her inexplicable youth and because her strange gardener Ewen has an eerie seductive power over the village women. Protected only with her innocence, Pandora searches for her aunt's dark secret in an atmosphere of fear, suspicion, and ageless evil. As this gripping tale builds to its chilling climax, Pandora must answer the terrifying questions that confront her: Just what does Rachel Ellis want from her? Why does Ewen look at her that way? Why does he come to her room at night? Why does she find herself drawn to his power in spite of her fear? What is hidden behind the boarded-up doorway to the top floor of the mansion? And why does the ghostly apparition of a child beckon to her from the lawn in the night? After this summer, Pandora will never be the same.

The Sins of Rachel Ellis by Philip Caveney is a novel of inescapable terror, the explosive story of a child's soul in peril.

Pandora's Sisters Michael Stephen Fuchs, 2010-11-30. You want to know who gave you your immortal soul? You want a personal relationship with God? Well, we found God. We're all up in God. We've got God's private number. And so do you. Imprinted a hundred trillion times once in every living cell in your big dripping corpus. So says a woman with a pole axe pressed to her neck and the solution to the entire mystery of human existence clutched between her palms. Two weeks earlier she was just your average British expat with a PhD working in Silicon Valley as an artificial intelligence designer for ultra-violent video games, spending the evenings hanging out with her pet chimp and wondering how something as weird as human consciousness could have evolved through mere Darwinian selection. But when a mysterious and disconcertingly attractive behavioural geneticist and a hotshot cryptologist with strange religious affiliations stroll into her life, she begins looking for answers in the backwaters of the human genome, the 97% written off by scientists as junk DNA. And soon after, when men in very strange hats come looking for her, hard drive shooting first and never really asking any questions, she finds herself on the run, pursued by multiple squads of heavily armed religious zealots, the Feds, and worse. All seek to obtain or to suppress forever the key to the revelatory stretch of DNA known as The Pandora Sequence. The outcome of their race to control this explosive secret will forever alter how humanity regards itself, that is, if anyone lives long enough to tell the tale.
